

BYLLESBY NEWS BULLETIN GIVES ROGUE PUBLICITY

Some real publicity for this territory, through the medium of The Volt annual, has appeared in recent issues of Byllesby national publications.

The second issue of The Volt Annual, published to promote a wider knowledge of the territory served by the California Oregon Power Company, presents in most attractive form the advantages of "Copeeland."

Among the views shown are electrified farms, orchards and ranches, pictures of the Umpqua river as seen from the Pacific highway; of Crater Lake, Oregon; of forests and waterfalls, and of the Oregon Caves, as well as some industrial scenes.

ECZEMA

WE know what Anti-Prexol is and what it will do. You don't know unless you have used it. We don't ask you to gamble on results. Anti-Prexol costs you nothing if you are not satisfied. After you have used this treatment according to directions, if you are not absolutely satisfied with results, your druggist will refund the full purchase price without argument.

ECZEMA is often very hard to cure. The sufferer becomes discouraged. He has tried so many things that give only temporary relief. He loses faith in all remedies. You may have never heard of Anti-Prexol. Until recently it has never been advertised, although physicians have prescribed it for 20 years.

ANNOUNCING that we have been appointed exclusive factory distributors for Jackson and Josephine Counties of the Ray Automatic Oil Burner. Recognizing the fact that oil is the modern fuel for heating, we have chosen the RAY Oil Burner because of these exclusive features: 1. Perfect combustion of heavy fuel oil. 2. Single unit construction resulting in compactness and neatness. 3. Burner is hinged to a tile-lined door, giving easy access to furnace, if desired, at any time, and protection of burner from radiant heat. 4. Has a special patented oil cooled motor. This exclusive feature keeps the motor cool and heats the fuel oil as well—one of the reasons why a lower grade of oil can be used. 5. Quietness is assured by the fact that there is but one moving part. 6. Burner is installed outside of furnace—easy accessibility—no parts to burn out. 7. There are no small air or oil nozzles to clog up. 8. Firing takes place in ash pit, all heating surfaces are consequently utilized and combustion is completed in the high temperature, refractory lined, furnace. 9. Its rugged construction eliminates necessity of constant repair and assures many years of satisfactory service. Ray Automatic Oil Burner adds to the happiness of a home—and happiness has no price. Our Convenient Terms Make It Possible for Every Home Owner to Have a Ray Oil Burner. PEOPLES ELECTRIC STORE. 214 West Main Street. Phone 12.
