NEW POTATO CHIP FACTORY ON SOUTH RIVERSIDE AVE.

There has been under construction for the past two weeks a one-story structure on South Riverside for Carol J. Parker. Mr. Parker's building is to be 48x50, of concrete construction. One-half of the building will be utilized by Mr. Parker to house his potato chip factory and will be a modern, sanitary factory equipped to manufacture this product in such a manner as to make it even more popular than before.

The other half of the building will be leased for a store for which definite arrangements are not complete at this date. Construction is under the supervision of E. J. Tubbs, local contractor, who is establishing a reputation for this type of construction, having recently completed the new Mitchell store building on West Sixth street.
