

'DON'T BE FOOL' RUTH SAID AS KISS IS REFUSED

Atlantic Flyerette Chilly and Cruel, Hubby Alleges—Further States He Has Lost Weight and Sleep—Miss Edler, Nee Womack, Indifferent to Divorce.

DALBOA, Canal Zone, Sept. 7. (AP)—Lyle Womack hopes to obtain an interlocutory decree of divorce in December from Ruth Edler, who "chose a career rather than be a housewife."

Her failure to kiss him upon her return to New York after almost flying across the Atlantic is cited in his petition for divorce as a cause of much embarrassment. He charges that at that time she said to him in an undertone:

"Don't be a fool." Cruelty is charged in the petition and Womack understands his suit will not be contested. Although an interlocutory decree may be obtained in December under the laws a full divorce can not be granted before next June. Womack's petition says his weight has been reduced, efficiency for work lessened, and health and reason endangered. He charges that his wife's transatlantic flight attempt caused him many sleepless nights.

HOLLYWOOD, Cal., Sept. 7.—(AP)—Ruth Edler will not contest the divorce action filed against her in Dalboa by Lyle Womack.

"If he wants a divorce there must be a good reason," she said, in announcing she would not oppose his move.

Miss Edler, in answer to Womack's charge of neglect of her home, asserted he had provided no home. She expressed surprise that her husband had not informed her previous to taking action against her.

PRESIDENT'S SON TO TAKE JOB AS A FREIGHT CLERK

SUPERIOR, Wis., Sept. 7.—(AP)—John Coolidge expects to go into the railroad business, making his start in the freight department of the New York, New Haven & Hartford railroad, it was learned today.

Although President Coolidge's son has not as yet closed with any definite position, it is understood he has made up his mind to take up such a job unless unforeseen circumstances arise. He expects to be stationed in Hartford, Conn.

Possibility of his taking such a position was first disclosed this summer when Thomas Cochran, a partner in the banking firm of J. P. Morgan & Co., and an old friend of Mr. Coolidge, came to spend a night at Cedar Island lodge. Cochran, who also is a director in the railroad in question, suggested, it is understood, that John take such a position.

The date when he is likely to start on his new duties is not known. It is understood this will depend to a large extent upon which plans he will develop after meeting Miss Florence Trumbull, daughter of the governor of Connecticut, whom he has gone east to meet on her return from Europe, and a guest of those family he will probably be for some time in Maine, where Governor Trumbull has been spending the summer.

NEWCOMERS CLUB IS CONTEMPLATED

For the purpose of acquainting newcomers in this city with the activities of the community and in other ways aiding them in fitting into the citizenship at Medford, plans are underway to form a club exclusively for men who have lived here less than five years. The first meeting of a group of the promoters was held this week at the Hotel Jackson and another meeting is scheduled for next Tuesday evening at the same place.

Five weeks ago a similar organization, known as Circle No. 1, was completed and a club of the same nature is now being formed at Klamath Falls.

An editorial in the Oregonian within the past few weeks commended Grants Pass on the new move. "If this southern Oregon idea should spread near and far, to the betterment of human relations, this newspaper would not be in the least surprised. For there are luncheon clubs with far less excuse for existence," states the article.

WASHINGTON.—H. C. Hansbrough, former republican senator from North Dakota who bolted to Smith called upon Hoover to repudiate newspaper statements seeking to appeal to religious prejudices.

The "Pull" That Failed

REALTORS NAME COMMITTEE FOR DISPLAY AT FAIR

At a well attended and enthusiastic meeting of the Realty Board today at the Hotel Medford, the organization of a committee to manage a booth at the Jackson county fair, which begins next Wednesday, September 12, was discussed and approved.

Paul McDonald, a member of the fair board, was a guest at the luncheon and stated that space at the grounds has been virtually all reserved and indications are that the fair will be a record-breaker in every way.

Free admission tickets are being distributed today to out of state tourists from Yreka on the south to Sulzerlin on the north, in order that the affair will be widely advertised and hundreds of people attracted to attend who otherwise might not feel able to afford the trip.

The following committee was appointed today to arrange the exhibit and select space, either at the Merchants' building or in a separate booth on the grounds, in the event that the Realty Board enters a display: R. C. Corn, chairman; Charles Wines, A. C. Barnes, Ed White and Carl Tomwald. The board may cooperate with the Chamber of Commerce in distributing literature and in other ways interesting visitors in the industries of the Rogue River valley.

HUNTERS ANGRY (Continued from Page One.)

keeping the deer hunting season closed until September 20, unless there shall be a heavy general rain before that time. The season normally opens September 10, and many hunters are already in the woods, prepared to start hunting on that date.

The governor's proclamation provides further that if there is no rain before September 20, the hunting ban will be extended beyond that date.

The governor's order was issued after a conference with P. A. Elliott, state forester; Harold Clifford, state game warden; R. L. Chapler, representing the Oregon Forest Fire association, and C. L. Starr, representing timber owners.

Game Warden Clifford contended that hunters do not add to the fire menace. That the woods have been full of vacationists for months and still vigorously opposed the proclamation.

However, the governor had received telegrams from various parts of the state urging that the season be not allowed to open. Two of these came from the Lake County court and the Lake County Fish and Game association. Others came from eastern Oregon counties, several being from La Grande.

Clifford said that 3000 hunters plan to enter the forest this season and that the state game commission will lose thousands of dollars in license receipts by reason of the hunting ban. The governor replied that this loss would be small, compared with the loss to timber owners, should disastrous fires occur.

WASHINGTON.—Secretary of War Davis and Senator Brookhart, Iowa, brought Hoover optimistic reports from the west; Representative Taylor, Tennessee, told the nominee his state safely republican; Senator Sackett, Kentucky, said campaign there running smoothly.

A. W. PIPES FILES FOR MAYORALTY

As an aftermath of the announcement published recently in this newspaper that efforts were being made by business men and others to induce A. W. Pipes, owner of the Liberty building, to run as a candidate for mayor at the coming general election, to replace Mayor O. O. Alexander, whose term expires next January, and who has refused to run for the office again, the candidacy of Mr. Pipes was filed yesterday with the city recorder, signed by a petition said to contain about 200 names.

The candidacy of Earl H. Fell for mayor was filed some time ago and, with Mr. Pipes' candidacy filed yesterday, this makes two candidates now out for that office. There have been rumors of the possible candidacies of two other men for mayor, which have only been affirmed or denied by the principals involved in them.

City Recorder M. L. Alford and City Treasurer Herbert Berrina have also filed as respective officers. Although four new city councilmen are to be elected at the fall election, no councilman candidates have yet been filed. Among others, J. D. Russell has been mentioned as a possible candidate to succeed Councilman A. C. Hubbard, who refuses to run for the office again.

POST NOMINATIONS CLOSE MONDAY

Next Monday night's meeting of the local American Legion post will be a big one. Judging from all present indications, this will be the last opportunity to nominate officers for the coming year, and some interesting political developments are looked for. With the annual election only two weeks away, the "political pot" is beginning to boil and competition for post office positions to be keen. All local nominees are urged to be present at this important meeting.

Wall Street Report

NEW YORK, Sept. 7. — (AP)—Trading facilities on the stock exchange were swamped today by one of the wildest bull markets in history. Prices of active stocks were up \$2 to nearly \$20 a share as steady streams of buying orders poured over the wires from all sections of the country, from ships at sea and from European capitals.

Despite the abbreviated quotation system, worked at full capacity by relay of operators, the stock ticker fell more than half an hour behind the market before midday and never caught up.

Montgomery Ward common stock, which sold as low as \$117 a share earlier in the year, was climbing \$20 a share to a new high record at \$242. The rise in this stock was so rapid that the ticker was printing the quotation at \$229 when \$242 was being bid for the stock on the floor.

BERRYDALE ASKS FOR FORMING OF WATER DISTRICT

At a meeting held by residents of the Berrydale section last evening at the Berrydale school, decision was unanimously reached to circulate petitions for presentation to the county court for the authorization of a water district, in order that the Berrydale section may have a water system for domestic use, with the Medford's million dollar water system as the source.

The new district, which is to be known as the Berrydale-Howard water district, would float a bond issue of \$25,000. A committee has been at work on preliminary plans for some time and little trouble is expected in bringing water to this growing section, which will have 125 water users.

The question of installing large hydrants for fire protection was also discussed, but no definite decision was reached.

HELEN NORRIS PLAY SCORES SUCCESS

"That Awful Difference," comedy drama by Miss Helen Norris, broadcast last night over KGO at Oakland at 7:30 o'clock is reported to be one of the best of her popular splendid plays, listened to by Medford fans, who attended in the clever performance.

For the benefit of Miss Norris' many admirers who were unable to get KGO last night, the play will be repeated next Tuesday night, September 11, at the KMEM studio from 5 to 10 o'clock, with Earl Davis in charge. The program will be sponsored through the courtesy of Copco.

DIVES TO BALK A FIERY DEATH IN FRISCO BAY

Worker Swims Beneath Flaming Waters, When Hot Tar Rains After Explosion—Fear Three Lives Lost—Experiences Related.

SAN FRANCISCO, Sept. 7.—(AP)—Four workmen today were believed to have perished under a sheet of blazing hot tar which rained down on a portion of San Francisco bay as the result of an explosion. Three others were injured and the workmen on a \$2,000,000 pier under construction was badly damaged.

The explosion occurred shortly before midnight last night, while a crew of about 20 men was applying the hot tar to the pier. A blow torch which was being used ignited a can of tar.

Woman's Dream Comes True At last you find a new wonderful face powder that keeps ugly shine away. Will not enlarge the pores, and spreads so smoothly the skin looks like a peach. MELBA-CREME is made by a new French Process and stays on longer. Good looking, well groomed women simply love this marvelous new Face Powder. MELBA-CREME, Health's Drug Store.

every tar in every direction and as it rained down upon the water it spread and continued to burn. Four men on a barge beneath the bay in their effort to escape. The survivors, Paul Weston, who saved himself by swimming under water, expressed the belief that the other three workmen had died under the blazing surface of the bay. Three of the missing are Harry Sowers, "Shorty" Johnson and Andrew Anderson.

Small craft anchored near the pier caught fire and several firemen sustained injuries in putting out the blaze. "As I dived into the water I saw a glimpse of the other three men huriling through the water," Weston said. "I swam under water as long as I could and then came up for air. On reaching the surface my head poked through a mass of burning tar. Despite agonizing pain I dived again. This time I swam a good distance and thought I would be out of the burning area. But I came to the surface again only to find myself still surrounded by fire. My third dive carried me out of danger. If I had not been able to swim under water I never would have made it. I am afraid the other fellows are gone."

DEMFORD, Mass.—Unitarian Ministerial union adopted resolution declaring religion no disqualification for candidates for office; deplored statement of Dr. Albert C. Diffenbach, Unitarian minister and editor of Christian Register, that no Catholic should be elected to the presidency.
