the most Nourishing and Tastiest WAFER that the world has ever known

VECETIZED WHOLE WHEAT WAFERS

Hundreds of thousands eat them every day for their melt-in-your-mouth flavor and crispy deliciousness.

Doctors recommend them to grown-ups and children because they contain the vitamins and minerals of fresh, uncooked spinach, carrots, tomatoes, lettuce and celery. Mothers can now follow doctor's orders by giving their children vitamins A-B-C-D-E and 16 protective minerals in a tempting way that will make the kiddies ask for "More." Remember ... the Vegetization Process is the only method known which permits adding the vitamins and minerals of uncooked, green vegetables to wafers without altering their fresh-from-the-garden food value.

Serve them and eat them yourself. For school lunches, in a bowl of milk or in-between-meals, Vegetized Whole Wheat Wafers occupy an individual place in your diet that nothing can replace.

Buy them at all grocers where waters are sold. You will easily recognize the distinctive vegetable package. Take home a box TODAY.
