Tom Mix in Sheriff Role

The role of sheriff comes natural to Tom Mix, as he played the role in real life as sheriff of El Paso, Texas, before his advent into pictures. In his latest release, "Painted Post" at the Rialto theatre today, Mix enacts the role of a fearless guardian of law and order. The comic got the law spells disaster to a gang of unscrupulous thieves. The gang is preparing for a final coup, and the manner in which Mix outwits them is the basis for a thrilling and dramatic picture.

Buster Keaton, Rialto Monday

Buster Keaton has extracted comedy from steamships and prize fights, bicycles and a locomotive, but now he gets his laughs aimed and abetted by a news-reel movie camera of ancient vintage, with three tripod legs that get tangled in everything from the New York subway to a motorboat propeller. This is the situation in "The Cameraman," Keaton's new comedy which comes tomorrow to the Rialto theatre.

'WINGS' COMING TO HUNT'S CRATERIAN

All those who are interested in high courage and the bravery of unselfish and unflinching youth, the splendor of youthful sacrifice and beauty of human comradeship are asked to see "Wings" at Hunt's Craterian tomorrow and Tuesday. It is an epic of fearless young manhood, a paean of tribute to the altruism "whose wings are folded forever"—and it is also an amazing example of what can be achieved in the air.

The story is one of genuine drama, rich with the finest qualities that lie at the basis of the friendships of youth, and touched with infinite beauty of romance. It is also essentially a picture of war, of sacrifice, of stern conflict, of the ultimate test of human endurance and human conquest over fear.

George Bancroft Coming Thursday

George Bancroft comes to Hunt's Craterian theatre Thursday in "The Docks of New York," a stirring drama of the hero of the docks and his night off. It is a story of sailors, stokers, their women, their wives, and the fights and love-making in waterfront dance halls.

Backnova, Betty Compton, Clyde Cook and George Lewis have important parts in this dramatic picture.

Players Enjoy A Movie Feast

The members of the cast in "Their Hour" which is now playing at the State theatre liked the dinner scene the best as the script called for a full course dinner for

all the principals in the cast. The director was the nominal host and he saw to it that the finest of food was served. In the scene were Dorothy Sebastian, John Harron, Huntly Gordon, June Marlowe, Holmes Herbert, Myrtle Steidman and John Stepping.

Complications of the Cameraman

Buster Keaton says: "I never realized how much fun I'd have taking pictures of my fellow Metro-Goldwyn-Mayer players. When I told Greta Garbo what a thrill it was she said, in her Russian manner of speech, 'Ah, Buster, I'm glad.' Lash, the famous dog star, became playful and almost upset my camera when Karl Jane and George K. Pathé came to my rescue. George and Karl, as you recall, were starred in 'Bookies.' As the day advanced I walked over to the William Drains set where the hero of 'Telling the Universe' was busily engaged with his forthcoming review, 'Eliza Jimmy Valentino.' Bill suggested that I might find considerable to arrest my attention were I to watch 'Black Shadows in the North Seas' and jocularly added that this was King Victor's all-colored picture.

'BLISTER-RUST' CLAUSE WRITTEN IN FARM DEED

POUGHKEEPSIE, N. Y.—(AP) "blister-rust clause" in a deed conveying property is something new in the campaign against this disease of white pine. A lawyer in Dutchess county, who owns a fine planting of white pine, recently sold a tenant house from his farm and in the deed stipulated that no currants or gooseberries of any kind, from which blister rust spreads to pines and kills them, should be grown or cultivated by the new occupant.

MEDFORD TO HEAR CONCERT BY NOTED ARTIST OCTOBER 23

Irene Hampton Thrane is here and will give a piano recital on Tuesday evening, October 23rd. This rare privilege recalls to memory the golden age of Medford when the best in music and drama never failed to make its prettiest courtesy to this "famous little one-night stand"—while on its way to the big cities of the Pacific coast. We were quite "hot" up then and we are now, for again Medford can claim as one of her own choicely gifted daughters, Irene Hampton Thrane, an artist of national recognition.

Coming to the valley at an early age with her parents, Mr. and Mrs. Joseph Brown, her masterly talent, which had already revealed itself as a glowing promise to be fulfilled, was nurtured and developed by the great masters then in San Francisco, Chicago and later in New York. In more recent years, study was pursued with Stojowski, the eminent Polish pianist. Then came the outstanding preparation agent for her life work as the brilliant pianist she has become, with the celebrated world-artist, Josef Thernie.

It was no less a one than this master who said of her, "Irene Hampton Thrane is the most intelligent pupil I have had in this country. She has highly developed technique, brilliancy, rare musical feeling and power." The following pronouncement by one of our eminent critics is significant of the quality and choiceness of pleasure we are to enjoy in her coming concert: "In masterly way, the great numbers were played and perfect in execution. The combination is apparent of great genius, study and hard work, but in her playing also is a fine temperament and a warm personality. The program was short, only some seventy golden moments, yet in that time was experienced the rapt delight that never grows old in hearing interpreted the spirit of the great creators by one so remarkably gifted. I was not only delighted but absolutely amazed at this artist's ability, not only technically but as a performer whose perfection in attainment holds the listener spell-bound whether he or she be music lover or critic. She has everything." (Contributed)

MARMONS WIN ACCELERATION AND ENDURANCE TESTS

Marmon straight-eights, in competition with a number of other makes of American and European cars, won first prizes in official tests of stock car acceleration and endurance conducted by automobile clubs in Guatemala and Holland, according to word received by the Highway Motor Co., local dealers in Medford, who state: "The acceleration test was conducted in Guatemala City, by the Guatemala Touring club, over a course 700 meters, or less than half a mile. The winning car was a straight-eight Marmon 78 four-passenger speedster, covering the distance in 34 3/4 seconds at an average speed of 44 miles an hour, reaching a top speed of more than 50 miles an hour near the end of the short course.

The best time of any of the other cars participating was several seconds slower. In winning the race, Senor Frigoys won a second leg on the municipal trophy to be permanently awarded by the Guatemala Touring club to the car which is victorious in the race on three different occasions. A Marmon straight-eight won the first race a year ago.

In another race on the same day, Senora Sara Frigoys, wife of the Marmon dealer drove the same Marmon 78 speedster to victory in a match race over the same course against a man at the wheel of another American car, covering the 700 meters in 35 seconds. Two other awards were won by Marmon in a twenty-four hour stop reliability run conducted by the Royal Dutch Automobile club in Amsterdam.

COMMUNIST PARTY CANDIDATE GITLOW REPORTED MISSING

PHOENIX, Ariz., Oct. 13.—(AP)—In the midst of his campaign for election to the vice presidency, Benjamin Gitlow, Communist party candidate, was sought throughout Arizona today after he had failed twice to appear in scheduled speaking engagements.

Whether or not "pressure" had forced Gitlow to abandon two addresses this week, one here and another at Tucson, was speculated upon today as reports were published that he had been advised not to leave his train upon his arrival here. Information that Gitlow had disappeared was first learned of when William O'Brien, Communist candidate for governor of Arizona, advised New York party headquarters that Gitlow had failed to appear here on Tuesday night for a scheduled address. O'Brien attempted to go ahead with the meeting and after being denied the use of the auditorium, he was arrested when he started the assemblage on a school campus. He was later released on \$10 bail. Gitlow had arranged to speak at Douglas, Ariz., last night, but reports of his presence were lacking. At Tucson it was said that he had failed to appear there at a scheduled meeting Thursday night.
