the astonishing similarity of these two voluminous documents. United States that is not only widespread, but passionate, In fact, on many issues the two addresses are practically identical. Take the farm problem, for example. Both caudia farm conference, to which Governor Lowden is to be invited. Both are for government aid, in diisposal of the surplus, and are perfectly in step all down the line.

Inland waterways? Both endorse them. Smith prefers the New York route, but if engineers so say will favor the St. Lawrence route. Mr. Hoover favors the St. Lawrence route, but if this proves unavailable wants the next best route.

Both favor collective bargaining for labor and oppose the strictly partisan one." abuse of injunctions-both are for a protective tariff, both are for Boulder Dam, with the rights of all states involved proteeted ; both are for adequate flood control, and both for simplification and unification of federal bureaus; both condemn personalities and pledge themselves to conduct their campaigns on a high level; both are bound by no promises to individuals or parties; both are opposed to immigration laws separating fami-

lies, etc., etc., until the similarities become almost tiresome.

Having been first on the seene, however, Hoover profits front the comparison. In fact, we believe we are not a victim of any partisan prejudice when we say that the Hoover speech, in Editorial condelences are being offered the Eugene Boy Scout, who was not selected to accompany tom. Byrd on his flight to the South Pole. We contractly con-gratulate the young mañ, as the South Pole is ng more of a place to accompany the speech than the New York Governor. Hoover's speech was really new. It WAS different. It was the earnest erred of a big man, a superr and very earnet man.

Outside of the Prohibition plank, the eloquent evangelism of Wilsonian Democracy, and the clear-cut stand on government ownership of power sites, the New York Governor's acceptance speech was pretty old stuff.
