

WELCOME! TO "COPCOLAND"

Legionnaires and Auxiliary Members

WE TAKE a great deal of pleasure in extending the welcoming hand to Legionnaires and members of the American Legion Women's Auxiliary. Medford and all Southern Oregon are glad that you are here. All of the members of our organization are at your service—just as everyone in the Rogue River Valley is anxious to participate in the hospitality accorded you. Visit our Medford general offices—our new power plant at Prospect, the largest hydro-electric plant in Oregon—our offices and plants in other Southern Oregon communities. You'll find a warm welcome throughout "Copcoland!"

What Southern Oregon Offers

Southern Oregon is an outdoor paradise! It offers much to the vacationist who wishes to camp and hunt in the mighty forests, climb lofty mountains, fish in foaming, tumbling streams and rivers, and swim and boat on the glassy lakes near Medford. Southern Oregon has Crater Lake National Park, Diamond Lake, Lake o' the Woods, Rogue River Gorge, the beautiful Klamath lakes, the Oregon Caves and Lithia Park—all close to where you Auxiliary members and Legionnaires are now assembled. Great fruit orchards, lumber mills and box factories and other activities appeal to those who are interested in industries. Medford's new million dollar water system provides you with cold, mountain water while you are here. You may play golf on one of Oregon's finest 18-hole courses—and enjoy many other recreational diversions. In fact, Medford and Southern Oregon offer you everything that helps to make life worth living.

Visitors will be interested in the fact that The California Oregon Power Company has over 4,000 stockholders in this territory—proof that this company is actually "Partners in Progress" with its many customers and friends. Plants and transmission lines are constantly being increased to keep pace with the swift, substantial growth of "Copcoland." This company is proud of the large number of Legionnaires who are members of the Copco organization.
