PACKARD CARS TO BE HANDLED BY OSENBRUGGE

J. J. Osenbrugge, for many years a familiar figure on Medford's "automobile row," has assumed the management of the recently opened Packard agency at 114 South Riverside. P. F. Close, who formerly owned and operated a first-class automobile repair shop here, will have charge of the service department of the new establishment.

A factory representative of the Packard company will be in Medford during the fore part of next week and Packard owners are invited to drive into the agency and have their cars inspected free of charge. Adjustments or replacements will be suggested where advisable and expert advice given.

The service department is now equipped and open for business and the agency expects to have a carload of Packard models on display next week. At present one model is on the floor.

C. A. WING REPORTS REALTY ACTIVITY

Indicative of the increased activity in real estate business during the past few days is the following report from the Charles A. Wing agency of sales made thru their offices within the past week:

The H. J. Berrian property located at 408 Park street was purchased by D. J. Willson, assistant manager of the Hotel Jackson. Mr. Willson took possession the end of the week.

Harold Sander, of the Sander aeronautical school bought a new house on Peach street which has just been completed by Edward Lundberg.

The L. W. House stock and dairy ranch, located one mile west of Talent, consisting of 26 acres, was sold to R. N. McCall, a new arrival in the Rogue River valley for a consideraton of $8000. Mr. McCall selected a home in this vicinity after touring several states in search of a suitable place.

George Hutchins purchased the G. C. McAllister property on the Jacksonville road for a consideration of $7000. The ranch consists of 29 acres most of which is in apples and pears. Mr. Hutchins expects to make extensive improvements on the place.

J. W. Wolff sold his confectionery and store, on North Riverside avenue to L. W. House, who took over the business Monday, September 17.

An interesting feature of these sales is that in most cases the properties were sold for cash, Mr. Wing reported yesterday.

TO STUDY EFFECT OF ANTARCTIC ON WORLD WEATHER

NEW YORK Sept. 22.—(AP)—An intensive study of antarctic conditions to determine their influence on weather throughout the world is the chief aim of an expedition headed by Captain Sir George Hubert Wilkins. The members of the expedition with their exquipment sail tomorrow on the steamship Southern Cross for Montevideo. At that point they will board a Norwegian whaler for their antarctic base on Graham land.

Captain Wilkins, who last spring flew from Point Barrow, Alaska, to Spitzbergen, said he would seek suitable bases for the establishment of meteorological stations which he hoped nations of the southern hemisphere would erect.

Seven years ago, he said, meteorologists told him his idea of stations in the Arctic and Antactic regions was a fantastic dream, but asserted that with the advent of radio and fast planes his dream is nearing reality. The Aero-Arctic Society of Berlin is to establish 35 meteorological stations in the Arctic and he hopes to see 12 opened in the antarctic.

AL JOLSON AND THIRD WIFE EN ROUTE TO PARIS

NEW YORK, Sept. 22.—(AP) Al Jolson, blackface comedian and his bride, Ruby Keeler, tap dancer, were bound for Europe today aboard the White Star liner Olympic.

They were secretly married yesterday afternoon at Portchester, N. Y., and sailed at 1:30 this morning for Southampton. They expect to spend a month to six weeks in London and Paris, returning in time for Jolson to open a new show, probably on the legitimate stage.

Jolson is one of the wealthiest actors in the country. He gained his greatest fame as a singer of "Mammy" songs and recently added to his popularity by appearances in talking pictures. He is 45 years old. He has an apartment at the Ritz Towers in New York.

This is Jolson's third marriage, his wife's first.

Jolson's 19 year old bride, was one of Texas Guinan's discoveries, acting as an entertainer in Texas' night clubs for some time. She also appeared in musical comedy and vaudeville and was scheduled to appear this season in "Whoopee", Eddie Cantor's new musical comedy. She lived with her mother at Woodside, Long Island.

"Ruby Keeler is an adorable kid," Jolson recently said of her. "If there is a sweeter child in the world I haven't met her."

Jolson tried to arrange to be married by the captain of the Olympic, but company regulations forbade it. The ceremony was performed by Surrogate Gam A. Slater of Westchester county.

START MOVE TO RAISE FREIGHT RATES IN WEST

WASHINGTON, Sept. 22.—(AP)—The first step toward instituting a general upward revision of freight rates in western territory have been instituted before the interstate commerce commission by representatives of western trunk line railroads.

Agents of the western roads asked the commission for permission to file immediately applications looking to increases on a wide range of commodities over most of the western territory and asserted that the increases were necessary because their earnings "for some years have been and now are conspicuously inadequate."

Western railroads have contended during recent years that their earnings were considerably below those of carriers in the eastern and southern districts. It was further declared that trainmen and conductors in the western territory have pending demands for wage increases which have been pushed to the point of a strike threat. While no mention was made of the impending increase in western railroad labor costs, it was assumed that the two matters had at least an indirect connection.

The nature and extent of the increases contemplated by the western lines was not disclosed by the preliminary approach to the commission. It is expected the commission will indicate some aspects of its views as to the proposal soon. The preliminary proposal looked merely to the removal of technical obstruction which might prevent the roads from immediately publishing the rate increase proposals as tentative schedules.
