LOG TRUCK NEAR TALENT WRECKED, DRIVER ESCAPES

TALENT, Sept. 27.—The general public is cordially invited to attend the teachers' reception, which is to be given Friday evening, September 28 at the classrooms in the Community hall.

Tuesday morning an accident occurred just south of the schoolhouse. As Charles Skeeters was coming into town with a heavy load of logs, his truck skidded in the loose gravel and went into the ditch. The cause of the skidding was the locking of his brakes. When Mr. Skeeters saw that he would go into the ditch he jumped from the cab. He received a few minor injuries but was able to continue his work. The cab of the truck was badly damaged as the logs slid forward and pushed the back of the cab in; the windshield was shattered, the fenders bent and other damages. The logs were unloaded and hauled into the yards at the depot by other trucks, and when everything was adjusted he was able to resume his work by the middle of the afternoon.

Mr. Montgomery, who was driving, applied his brakes as soon as he saw the car, but another car which was following close behind them did not see the other car and bumped into the Montgomery car when it stopped.
