Acidity

The common cause of digestive difficulties is excess acid. Soda cannot alter this condition, and it burns the stomach. Something that will neutralize the acidity is the sensible thing to take. That is why physicians tell their patients to use Phillips Milk of Magnesia.

One spoonful of this delightful preparation can neutralize many times its volume in acid. It acts instantly; relief is quick, and very apparent. All gas is dispelled; all sourness is soon gone; the whole system is sweetened. Do try this perfect antacid, and remember it is just as good for children, too, and pleasant to take. Get the genuine—

DEATH SECRET IS KEPT FOR MONTHS BY LITTLE GIRLS

BURLINGTON, Ia., Oct. 10.—(Special)—A story of violent death, sealed for a year behind the fastidious lips of two little girls, is being told by their father and another man here from Tucson, Ariz., to face murder charges.

It was on Huron island in the Mississippi river that Oliver Shepper was killed last year. The slaying was on the farm of Jake Zippe and his daughters, Topsy and Vera, who told today of witnessing it, kept the secret through long months, under threats of death.

On the basis of the girls' story, reinforced by other evidence, Sheriff Midway will leave tonight for Tucson to bring Zippe and Jonathan Hagen to face first degree murder charges.

Mrs. Clyde Moore of Keokuk, Ill., an aged aunt of Zippe, told the sheriff what the girls had told her.

"Poppy killed Shepper and buried him," Zippe's daughter said.

Topsy, aged seven, told of the slaying several months ago while staying with a family named Patten in Keokuk, the sheriff learned. Patten, however, said he was afraid to repeat the girl's story.

This was Vera's story of the slaying, unrelated to her grand-aunt.

"Poppy loaded his revolver and Johnny took the shotgun and they came up and took hold of grandpa's coat and pulled him into the shed. Poppy soon Poppy came back and said that if we wanted to see grandpa we should go out to the shed, as we killed him."

Shepper's body was found last Thursday by three sons of August Zippe, brothers of Jake, Zippe and Shepper, the sheriff said, were reported to have been partners in a bootlegging enterprise. Shepper, twice convicted of shooting a policeman in Peoria, Ill., was wanted by Illinois authorities for violation of parole.

PRAGUE, Czechoslovakia, Oct. 10.—(Special)—Only 20 bodies had been exhumed in 10 days today from the mass of soft mud, twisted wires and broken machinery which resulted from the collapse yesterday of an eight story office building under construction here.

Government officials, thrown into utter confusion by the catastrophe, were unable to estimate the probable number of victims. Officially it was believed that the dead would total from sixty to 100. Exact figures will not be available until the mountain of debris has been cleared away and authorities said it would take at least a week to accomplish that task.

Some of the four score workmen who were caught in the disaster were still alive this morning, but their appeals for help were growing fewer and weaker and it was feared that none of them could be saved.

The injured have not been counted, but neighboring hospitals, nurses, physicians and volunteers, are crowded and many others were worked frantically throughout the taken to their homes for treatment. Some of the wounded are in a critical condition. Seven hundred and fifty soldiers, posted today in two adjoining and police aided by Red Cross buildings.

DID JUDGE THOMAS SOLICIT WRITTEN ENDORSEMENT OF THE ATTORNEYS?

This is an important question for these reasons:

(1) Because Judge Thomas says that he did not solicit them.

(2) Because soliciting such endorsements from attorneys having business before him would be highly improper.

The American Bar Association is the greatest institution among the English speaking people for judicial reform and protection of the purity of the bench. July 9, 1921, it adopted a committee of the Bar was appointed with William H. Taft as chairman, and that committee formulated these canons, now in force. Number 30 provides:

"If a judge becomes a candidate for any office, he should refrain from all conduct which might tend to arouse reasonable suspicion that he is using the power or prestige of his judicial position to promote his candidacy or the success of his party."

(See reports of American Bar Association, Vol. 14, 1926; To take up Number 31):

September 3rd, 1928, Judge Thomas published his open letter in answer to a private letter written by Attorney Hough, Judge Thomas signed his published letter as "Circuit Judge," thereby using the title of his office for greater pressure. In his letter, widely published in the Tribune, the News, the Ashland Tidings, the Gold Hill News and other papers, and speak of the endorsements of the Josephine County attorneys, Judge Thomas wrote:

"Being gratified by the unanimous act of your bar, I naturally referred it to the attorneys of the Jackson County Bar, who of their own accord circulated and placed in my hands a like endorsement containing the names of all but two of the attorneys of this county."

What happened is this: The Judge telephoned to Joe Flegel to go to his chambers, and induced him to go to Herbert Hanna and have him assist in circulating the endorsement.

OFFICE OF
C. M. THOMAS
CIRCUIT JUDGE, FIRST JUDICIAL DISTRICT
MEDFORD, OREGON

Nov. 27, 1926.

G. M. RAYMOND
SECRETARY REPORTER

Hon. Attorney at Law,
Medford, Oregon.

Dear Mr. _____

With reference to my candidacy for the Federal Bench, my friends advise me that I should secure personal endorsements to President Coolidge and Senator Chas. L. McNary, in addition to the "petition endorsement" of your bar association.

Will you please write such a letter of endorsement as you personally feel is fitting and proper, to those gentlemen, addressing Senator McNary at Washington, and sending me a copy in the enclosed envelope.

With kind personal regards, I am,

Yours very truly,
C. M. Thomas

One of the highest duties which a lawyer owes is to his client. The lawyer who has important business for such clients pending before the judge, or who is in the active practice, and will have such business is always anxious not to injure his client's cause by opposing the judge who, we might say, holds the client's rights or property in the palm of his hand. It is for this reason that from the beginning of our judicial system it has been recognized as highly improper for a judge to use the power of his office to hold the job. Hence it is really important for a voter to decide whether or not these endorsements were the result of the efforts of the judge himself.

What is here said is written with the utmost candor and without malice, for the truth ought to prevail.

H. K. HANNA.

EXPRESS CLERKS MYSTERY STRIKE NEW YORK AREA

NEW YORK, Oct. 10.—(Special)—The greater New York area was the scene today of an unannounced strike of members of the Brotherhood of Railroad and Express Clerks employed by the American Railway Express company which went into effect shortly before midnight and the cause of which was shrouded in somewhat of a mystery.

Union claims were that between twelve and fifteen thousand employees had quit their jobs on trucks, weighing machines, and desks and asserted the strike would be extended throughout the country.

No official union statement on the reason for the strike could be obtained, but one delegate explained that the principal grievance was failure of the company to recognize the seniority rule whereby in such seasons the most recent employee would be the first to be laid off.

Union pickets were on duty throughout the night at the various railroad yards and express company terminals. As drivers brought in their trucks for the day's work they were approached by the pickets and in cases where they were won over the trucks were driven back to the stables. Extra police were on duty at the yards and the company's stables.
