"We had a wonderful time," declares C. E. Gates, ex-governor of Medford, referring to the Jackson county fair, which was held last week. "The show was better than ever; we had some new buildings and there were good crowds. And, what I consider very important, we just about broke even, instead of going into the red." The appropriations which we were to have had were vetoed by Governor Patterson, along with the other county fair appropriations. Even with this handicap, I believe we didn't lose money, if we did not make any. Of course, a county fair is not operated to make money, but a fair better to have a deficit." Mr. Gates says that the near crop has been coming to market and that about 2,000 carloads have already departed and there are some 500 more to move, in addition to as many more of apples. Furthermore, says Mr. Gates, there are many carloads of peaches in cold storage.

'MORNING JUDGE' SALUTATION OF 2 LOCAL RIVALS

"Morning Judge," said Mr. Paul McDonald, who was politicizing while walking along West Main street, to Mr. Alex Sparrow, who also was politicizing by leaning against a post in front of the Farmers and Fruitgrowers' bank, and the latter, just as politely and with great presence of mind, immediately cracked back, "Morning Judge," all of which illustrates that courtesy between political opponents, whether real or tentative, still lives, as both men have been mentioned as among the possible candidates for the county judge election by the county Republican committee tomorrow.

Then while Messrs. Sparrow and McDonald were further conversing, along came Superintendent C. G. Thomson of Crater National park with the salutation of "Morning Judge," whereat each, forgetting the presence of the other, quickly turned around and, trying to blush, responded with a cheery "Thank you."

A moment later Glenn O. Taylor and Howard Hill joined the group with the new commonplace "Morning Judge," greetings. This was too much for McDonald, who thought it better for him to work the other side of the street and leave the post to Sparrow, whereupon the group fell to discussing farm relief and Honoverian and Smithsonian features of the presidential campaign.
