

SKAGGS SAFEWAY STORES

Distribution Without Waste

Stopping Small Wastes

Ordinary retail grocery clerks are not taught economy in the strictest sense. They use too much paper and twine—large bags where small would do—they drop bags and merchandise on the floor and sweep them out, all of which adds to the cost of doing business. Safeway men are taught to avoid every form of waste—that's why they excel in economy.

Canning Supplies

Now that peaches and pears are coming into the market you will need jars, etc. You know they are all alike so why pay more than we ask? Two carloads—all varieties—for your convenience. Save here!

Kerr self-sealing, Regulars or Ball Mason jars.	Kerr Wide Mouth, Ideals or Economy jars.
Pints, doz. 66c	Pints, doz. 92c
Quarts, doz. 79c	Quarts, doz. \$1.12
Half-Gallons, doz. \$1.07	Half-Gallons, doz. \$1.52

Certo The ideal fruit-jell. 2 bottles 49c	Milk "Maximum", Pet, etc. Tall. Dozen \$1.17	Matches "Safeway" the only moisture-proof match Carton 23c
Pineapple "Maximum" fancy sliced. 2 Tins 53c	Mayonnaise Relish Spread, Best Foods—Pints. Each 38c	Snacks Kipperd snacks, fine for lunches, etc. 4 Cans 25c

Crawford Peaches

Fancy local Early Crawford for canning. Last chance. 89c Per crate

HOBO EXPLAINS WHY FIRE WAS ON S. P. TRESTLE

The official investigation of the forest fire in the Siskiyous is closed and the conflagration in the trestle extinguished. District Attorney Newton C. Chaney returned yesterday from a two days investigation in which a number of Southern Pacific railway special agents took part. The fire was identified from all angles, and the deaths concluded that the blaze, which charred four ties started from a fire built by hoboes, without any more criminal intent than to cook some coffee on Southern Pacific property.

The authorities were puzzled as to just why rascals should desire to cook and rest upon a trestle but this was explained last evening to a Mail Tribune reporter by a gentleman on Front street, who knows the way of the wanderer. He stated that trestles were generally built over deep declivities in the earth. In accordance with the established laws of Nature, the cool air settled in the declivities and when the evening shadows began to fall, the cool air oozed upwards and a geyser stretched on the ties above, received the full benefit thereof. He said that a trestle was quite airy, as a rule, and the coolest place on a railroad, a water tank that dripped water constantly not being any cooler.

As to cooking on a trestle, the dependent depended that it was not such a bad idea and it was widely followed. Trestles have steel girders and guards with flat tops. By building a fire under a grate made of tie-ends a small fire did the work of boiling the coffee and frying the steak, and by using the girders, there was no danger of a forest ranger coming along and asking for the permit to build a campfire in the woods during the forest fire season.

PROGRAM OF BAND CONCERT TONIGHT

- (b) Sancho Panza
- (c) Dances
- (d) Don Quixote
- Popular—"She's Just a Great Girl"
- March—"Chicago Tribune"
- Chambers
- Star Spangled Banner

WEISMULLER WINS PRELIMS

AMSTERDAM, Aug. 10.—(AP)—The United States placed all three of her swimmers in the 100 meters free style finals today. Johnny Weismuller, a Chicago speedster and defending champion, and George Kojac, New York school boy, won their impressively while Walter Lauffer of Chicago finished second to Takashi of Japan in his heat.

Weismuller set a new Olympic record of 58 3-5 seconds in defeating Barany of Hungary. Although three American girls qualified for the 100 meter backstroke, their showing was much less impressive than the men's. Miss Lisa Lindstrom, of New York finished second to Marie Bryan of Holland in a heat in which the Dutch girl set a new world record of 1:21 3-5 for the distance. Miss Georgia Coleman of the Los Angeles A. C. and Mrs. Betty Becker of Pinkston of Detroit, qualified for the finals in the high diving trials.

COPCO FORUM WILL MEET TONIGHT AT 7

Members of the Copco forum will meet tonight at the Copco building to hold a combined business and social meeting. A brief business session will start at 7 p. m. and will be followed by a free movie show. Pictures of particular interest to the Copco group will be featured, including the annual Copco picnic, Legion convention, national air tour and Herbert Hoover's visit to the Rogue River valley.

The meeting will be held on the first floor of the Copco home office building and preparations are being made to take care of a large crowd of Copco employees and their friends.

LARGEST BIPLANE ON COAST FLIES OVER THIS CITY

The largest biplane on the Pacific coast flew over Medford today, en route on its maiden voyage from the Boeing Aircraft factory in Seattle to San Francisco, where it will be placed on the San Francisco to Chicago run. The ship, which has a wing span of 11 feet wider than the monster Ford monoplane here last month, was to have flown at a low altitude at noon over the airport, but when sighted, it was over 6000 feet high, fighting a strong headwind.

The plane has a capacity for 16 passengers, 4500 pounds of mail and baggage and two pilots. It is powered by three 500-horsepower motors and this morning left Portland at a cruising speed of 115 miles per hour. However, this speed was cut down considerably, due to adverse winds.

WALT LEVERETTE RESIGNS AS HEAD OF REALTY BOARD

The resignation of Walter Leverette from the office of president of the Medford Realty board was formally accepted today at the regular weekly noon meeting of the realtors, held at the Hotel Medford.

Every year since the board was organized four years ago, Mr. Leverette has been re-elected as president. As many times he has wanted to resign, he has been persuaded by each time the men persuaded him to reconsider. And he did. Two weeks ago, during a vacation at Lake of the Woods, the popular president sent a letter to the board, asking that his resignation be voted on. The realtors had not taken action on the matter before today.

Otis Mays, vice-president, will serve in the capacity of president until a new officer is elected. Charles Butterfield acted as chairman at the luncheon in the absence of other officials. Attorney Rawles Moore reported on progress of the sale of Medford irrigation land, stating that of the 250 acres listed, only 275 acres remain to be sold. The tracts are from five to 10 acres each, and are valued at from \$25 to \$50 per acre. Mr. Moore urged the cooperation of the realtors in disposing of the tracts before this winter if possible. Lists of the property were given to the board members.

Daily Meteorological Report

August 10, 1928. Fair tonight and Saturday; not quite so warm Saturday. Oregon: Generally fair tonight and cooler; but cloudy west portion; steady interior Saturday; normal humidity.

Fear Ends in Suicide officer of the battleship Itaho, to SEATTLE, Aug. 10.—(AP) Fear and his life with a pistol yesterday, blind pain and fear of approaching blindness caused Lieutenant John Nicholas Whelan, ship's services, who announced the tragedy today.

PUBLIC INVITED TO SEE ARTISAN DRILL CONTEST

The drill team contest at the armory tomorrow morning at 9 o'clock is one of the main features of tomorrow's session of the Pacific coast convales of the United Artisans, which began last evening. The contest begins at 9 a. m. at the armory, with 12 teams from all parts of the coast taking part.

The Salem, Portland and Everett, Wash. teams are expected as being among the leading contenders, with others following close behind. Salem last year won second place and the year before was awarded first in the contest, which will repeat this year. The Salem team has been drilling nightly for several months and has been preparing for the contest since last February. Judges of the contest are Colonel W. H. Paine, U. S. A., retired; First Lieutenant Frank G. Lindley, 160th Inf., O. N. G., Second Lieutenant Weldon H. McEwen, 180th Inf., O. N. G., all of Medford. Officers in charge of all uniformed formations are Captain Lee Clark of Portland, regimental commander, Captain Joseph Pfeiffer, regimental adjutant, Captain R. E. Peppie, aide-de-camp. The drills will be judged on inspection and ability of captains at 15 points each and on alignment, dress in square, cadence, change of direction, value of drill as to entertainment, interval and distance and steadiness in ranks at attention at ten points each. The contest is open to the general public, which, in addition to seeing visiting teams in action, will also see the local Artisan team go through its carefully planned drills.

So why not make the most of these wonderful new vegetables?

Wild Rose pure Lard fresh

A Perfect Shortening for Every Purpose

Try This Tested Recipe
French Fried Potatoes, Paransips, Sweet Potatoes, Carrots
Peel, cut into strips, and let stand in cold water at least an hour. Shake dry, fry between towels and fry a few at a time in deep lard. Temperature of deep lard should be about 375° F. or when cubes of bread will turn light brown in 30 seconds.
Made by Frye & Co., Seattle, Under U.S. Govt. Inspection. Sold by leading dealers.

LEGION MEETING IS POSTPONED UNTIL AUGUST 20

The next regular meeting of the American Legion will take place on Monday night, August 20th, instead of August 13th, as planned. This postponement has been made in order that the convention committee may have additional time to make arrangements for their final report to submit to the post. The report will be presented and read at this time. However, it is expected that they will all be in and paid in plenty of time for the August 20 meeting.
