FOLLOWING ADVERTISERS ARE Members Medford Realty Board Can You Look Ahead of Your Nose? If so, can you keep in mind the possibilities of onion culture in this valley. With conditions rather more favorable for the production of a high-grade onion than in any other portion of the state, it must be borne in mind also that in this valley the first yield of 60,000 pounds to the acre from one crop was obtained. When one obtains that amount of White Southport Gloves averaging the size of regulation houseballs, it is only a matter of placing them in the right market to get a big premium over ordinary. HAD YOU OBSERVED WHAT AN ATTRACTIVE GAMBLE the onion is, one year with another? This leads us to the proposition that we have for sale some of the best onion land in the world, almost within gunshot of Medford, and awaiting the right man to BREAK ANOTHER RECORD. One tract of 7 1/2 acres which we can sell at a price which will enable the grower to get his money back in one crop. Another tract of 6 acres equally good for \$1600. Both have been eliminated from district water lien, although water is to be had when wanted.
