

COURT HOUSE REGISTRATION GROWS HEAVY

Tardy Registrants Flocking to Clerk's Office—Final Date Only Week Away—Many Cards From Ashland Voters.

With the final registration date, October 6th, one week away, something akin to panic has taken possession of tardy Jackson county registrants, and the court house clerks have been kept on the jump the last two days checking registration cards which are pouring in from all over the county.

A packet of 125 cards came in from Ashland this morning, and another containing 39, came from Central Point, but no word has been heard the past week from some other sections, a fact which indicates procrastination on the part of the voters in those districts. Letters have been mailed to registrants throughout the county by Della Stevens Meyer, county clerk, urging them to send their registrations in as early as possible.

That a larger number of young voters, many of whom are barely within the legal age limit, are registered this year than ever before was an interesting observation made by Mrs. Meyer and her assistants. In contrast to the young registrants, whose names will appear for the first time on a ballot this year, was the untidy signature of a 94 year old Central Point voter, whose card was checked this morning.

A long line of applicants crowded the outer office of the county clerk's headquarters this morning and waited their turn to register. Frequent discussions of party and the respective qualifications of candidates broke out among acquaintances and friends in the group.

A gray haired lady, who had come in with her husband and another male companion from an outlying district, objected rather sharply to the number of questions she was required to answer. When it came to stating her party, she looked in embarrassment at her husband.

"You're gonna vote Independent. You don't have to pledge yourself to either party," he said severely. The woman looked back at Claudia Krum on the other side of the counter.

"You're supposed to state either one party or the other now. You may vote Independently," said Claudia. The woman frowned a little, bit her lip, and finally came close to the clerk's ear and whispered.

"Don't tell anybody," she said, "but I'm a Republican."

MYSTERY DEATH CHICAGO WOMEN IN SANTA CRUZ

SANTA CRUZ, Cal., Sept. 29.—(AP)—The authorities were investigating today the violent death of Mrs. Cora Mead, 52, who left her luxurious Chicago home 19 years ago, following a will "to the wife here for a man years younger than she and died deserted in her farm home near here with a bullet through her head.

The woman, known here for six years as Mrs. L. A. Thornwell, was found dead in her home yesterday by police who went there after a telephone operator told them Mrs. Thornwell had telephoned a call for help, saying she was being murdered. On the floor near the body lay a hunting rifle, evidently the weapon used in the killing.

First examining the woman had been murdered, police interviewed L. A. Thornwell, 32, business man here, who was supposed to be her husband. He said they had never been married and the authorities learned she was the estranged wife of James Lucas Mead, wealthy head of the Mead Ore company of Chicago. From Thornwell's store, and from news dispatches from Chicago and Birmingham, England, were obtained bits of the story, which indicated the woman had separated from her husband 19 years ago, had met Thornwell while he was a member of the Royal Mounted Police in Canada, and had fallen in love with him.

PADELFORD BESTS FILIPINO BOXER 10 ROUND BOUT

MEETS INDIANS IN FIRST TEST

Pat Padelford of this city, was given the decision at the end of ten rounds over Lakay Morrison of Portland, Filipino lightweight, in the opening card of the Medford boxing arena last night.

Padelford had a decided advantage in reach and height, and made full use of it, in warding off the aggressiveness of his squat and sturdy foe, who kept boring in throughout the battle, without reaching the rummy local boxer effectively. The little brown man forced Padelford to crouch early in the fracas, after he had stopped a number of healthy belts with his tummy. Padelford kept a long left tapping the Morrison nose, who could not get inside the guard for his favorite game—inflating.

Morrison won the sixth and seventh rounds, and started to make the tenth a slam-bang affair, but was stopped by solid hooks to the jaw.

The good-sized crowd liked the main event, which was the only bout of the evening that amounted to much.

Kid Riley of Medford knocked out Kid Marshall in the second round, by the use of some rugged neck holds and substantial slugs.

Kid Wagner of Medford knocked out Kenneth Powell. Wagner was too scientific, and outclassed Powell.

Frankie Burnell of Portland, who has won his last 18 fights, knocked out Kid O'Brien, said to be his manager, after a series of fancy flourishes which caused the crowd to boo.

Sailor Jack Wood knows the figure and wrestling game, and is trying hard to secure boxers who are evenly matched, but admits he is having difficulty in doing so.

Many local fans believe he would be more successful if he concentrated more on local boys, not giving them set-ups, but opponents of their own caliber. Nothing will kill the boxing game quicker than putting on poorly matched boxers. Moreover such matches are dangerous as a weaker and less skillful opponent might be seriously hurt.

Boxers should not only be matched according to weight and general physical make-up, but as far as possible they should be reasonably equal in boxing skill. What the fans want is not to see some good man beat up some dull, or some poor man without a chance "to be down." They want to see hard fought contests between well matched boys, each one of whom has a chance.

The Bend baseball team, champions of the state semi-pro championship arrives today for a double header tomorrow at the fairgrounds with the Medford Merchants.

The morning game will start at 10:30, and the afternoon tilt at 2:30. Curtis Davis, San Francisco Seals' pitching prospect, will pitch one of the games, and Gillespie of Dunsmuir the other.

Both teams have strengthened their line-ups for the encounter. For Medford, Spruce of Dunsmuir will play shortstop, and Robie will be shifted to second. Marlowe, a heavy hitter, will probably play the outfield. The local team will have the strongest line-up of the season.

The games promise to draw large audiences, and will be the last game of the year at Court Hall, manager of the locals, lost a pocketbook containing \$48, the sum belonging to the players' exchequer, and it is sincerely hoped that the finder will return the same.

SEATTLE, Sept. 29.—(AP)—With the Husky squad cut to the bone, University of Washington coaches did not expect the overwhelming triumph of the past in the doubleheader opening the football season here today. No one doubted that the Huskies would vanquish both Willamette university and the U. S. S. Tennessee, but the varsity squad has been trimmed to the smallest number in years.

Coach Enoch Bagshaw left the selection of his starting lineups to the last minute, but long since decided that he would break his varsity combination to watch the performance of several new players.

Washington will learn how it feels to buck a heavy line and to tackle a light team, both in the same day. While the sailors are beefy, the Willamette backs average 155 as compared to 175 for the husky eleven.

MEDFORD HIGH MEETS INDIANS IN FIRST TEST

BRIDE IS VICTIM SECOND FATALITY NEW YORK HOTELS

NEW YORK, Sept. 29.—(AP)—A bride of two weeks, the socially prominent Mrs. Charles Dwight Sabin, Jr., is dead, victim of a fall from the fourteenth floor of the Hotel Weylin. She was the second prominent woman to be killed in a similar accident in 24 hours. Mrs. Evelyn Reynolds, daughter of Henry L. Stoddard, fell from her father's fifteenth floor apartment in the Hotel Mayfair, Thursday night.

Mrs. Sabin complained of vertigo on Thursday and was not well yesterday morning. She had returned a short time before from a shopping tour and was alone in the apartment. When her husband returned to the hotel he was stunned by news of the tragedy. He said his wife had complained of feeling ill but they had not considered it serious.

She and her husband, a grand nephew of Samuel Tilden, who contested with Rutherford B. Hayes for the presidency in 1876, were married two weeks ago and spent their honeymoon at the Sabin estate in Middlebury, Va. They returned to the city Thursday night and were spending a few days at the hotel while their apartment was being made ready.

Mrs. Sabin, before her marriage, was Miss Mary Boylan, of New York. Mr. Sabin, a descendant of Mayflower stock is a son of the late Charles Dwight Sabin, who was a member of the New York Produce exchange. He is interested in horse breeding and kept a large stable at his Virginia farm. He is a graduate of Williams college, class of 1916, and served overseas with the 27th division during the World war.

YAKIMA VALLEY IS HAVING TROUBLE WITH FILIPINOS

YAKIMA, Wash., Sept. 29.—(AP)—Rumblings of discontent and rumors of vigilante committees were heard today among Yakima valley farmers as an aftermath of a pitched battle between Mexican and Filipino workers Wednesday night.

All was quiet in the Moxee district where the fight occurred, following a dispute over women. But murmurs of unrest were reported from the Tappanish and Wapata fields from which Filipino workers were forcibly ejected last year.

Farm workers expressed the fear that the Islanders and the Mexicans would invade those districts when the hop harvest at Moxee was completed.

Disputes between whites and Filipinos have been averted in Yakima valley this year by not employing both on the ranches.

The Mexican-Filipino miniature war in which rocks, sticks, knives and guns were used, resulted in the injury of two men. No arrests were made.

TALKING FILMS INVADE ENGLAND

LONDON, Sept. 29.—(AP)—English critics generally agree that the science of the film drama has been permanently broken by the new art of the "talkies" which were seen in the first full-length theater program in England last night.

Everything from announcements of future attractions to the full-length film of Al Jolson in "The Jazz Singer" and "God Save the King" at the conclusion of the program, was reproduced by the sound films without a musician in the theater. Short films such as the New York Symphony, a solo by the tenor, Martinelli and entertaining by Eddie Peabody with his banjo seemed to please the audience almost as much as the feature film.

Critics today commented freely on the synchronization and mechanical perfection, but said that the reproduction tone was not yet perfect, while some seemed to think that Americans ought to cultivate Oxford accents.
