

MEDFORD PEARS TOP PORTLAND'S FRUIT MARKET

PORTLAND, Ore., Aug. 17.—(AP) Butter prices were higher all around today. Extras and firsts were a full cent higher at 48c and 45c respectively while standards and prime firsts were a half cent higher at 46 1/2c and 46c respectively.

Egg values were unchanged. Country dressed meats and poultry prices were steady. Trailing was not as active today on local wholesale produce markets as earlier in the week and prices generally had an easier tone although changes were mostly small.

Potatoes were drab with top prices on best grades of Yakima gems and Idaho cobbles around \$1.50 per sack. Local potatoes were cheaper, white varieties going around \$1.25 and early Ohio in the neighborhood of \$1.00 per sack. Small lots of old crop Yakima gems, U. S. No. 1 grade, sold at 75c while combination grades went as low as 25c 50c a sack.

Onions were decidedly firm and supplies were small. Walla Walla yellow globe shippers have practically cleaned up on shipments and practically no onions have been moving from the Yakima district as yet. Dealers look for high prices to prevail until around Sept. 1, when Yakima and early Oregon onions will begin moving to market.

Tomatoes were in oversupply and weaker at 50c 75c per lug depending on condition.

Although the local markets were glutted with supplies of over ripe Bartlett pears which went as low as \$1.50 per box and below, there were some strictly first class Medford and Yakima Bartletts which brought \$2.50 per box.

A few Italian prunes were on the market but there was no demand. They were immature, having been picked about two weeks too early, and offerings moved slowly at 50c per box.

Peaches were in plentiful supply and prices were easier. California Lovells sold mostly at 80c 95c per box, Oregon Crawfords from The Dalles around 80c 90c, and what few J. H. Hales there were available at \$1.40.

Grapes were plentiful and sold at a wide range of prices depending on variety and condition.

FLU EPIDEMIC IN CANADA DECIMATES INDIAN POPULATION

EDMONTON, Alta., Aug. 17.—(AP) An influenza epidemic in the Mackenzie river country has taken a toll of 275 lives among the natives in two weeks, says a report received here. So far as is known only one white man has died of the disease.

North men attribute the large death rate among the natives to the fact that they refuse to take medicine prescribed by physicians or make any effort to fight the sickness. Instead, they say, they sit moaning in their camps and cabins waiting patiently either to die or recover. Drugs given by medical men and missionaries are thrown away because they do not effect an immediate cure.

SWORD FISH ATTACKS FISHERMENS' DORY

GLACE BAY, N.S., Aug. 17.—(AP) A battle with a large sword fish that pierced a dory and broke its sword, only to be captured later, was recounted today by two fishermen.

The encounter occurred off the harbor yesterday. The fish was harpooned as it drowsed on the surface. It rushed the boat and thrust its sword through the bottom. One of the men lassoed the ebony blade and held on firmly while their schooner raced to the rescue. The fish, fighting viciously, snapped off the sword and raced away, still carrying the harpoon, but was caught after an hour's battle.

Krause's Marshmallows

The Candy Food that aids digestion by neutralizing Excess Acidity. Delicious in Salads, Cake Fillings, Desserts. Good for baby in his milk. Druggists, confectioners, grocers sell Krause's.

MURDER OF GIRL STILL A MYSTERY TO THE POLICE

CHICAGO, Aug. 17.—(AP) Conflicting evidence confronted authorities today in their attempts to identify the woman found slain near Crown Point, Ind., yesterday amid baffling circumstances. The body, burned so badly, recognition was almost impossible, was at first believed that of Adeline Zaccardo, young sweetheart of Angelo Francisco, bank robber, who was shot to death following the holding of the West Michigan state bank on Monday. The girl's mother and sister partly identified some of the remnants of clothing taken from the burned body and a scar similar to one on the girl's right arm was found on the charred body.

However, Coroner's Physician C. R. Posthorne, who conducted a post mortem, reported the slain woman was not a mother, while the missing Zaccardo girl has two children. Lake county authorities were continuing their investigation, not satisfied with the identification.

MAN WHO HELD UP HOOD R. RANCHER A FOLSOM CONVICT

HOOD RIVER, Ore., Aug. 17.—(AP) Belief that the man who kidnaped Mr. and Mrs. Al G. Graff, forcing them to take him to Vancouver, Wash., after he had extracted \$5,000, was Leo Brennen, alias Joe D. Eckert, ex-convict of Folsom, was stronger than ever today, following the finding of fingerprints of the Graff couple.

Frank Grimm, Bertillon expert of The Dalles, photographed the fingerprints found on the window of the Graff automobile and declared they corresponded with those of Brennen, who was first under suspicion when Mr. and Mrs. Graff, in looking over photographs of ex-convicts, selected that of Brennen.

Rin-Tin-Tin Comes to Rialto Tomorrow

Rin-Tin-Tin comes back to the Rialto tomorrow in "Rinty of the Desert." In this picture Rin-Tin-Tin is first seen as an outcast dog, who leaves the regions of sand and cactus by way of a passing truck, and finds himself at home with old man Marlowe and his pretty granddaughter, Mary, keepers of a small dime museum. Mary's young man, Pat Casey of the police force, becomes a friend of Rin-Tin-Tin's. The big-hearted dog, not contented with his limited friendships, also adopts a litter of orphan puppies.

All goes well till Mason, a dishonest partner of Marlowe, lures the old man away. Pat Casey and Rinty is accused of attacking his gang capture and imprison Casey, and escape, leaving him to be attacked by a ferocious bulldog. Rinty is accused of attacking his master and sentenced to be shot. Then begins the exciting action of the play.

MEXICAN TRAFFIC OFFICERS VISIT OREGON CAPITAL

SALEM, Ore., Aug. 17.—(AP) That an occasional "get together" of the peace officers of Mexico and the United States would lead to a better understanding between the two countries was the opinion expressed here today by Colonel Bowles when he and his squad of Mexican traffic officers called officially on Governor Patterson.

Colonel Bowles also expressed the opinion that the status of law and the respect for law in the future is going to depend largely on the character of the police personnel. The eleven officers, headed by Captain Caesar Puente, stood at attention while Colonel Bowles and Governor Patterson conversed. The governor recalled with pleasure a visit to Mexico City in 1928. Mexican and American civil affairs were discussed briefly. Colonel Bowles said it was the purpose of his men to return in a measure

the expression of good will carried to Mexico by Colonel Lindbergh. The troop of motorcycle officers, when at home, police the federal roads and when Lindbergh visited the Mexican capital escorted him from Valbuena, the aviation field, into the city. The troop did not have time to give a demonstration in the streets of Salem today. After being escorted through the state institution grounds by members of the Oregon traffic squad they returned to Portland where a demonstration will be given in Multnomah stadium Sunday evening. The troop will ride south on their return to Mexico Monday.

Saved by Quick Thinking. SAN MATEO, Cal.—(AP)—Crushed by a ton of earth which caved in upon him while he was digging a 12-foot ditch, Alexander Cannon, 27, saved his life by thrusting his head between rocks at one end of the ditch where he was able to breathe. He was rescued by workmen. Doctors said he had suffered broken ribs and internal injuries.

JEFFERSON.—High school per capita cost, \$93.85, is lowest in Marion county.

THE DALLES.—Work begins on \$165,000 Eastern Oregon Tuberculosis hospital.

AIR ARMAMENT SHOULD BE CUT DOWN, SAYS L. G.

LONDON, Aug. 17.—(AP)—If the recent air maneuvers over London have proved anything, they have proved that cutting down of armament of the air is most urgent, in the opinion of Lloyd-George, the liberal leader.

Commenting in an Evening Star interview on the lessons of the air maneuvers which many experts declare revealed that London was vulnerable to an air attack, Lloyd-George said: "It is horrible to think of what war in the air will mean in the future. It will be devastation, annihilation—nothing less."

The liberal leader said that the whole thing showed "that facts are not the slightest use unless you tackle disarmament." It is useless to have pacts as long as nations are perfecting the machinery of destruction. It is bound to end

sooner or later in a smash. Of all the armaments that should be cut down, armament of the air is the most urgent." GWENDOLEN.—Pacific Power & Light company will rebuild transmission line southward to a point near Rock Creek.

Oregon Cauliflower Fritters

[Portland sends this prize recipe]

These are perfectly delicious—but be sure you fry them in a delicate-tasting fat. Have you ever tasted Crisco right from the can?

1 large cauliflower 1/2 teaspoon salt 2 eggs, separated 1 cup milk 1 cup flour 1 tablespoon melted Crisco

Boil cauliflower in salted water until tender. Separate flowers, sprinkle with salt and pepper, dip in batter prepared as follows: Mix salt with flour. Combine eggs, milk and melted Crisco. Stir liquid into dry ingredients. Beat until smooth. Dip each flower into the batter and drop quickly into deep hot Crisco (360° to 370° F., or when a small piece of bread browns in 60 seconds). Fry until brown. This will serve 8 people. For a small cauliflower use 1/2 of the batter recipe.

KLAMATH FALLS. — Weyerhaeuser Timber company begins work on great milling project.

Father Dubuc was born and educated at Nicolet, Canada, and ordained a priest at Sturgeon Falls. He had been priest at Lavigne for three years. Surviving are his parents, both of Montreal.

The secret in making gravy

is to add the liquid to the browned flour a little at a time so you can stir up a smooth mixture. Nothing more than control! Hills Bros. similarly control the roasting of their coffee by roasting only a few pounds at a time by their patented, continuous process. A rich, uniform flavor is always developed because every berry is roasted evenly.
