GOITRE NOT A DISEASE Milwaukee Doctor Makes Remarkable Discovery Milwaukee, Wis.—It has been brought to light by scientific research that goitre is not a disease and is not to be treated as such. Dr. A. A. Rock, Dept. 721, Box 737, Milwaukee, Wis., a prominent goitre specialist for over 24 years, has perfected a different method of treatment for his patients that has proved remarkably successful. This same method is now being used for a home treatment of goitre cases all over the country with astonishing results. The doctor states that goitre is a condition which grows worse with neglect and recommends immediate attention no matter how small the growth may appear. He strongly opposes needless operations. Dr. Rock is the author of a book that tells in a simple way about treating goitre at home. He has published this book at his own expense and will send a copy free to anyone interested. Write him today.—Adv.
