

MEDFORD MAIL TRIBUNE

Daily, Sunday, Weekly... MEDFORD MAIL TRIBUNE... Entered as second class matter at Medford, Oregon, under Act of March 8, 1879.

Editorial Correspondence

SAN FRANCISCO, Aug. 28.—We left Medford at 5:30 in the morning, the bus a 1917 Buick... At Medford that afternoon, we were over nine hours late.

It was frightfully hot in the Sacramento valley—an egg would have fried nicely on the road side of the car.

Taking a heavy overnight and only enough cash for a street car fare and a rindside seat (beware of pickpockets) we went to the baseball park, on Valencia avenue.

Another one of our promising young men has lingered too long in the moonlight. The nuptials will be an affair of the early fall.

The valley pumpkins are nearing maturity, and look sickly.

Fifteen nations of the earth have signed a treaty not to engage in any more wars, until the next one. The treaty is hailed as a masterpiece of human when they are feeling kind, and provides for the eradication of mass eunuchism by wholesale use of words.

U. S. GRANT But so few empire makers have looked at the map. Fate has a way of picking unlikely material.

Without enough money to pay for a stateroom home... Turned farmer on a hamsterable farm, turned bill collector, turned clerk in the country store, that his brothers ran.

Thousands are starving in Haiti, in an area over which ripped and flew a hurricane. The aid to date has been chiefly verbal, viz.: "Oh, the poor Americans!"

Mr. Rashok, campaign boss of democracy, reports that I never met a man, including myself, who understood the provisions of the McNary farm aid bill.

The leaves of the trees have started to fall. Leaves are another commodity that Nature furnishes in abundance, where they are least needed.

FANCY WRITING (Klamath Falls Herald) The fellow who is continually trying to upset traditions and make history a liar is a bad gazabo...

part that he had boxing gloves on his hands, and wore a pair of crimson silk ties.

To return to the fight—that sell of "Camera" apparently got under Mr. Emmanuel's skin.

And then it happened! Toward the end of the seventh round, while Armand was again forcing the back-peddling and seemingly hard-pressed Mickey to our corner, he suddenly shot back and slid almost across the ring on his scuffed shoes.

There he was, looking leaner than ever, and with a slightly wistful expression on his face, Mickey started after him slowly. Then a most surprising thing happened. Instead of doing what he should have done no doubt, jump on his bicycle, Mr. Armand Emmanuel proceeded to wind in with both hands flying, and the surprised Alister Walker actually retreated to the ropes.

"He's up!" someone yelled. There he was, looking leaner than ever, and with a slightly wistful expression on his face, Mickey started after him slowly.

But it was only a thousand-to-one chance. We saw the "coup-de-grace" this time. It didn't travel more than six or seven inches. This time the native son went down to stay down.

Always said that big fish couldn't fight—then I'll be never started. R. W. R.

MARSHFIELD, Ore., Aug. 28.—(AP)—Major General Jadin, chief of army engineers, expected here in connection with an inspection of the port of Coos Bay, had not arrived today.

Messrs. Walker and Emmanuel presented an interesting study in contrasts—a contest between a greyhound and a bulldog.

Rags wanted at the Mail Tribune office. Must be clean.

Personal Health Service

By WILLIAM BRADY, M. D.

Signet letters pertaining to personal health and hygiene, sent to disease diagnosis or treatment, will be answered by Dr. Brady of a stamped, self-addressed envelope is enclosed.

IN VERY troublesome cases of varicose veins it is sometimes necessary and advisable to resort to surgery.

In the last two or three years I have seen a formidable procedure to be sure, but to the modern surgeon with modern methods it is a simple operation and one that can be performed in the patient's own home.

These injections are given as one or more of the following hypodermic injections. They may be administered either in the doctor's office or at the patient's home.

When I spoke of the chemical treatment before, I added a warning about "institutes" and other warnings. I have heard from some of the "institutes" and other quacks.

Rippling Rhymes

(By Walt Mason.) UNSEEMLY WRATH

I would not let the sun go down upon my wrath, or seek my couch disheveled by a heavy frown, to wake at daybreak with a groan.

Answer:—I imagine very few physicians would take issue with the theory your friends' family doctor entertains.

Answer:—Anyone who knows anything about athletics knows that tobacco diminishes endurance.

Answer:—The "trapdoor" spider, commonly called "tarantula" and sometimes found in bunches of bananas, is only slightly poisonous.

OREGON CROPS IN GOOD SHAPE, BUT RAIN IS NEEDED

PORTLAND, Ore., Aug. 29.—(AP)—While a few local showers have occurred in eastern counties of Oregon, and some light rain has fallen near the coast, the weather bureau of the United States department of agriculture said today in its monthly weather report that over most of the state the summer drought is still unbroken.

The government summary of weather and crop conditions in Oregon for the week ending August 28, follows:

Cereals: Late spring wheat in elevated northeastern districts is maturing better than was expected.

Livestock: Owing to short pasturage considerable feedings of stock is being done. The milk supply is low, owing to short feed.

Portland, Ore., Aug. 29.—(AP)—Cattle and calves, steady, no receipts. HOGS.—Receipts 50, feeder pigs weak to 50c lower.

Portland, Ore., Aug. 29.—(AP)—Wheat: Big food bluestem, hard white \$1.30; soft white, \$1.12; western white \$1.15; hard white, \$1.09; northern spring \$1.10; western red, \$1.09.

Portland, Ore., Aug. 29.—(AP)—Wheat: Big food bluestem, hard white \$1.30; soft white, \$1.12; western white \$1.15; hard white, \$1.09; northern spring \$1.10; western red, \$1.09.

Portland, Ore., Aug. 29.—(AP)—Wheat: Big food bluestem, hard white \$1.30; soft white, \$1.12; western white \$1.15; hard white, \$1.09; northern spring \$1.10; western red, \$1.09.
