ONE STORY COLONIAL FOR CORNER LOT

"FINANCING OF THE HOME"

By D. M. CROOKS

The design having been decided upon, the next problem is the obtaining of the money to build with. This may be accomplished in several ways.

One must never depend on borrowing more than one-half of the combined value of the lot and the home to be built.

It is well to bear in mind that the better your plans and the more explicit your specifications the more money you are liable to get.

If you have had an account with one of the banks in your locality it would be advisable to see them concerning your loan.

Building and Loan Associations usually make larger loans but their rate of interest is slightly higher than that of the banks.

The delivery of the money for the payment of materials and labor is made in two ways.

One of the most predominant features of the exterior is the use of bricks as a porch and terrace paving.

What causes our floors to squeak? Floor squeaks may be caused by several things, such as improper bridging of the joist.

Most cracks in plaster occurring in the corners are caused by the improper nailing of the framing materials.

Our lot has a large hill on the back and is level with the street on the front.

In visiting a number of new houses I have noticed that the corners in some of the rooms have cracked.

Laughter on horseback, romance on the polo field, with a hero of the "100" who rated 100 per cent in the night club.

That in itself is William Haines himself. The story is that of smart society and a millionaire's son.

His own cockiness first wins him a place on the squad and then loses both his father's respect and his position.

Allice Day, as the society heroine, furnishes a perfect foil for Haines' love-making.

STILL EXPLOSION WIPES OUT TOWN AND KILLS OWNER

RONALD, Wis., Aug. 20.—(AP)—With the death of Bert Pellegrine, owner of the still that exploded and set fire to this little mining town in the Cascades Saturday night, deputy sheriffs turned their efforts today to hunting a dozen confederates.

Fraternity orders and citizens generally came to the rescue of the 200 men, women and children, left homeless by the fire which destroyed nearly forty homes and business buildings before it swept into virgin timber towards Roslyn.

The flames were checked within a half mile of the town by a force of 200 men, as the fire neared a powder house used for mine explosives.

A forest patrol today was guarding the smouldering fire in case of another outbreak.

The loss is estimated at approximately \$100,000.

SAYS SMITH IS USING BEER AS A CAMOUFLAGE

MILWAUKEE, Wis., Aug. 20.—(AP) Norman Thomas of New York, socialist candidate for the presidency, assailed Governor Smith of New York before several thousand persons at the annual picnic of the socialist party at West Allis yesterday.

"Governor Smith," Mr. Thomas told the socialists, "is disguising a beer bottle before the workers in the hope they will forget about bread."

He predicted that regardless of the presidential election result, neither party will make any change in prohibition.

"Whether Smith or Hoover wins is to us a matter of minor sporting interest," Mr. Thomas said. "Some of us who were guilty of voting for Wilson in 1916 because he kept us out of war, only to learn that the difference between him and Hughes was the rhetorical embellishments with which he offered to the God of war, are not likely soon to throw away our votes again by choosing between Tweedle-dum and Tweedle-dee."

Eugene Beats Albany Eugene defeated Albany 7 to 2 in the final game of the Williams valley league schedule here Sunday and clinched second place in the second round of league standing. Bend is in first place.
