# CURTIS ATTACKS TARIFF POLICY DEMOCRATS URGE

HARRISBURG, Pa., Aug. 30.—(AP)—The democratic tariff policy, particularly as related to agriculture, was attacked by Senator Curtis in a speech today before members of the national organization.

"In the 11 months ending August 1921, when wheat was on the free list," the senator said, "Canada sold \$99,472,000 worth of wheat to the United States."

"The figures show that wheat imported from Canada for the week ending April 6, 1923, the week before the order was issued increasing the duty on wheat from 30 to 42 cents per bushel, was 2,269,000 bushels, while only 37,000 were imported during the week after the order became effective."

# Salem Cow Jumps Upon Auto Hood; Driver Loses Eye

SALEM, Ore., Aug. 30.—(AP)—Whether there is a blood descendant of the cow that jumped over the moon in the herd at the state training school is not definitely known but one of them seemed to show kinship to the animal of nursery fame yesterday when she jumped from a high bank near the school onto the pavement, and then attempted to jump over an automobile driven by O. D. Shorb, a farmer. Mrs. Shorb was also in the car.

The cow landed squarely on the hood of the car, her horns breaking the windshield. A piece of glass penetrated Shorb's right eye, permanently destroying the sight, a physician said.

# International Society makes the Blindfold Test MILLICENT, Duchess of Sutherland chooses OLD GOLD

WHILE having tea with several American friends, someone suggested that we try the blindfold cigarette test, now so popular in America. I volunteered as the subject, and while blindfolded, smoked the four different cigarettes... each brand making its appeal "incognito." Without the least hesitation, I named Cigarette Number 3 as the best—and it proved to be an Old Gold. I am not at all clairvoyant, nor am I a particularly good guesser. I identified my favorite Old Gold, because its delightful smoothness and coolness immediately distinguished it from the other brands.

The Duchess made the blindfold test at La Maison du Monastere—her beautiful country place in France. She was asked to smoke one of each of the four leading American brands, clearing her taste with coffee between smokes. Only one question was asked: "Which one do you like best?"

MILLICENT, DUCHESS OF SUTHERLAND, daughter of the Earl of Rosslyn. She is deeply interested in social questions, and is widely known as a writer of notable books and plays. She is one of the most brilliant and active women in England.

What is this quality that tells? Old Gold's honey-like smoothness... that's the net of it. But this cool and fragrant charm can come only from the heart-leaves of the tobacco plant. No heavy, coarse top leaves... no withered ground-leaves. That's why Old Golds are different, better... why you can pick them.
