

# CAROLINAS SWEEP BY HURRICANE

### Warnings Issued of New Storm Approaching Dixie Coast—Piedmont District Hardest Hit—Torrential Ran in Wake—Train Service Crippled.

ATLANTA, Ga., Aug. 11.—(AP)—The Carolinas today felt the effects of the tropical storm as it moved slowly up the Atlantic seaboard while sections of Florida and Georgia continued to wrestle with its aftermath.

A toll of four dead, several injured, scores homeless and much property damage marked its progress late yesterday and last night through the rich Piedmont section of North Carolina and South Carolina. Tonight flood conditions caused by unprecedented rains menaced several communities, crippling communications, disrupting power service and paralyzing railroad and highway traffic.

Cities in South Carolina visited by the storm today counted the cost in thousands of dollars. Damage done to growing crops, highways, railroad trackage and public utilities.

Rivers and streams had swollen to the highest stages on record in many places and isolated half a dozen communities.

In Florida, where the storm's greatest damage was wrought, a new area of approximately twenty miles from Inglis to the west coast was flooded today when officials of the Florida Power corporation's dam near that place opened the flood gates to relieve pressure against the structure from the large volume of water poured into it by the swollen Withlacoochee river. Two hundred persons living in the affected territory were warned last night to evacuate their homes and were believed to have escaped.

As the disturbance passed over into western North Carolina and Virginia during the day the weather bureau ordered southwest storm warnings posted from Washington to Norfolk and southeast warnings from Norfolk to Delaware break water, saying that strong winds were in prospect. At the same time the center of a new tropical storm approaching from the West Indies temporarily was "lost" by the weather bureau which, however, reported that still another probably might be formed south of Jamaica. Caution was advised all vessels in the north and central portions of the western Caribbean.

Central and southern South Carolina apparently were the hardest hit, high winds wrecking a number of scattered homes in that area, and resulting in the drowning most of the territory. Most of the injuries occurred near Batesburg, in which vicinity seven persons were reported hurt by flying debris and in the wreckage of houses.

Jasper J. Hartve died of injuries when his home at Batesburg collapsed in the gale, an unidentified man was found dead on the highway near Cowpens and Grover Hollibough, a southern railway freight conductor, was killed when a high tension wire fell across his cab. The other victim was a 12-year old negro girl who was killed when her home was demolished near Union.

Spartanburg was the greatest sufferer among the larger communities in the storm's path. More than seven inches of rain fell there in 24 hours, sending creeks out of banks and flooding cotton mill towns of Beaufort and Arkwright, nearby, from which residents were forced to flee. In the city proper, some buildings were undermined, basements flooded and gas service interrupted.

Train service throughout the affected area was badly delayed and highway travel in many sections was blocked by washed out roads and bridges. A Southern railway train, due at Columbia at 10:30 p. m., last night, from Greenville was misrouted at Pomaria all night and held up indefinitely due to a washout on the line.

The southbound New York-Atlanta air mail was put on a train after the night carrier plane, which had been held at Richmond, Va., until daylight, was forced down in a field near Greensboro, N. C., today and stuck firmly in the mud. Morganton, Marion and Maidsen, in the vicinity of Hickory, N. C., were isolated today and Hickory was depending for its water supply on three emergency reservoirs after its water works pumping station had been flooded by a four hour cloudburst during which ten inches of rain fell. Hartsville received 3.48 inches of precipitation before the rain stopped at noon today.

OTTAWA, Aug. 11.—(AP)—The yield of fall wheat was estimated at 21,445,000 bushels as against 22,222,000 bushels last year, in a report issued today by the bureau of statistics.

CORVALLIS, Ore., Aug. 11.—(AP)—Ten men were under arrest here today as a result of liquor raids made here last night by local state and federal officers directed by Sheriff Newman. A still with 24 gallons of whiskey and 100 bottles of beer were seized in the raids. Sixteen pints of moonshine were found in a still.

## PIONEER WOMAN OF VALLEY DIES AT RED BLUFF

RED BLUFF, Calif., Aug. 10.—(Special)—Dora, a stroke of paralysis which she suffered late Wednesday night. Mrs. Minnie Belle Stacy, age 85, of Beagle, 16 miles north of Medford, passed away here Friday morning at 11 o'clock in the Sisters' hospital. She became unconscious shortly after suffering the stroke and remained in that state until her death. Her husband, George W. Stacy, was at his wife's side when she died.

Deceased was a member of one of the early pioneer families of the Rogue river valley and besides her husband and four children, Mrs. Arthur Jones, Mrs. Henry Morgan and George and Henry Stacy, leaves two sisters, Mrs. Lily Carter, of Gold Hill, Mrs. Emma Houston, of Trail, and two brothers, Howard Rodgers, of Beagle, and John Rodgers, of Medford.

Mr. and Mrs. Stacy were on route to their home from a trip to southern California and had stopped here to visit their two daughters whose husbands have road grading contracts in Lassen Volcanic National park. They had returned from the park and decided to stop here at an auto camp over night before resuming their trip to Oregon. Mrs. Stacy was attacked during the night and immediately removed to the hospital where she died.

The body was being prepared for burial here today and will be shipped to Medford on Saturday, funeral services being planned for Monday.

## CITY EXCHEQUER BOOSTED BY FEE FROM TENT SHOW

The city government which has been taking much pleasure for the city treasury from the Frank's Comedians tent show for two months, through the license fee paid by that amusement company, \$300 a month, will pick up another \$100 cash next Saturday, the license fee to be paid by the Christy Bros. circus and wild animal show being \$100 for that one day.

While the license fee for carnivals is \$100 a day the city government received nothing from the carnival company that played here recently during the American Legion convention, as it had given over to the local Legion post the handling of all amusements and concessions for convention week, as its contribution to the cause.

The license ordinance provides a fee of \$50 a day for a tent theatrical show, or \$100 a week, but in the case of a protracted engagement like that of Frank's Comedians, the license fee is \$300 a month.

## REALTY DEALS OF PAST WEEK FOR LOCAL PROPERTY SEPT. 4, UNDERWAY

Real estate activity of local dealers during the past week was confined largely to small deals within the city limits or in the suburbs among which the following are listed by two offices:

Charles F. Peck of Klamath Falls, purchased a new home in the Charles Wing subdivision on Spiking street and has already taken possession of the property.

O. Tucky sold his house on Palm street to D. Z. Howard for a consideration of \$1500. The deal was handled through the Wing Realty agency.

W. E. Stevens is the new owner of the O. Stearns home just off the Crater Lake highway. The consideration was near \$2500 and the sale was made through the E. C. Corn real estate office.

Four acres of land and a four room house just off Agate street were sold this week to R. V. Gibbs. Miss Frances Hubert and Mrs. Lillian Severson formerly owned the property. The deal was closed by E. C. Corn.

A. A. Frenzel bought a new five room house from Vernon Vawter. The dwelling is located in Glen Oak park on Siskiyou Heights.

A small suburban farm home located north of Spring street on the Crater Lake highway was bought this week by Frank James who purchased the property from H. W. Hall for a consideration of \$5000. Charles Wing had charge of the transaction.

Frank Zitzow, who arrived in Medford recently from Minneapolis, Minn., purchased the John C. Thorson place on the Pacific highway yesterday through the Wing agency.

The Darryl property north of the Elks temple was sold this week to Harry E. Peck at a consideration of \$4000, the Wing office closing the deal.

Incidental to the opening of the public schools of Medford on Tuesday, September 4th, the day after Labor day, the office of Superintendent E. H. Hedrick at school headquarters in the Medford building has been one of the busiest places in the city, and will continue to be so this week and until the day of the schools' opening, because of the magnitude of preparation work that must be done. Principal R. H. Conkle of the senior high school, who last week returned to the city, will also be very busy in his preparations from now on.

The many school teachers will soon begin arriving to get located in plenty of time for the school year, and already quite a number of offers of board and rooms for teachers, or for rooms alone, have been filed by local homes at school headquarters.

The high school teachers must be in the city to report for duty on August 30th, when the registration for the high school begins, and the grade teachers must begin their duties on September 1.

SKAGGS EMPLOYEES TO HOLD PICNIC

Skaggs Siftway store employees and their families from six towns will hold an all-day picnic today at Canyonville, near Roseburg, with a number of people attending from Medford.

Booseberg, Myrtle Point, Coquille, Grants Pass and Medford stores will be represented at the annual event which is sponsored by the management of the chain stores.

Daily Meteorological Report

Sunday, August 12
