White Flemish sr. doe, 2nd.
Arlie Warroll, Ashland; French
Silver sr. doe, 1st; Havana jr. doe,
1st; Hutanen jr. doe, 1st.

near-old Virginia Grey, a new
 comer to the screen, and a child
 whose talents will make her even-
 tually one of the screen's most out-
 standing personalities. Side-split-
 ting comedy is supplied by the in-
 estimable Lucien Littlefield as the
 crafty, hypocritical Marks, the
 Lawyer, and mirthful Mona Bar-
 as the mischievous Topsy, who
 "jes' arowed."

St

YOU don't do it delibera-
 think of doing it! But do
 wasting fuel, drop by drop your
 oil with "wet" gasoline!

Down the cylinder walls
 you use the choke or thrust
 shift gears in traffic. And v
 without doing these things
 the waste and danger of "
 gasoline, very simply.

Wonderful music and sound synchronization has been set to this popular production.
The two acts of "Talkies" on the program are receiving more than the usual amount of good comment.

Medford is the county seat and metropolis of the Rogue River valley and gateway to Crater Lake.

With an all-star cast and a thrilling story, "Forgotten Faces" is proving a powerful magnet at the Rialto theater.

There is nothing mysterious about this picture's tremendous drawing power. Of the elements which attract not the least is the cast with Clive Brook, Mary Brian, Ileenka, William Powell, Fred Kohler and Jack London.

An elegant crook returns to his home and is made to murder by the wife and her pentitentiary walls alert about his life.

A black and white illustration of a busy street scene with several vintage cars from the 1920s or 1930s. The cars are parked or moving along the street, with a building and a sign visible in the background.

YOU don't do it deliberately—you wouldn't think of doing it! But drop by drop you are wasting fuel, drop by drop you are diluting your oil with "wet" gasoline!

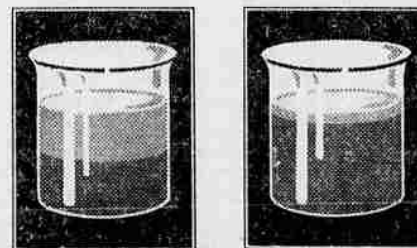

Down the cylinder walls it goes—every time you use the choke or thrust open the throttle or shift gears in traffic. And who can drive today without doing these things? Yet you can stop the waste and danger of "wet" gasoline, very simply.

Use a "dry" gas. Shell 400, refined to an exact point for highest efficiency, goes completely vaporized—dry—into your motor. All of it is used; none of the heavy "wet" droplets of ordinary gasoline are left to run into the crankcase.

And in a thousand miles of driving, instead of finding your oil half gasoline—ruined—there'll be only traces of gasoline in it; not enough to seriously harm the oil.

Knowing these things about Shell 400 you can better appreciate its just claim to greater power, more mileage!

The same price you pay for ordinary gasoline will buy "dry" Shell 400 at the thousands of yellow and red Shell pumps everywhere. Let it be your next filling station purchase.

At the left: An example of what a thousand miles of ordinary driving with ordinary gasoline can do—oil 51% “gasoline”—thinning caused by incomplete explosion of “wet” gas.

Shell 400 the "dry" gas, reduces oil thinning to a minimum. Notice this diagram at the right—only 9.2% in a thousand miles of ordinary driving.

The "DRY" GAS

Shell Motor Oil, a new lubricant that forms less carbon, soft carbon, is the ideal running mate for Shell 400. Don't offset the good effects of Shell 400 by using an oil less fine than improved Shell Motor Oil.

WHEN YOU BUY NEW TIRES CONSIDER
PRICE AND QUALITY
—BUT DON'T FORGET TIRE SERVICE

The kind of a tire you get and the price you pay for it are two very important things—but don't forget **Service**.

Mounting and dismounting tires, changing them around. Inspecting them for cuts and other injuries. Checking wheel alignment. Removing rust from rims. Free air—these and other kinds of service we are always glad to render are of utmost importance and have a lot to do with the final performance and cost of your tires.

It's mighty nice to have a dependable place to go when anything happens to your tires.

When you buy a Goodyear All-Weather or a Goodyear Pathfinder from us you've established a tire home for life.

We've Built Up a Reputation for Fine Tire Service—TRY IT!
