

The secret of the exclusive flavor of HILLS BROS

Coffee is in its exclusive process of roasting

As you cook peaches for a few at a time, in Hills Bros. use a continuous process of roasting coffee a few pounds at a time.

Those halved peaches keep their shape and become more plump and tender when cooked in the syrup a few at a time. Likewise, every coffee berry is roasted evenly by Hills Bros.' continuous process by which only a few pounds of coffee are roasted at a time.

By using this controlled process of roasting, Hills Bros. create the utmost in aroma and flavor for you. And you get it all when you buy because Hills Bros. Coffee is packed in vacuum. Ask for Hills Bros. Coffee by name and look for the Arab on the can.

Fresh from the original vacuum pack. Easily opened with the key.

BLACK BEAR IS PROSPECT VISITOR, EATS BOX PEARS

PROSPECT, Ore., Oct. 5.—(Special)—Prospect school will give the first dance of the season at the Prospect gym Saturday night, October 6. Good music will be furnished and a large crowd is expected. Everybody is invited.

The home of Mrs. Roy Vaughn was visited Sunday evening by a large black bear, which mounted the back porch and started eating a box of pears. Mrs. Vaughn heard the noise and went to the back window. The bear thought this a good time to leave and ambled slowly off the porch and up a road, close by the house, into the woods.

The Prospect high school opened this year with the largest enrollment on record. A large class of freshmen were admitted. New students registered at the opening of the term are Claire Cook, a junior, and Donald Cook, a sophomore, from Grants Pass.

GIVE GOLD HILL TEACHING STAFF BIG RECEPTION

GOLD HILL, Ore., Oct. 5.—(Special)—A reception was given on last Friday evening at the high school auditorium to the present teaching staff of the Gold Hill school. The teachers of the respective grades are as follows:

First grade, Miss Alice Harper; second grade, Miss Ethel Hedgpeth; third and fourth grades, Mrs. Minnie Sargent; fifth and sixth grades, Miss Norris and seventh and eighth grades, Mrs. Maude Robinson. The high school faculty consists of Mr. Meisinger, principal, Mrs. Irving, commercial teacher, Charles Orr, instructor in mathematics and Miss Orr, English teacher. Mrs. Fred Bay instructs both the grades and the high school in music. A very pleasing entertainment was given by the music classes. The community in general was present and was introduced to this year's teaching staff. The parents of students attending school became acquainted at this time with the teachers. This will insure better cooperation between the parents and the staff. A very good time was enjoyed by all who attended.

Mr. Jack Picard and Mrs. Vaughn Quakenbush attended the Christian Science lecture given at the Rialto theater at eight o'clock Tuesday evening.

The Hi-Way Inn is now under the management of Mrs. Bertha Wyatt, formerly of Medford. The place has been repapered and has been roofed with fireproof metal. Mrs. Wyatt expects to serve the popular chicken dinners as have been served at this place for several months under its former management.

The high school is organizing an orchestra under the supervision of Mr. Meisinger. The first meeting was held at the high school auditorium on Monday evening. Several were present with instruments and the organizing of it was partly completed. Some of the students who played in the orchestra organized there last year and the year before were present to join and it seemed that much interest would be taken by those present toward the organization of it. Several in the school are very talented in music and with a little practice the school could have a very fine orchestra. No definite date was set for the next meeting but it will be held in the same place probably the Monday evening of next week. An orchestra is something that every school should try to obtain. With a little help, the Gold Hill school can have as fine a one as any school of its size in the valley.

Emory Davis returned Tuesday from the Sacred Heart hospital. He is slowly recovering from an operation of about three weeks ago. After a deer hunt he was taken sick and was rushed to the hospital and operated upon and is now just beginning to recover from it.

The lively lime plant seems to be very busy these days filling its orders for lime as well as lime rock. The kiln is running full blast and a full day crew is being employed as well as a night crew which was to be put on some time this week. Several large orders were received for lime so consequently some means had to be used to fill them. Mr. Lively as a result has employed this night crew. There seems to be quite a demand over this state and part of California for the famous "Lively" lime. Several cars of the rock are shipped each month and the truck is kept busy hauling it day and night. This lime industry seems to be one of the rapidly growing industries of southern Oregon. Not long back only a small plant was used to burn the lime, but since the rapidly growing demand for lime has necessitated the several additions now on the plant together with the new night crew being employed. A large warehouse is needed in which to keep the barrels for the lime and tools for the kiln.

A. R. Comer returned last week from his trip to Klamath Falls. Bob Millsap who was taking care of the station while Mr. Comer was on his vacation is now relieved of his work.

Klamath Falls.—Addition to present mail schedule between here and coast announced.

Stomach Disorders First Revealed by Coated Tongue

Your tongue is nothing more than the upper end of your stomach and intestines. It is the first thing your doctor looks at. It tells at a glance the condition of your digestive system—and physicians say that 90% of all sickness starts with stomach and bowel trouble.

A coated tongue is a danger signal of those digestive disorders which lead to so many kinds of serious illness. It tells why the least exertion tires you out; why you have pains in the bowels, gas, sour stomach, dizzy spells.

Coating on the tongue is a sign that you need Tanlac—the medicine which has helped thousands who were physical wrecks from stomach and bowel trouble—who had "tried everything" in vain and about given up hope.

Tanlac contains no mineral drugs; it is made of barks, herbs and roots. Get a bottle from your druggist today. Your money back if it doesn't help you.

Boys and Girls and Vegetables!

Now... what they need most...they will like best

VEGETIZED Whole Wheat WAFERS

YOU want your boy to grow and be able to play hard and work hard. You want him to be free of colds and little sick spells. You want him to have energy, vitality, strong bones, well knit muscles and hard, white teeth.

You want your girl to be beautiful. You want to see roses in her cheeks that have the flush of good health and rich red blood. You want her to have luxurious hair that will be an asset when she grows up.

To give your boys and girls these things...your doctor says... "plenty of fresh green vegetables every day." It is the precious vitamins and minerals from green foods that science says are the secret to raising healthy, robust children.

Vegetized Whole Wheat Wafers contain vitamins A-B-C-D-E and 16 minerals from fresh spinach, carrots, tomatoes, lettuce and celery. Children who "don't like vegetables" now love them in this tempting, delicious way, not only every day but every meal. Vegetization is the only known method that permits adding fresh-from-the-garden vitamins and minerals to a delicious wafer.

Serve Vegetized Wafers especially for school lunches. Try them in a bowl of milk for breakfast or for in-between-meal eating. Buy Vegetized Wafers wherever wafers are sold.
