COUNTY RECEIVES A \$98,546 CHECK FROM UNCLE SAM

A check for \$98,546.47 was received this morning by the county treasurer's office from the treasury department, Washington, D. C., as the 1928 payment to Jackson county, of its share of the O.-C. tax refund money.

The first check will be available within a week for use in county financial matters, and will be apportioned by the assessor's office into the general, road and school funds.

The check received today is the third received by this county, and the total received from the O.-C. fund to date, according to the county treasurer's office, totals \$1,368,899.24.

The first check was for \$1,151,852.74, and covered the back payments for a 10-year payment. It was received in March, 1927.

The second check was received September 27, 1927, and was drawn for the sum of \$118,300.07, and was the regular annual payment for 1927.

SCOTT WOOLF SHOWS HEATROLA

In conjunction with the national advertising campaign being conducted by the Estate Heatrola, the Scott Woolf Furnitures store will stage a demonstration of the famous home-heating appliance September 27 to October 6.

Answers will be given to all who seek in formation regarding heating problems such as reduction of fuel expense, warm air circulation, healthfulness, cleanliness and types of fuel.

The Heatrola is a guaranteed first-floor heating plant embodying features worked out after several years' study of requirements, and although many of them are now in use in the city, it is believed by Mr. Woolf that a visit to the store will provide home-owners with answers to questions as to how and why the Estate Heatrola is proving so satisfactory in practical use.

New Models RCA Radiolas Are Here

The Medford dealers for the R. C. A. Radiolas, as will be seen elsewhere in this paper in an ad, are the Southern Oregon Electric and Patience's Piano House.

The company has just introduced new models and have this to say regarding them:

"They are superb instruments that set entirely new standards for tone, selectivity, beauty and value. In these new Radiolas, the famous superheterodyne circuit—originated and perfected by the Radio Corporation of America—has been adapted, for the first time, to complete AC (high socket) operation, with single-dial control."

The dealers are anxious to give demonstrations to all who are interested and will notify them.

SIDESHOW PUT ON BY EASTERN STAR MAKES HIT

Fortune tellers, the fat lady, snake charmers and mysterious sideshow attractions transformed the Masonic hall into a circus setting last night, when a crowd of 175 men, women and children were entertained by the September program committee of the Eastern Star lodge.

Union investigating, the Roguo River valley pear sideshow, the guests discovered that the pear was a "male" of twin girls. The "fat" lady was really one of the slimmest in town.

Several members of the American Legion drum corps were on hand with plenty of noise to add to the carnival atmosphere. A fishing pond and roulette wheel, with prizes, which were surprisingly easy to win, furnished souvenirs for the crowd. Mrs. Edna Isaacs was chairman of the committee in charge of the affair.

FEARING SECOND SUICIDE EFFORT, GUARD PEFRUSKA

Josef L. Pefruska, 59, of Malin, Ore., who attempted suicide here last Friday night by firing a rifle bullet into his face, was closely guarded by Gust Sunderman, local police officer, in his room at the Sacred Heart hospital last night. Fear that the injured man, whose face and head are badly disfigured from the shot, might again attempt to end his life, prompted hospital officials to appeal to the sheriff's office for special protection early last evening.

Pefruska yesterday expressed regret over his deed, which he claims originated in bitter disappointment over a love affair. He also insisted that he was anxious to live. His actions and attitude during the afternoon, however, aroused the suspicions of Dr. Inskeep, county physician, and hospital attendants, and special precautions were taken to guard the wounded man through the night.
