**FRUIT SHIPMENTS REACH RECORD IN CURRENT SEASON**

Fruit shipments from the Rogue River valley to date, according to southern Pacific railway figures, total 2884 cars of peaches and apples. There were 2275 cars of peaches and 329 cars of apples shipped from this city, and 290 from valley points. This is the heaviest year in the history of this section, and exceeds by more than 1000 cars the total of last year, when a high mark of 2726 cars of apples and peaches was reached.

In addition to the remaining shipments of apples, which are going out at the rate of 15 to 20

cars a day, there are 450 cars of peaches and apples, chiefly the late crop, which will be shipped out between December and May. 1700 will bring the total for the season close to 5000 cars.

The shipping of apples from this section will be completed in two weeks.

Medford was the chief shipping point, the season cargo shipments from other Rogue River valley points being:

Gold Hill	1500
Talent	30
Rogue River	20
Grants Pass	60
Ashland	10

**HUGE CITY MAP CAUSES PROBLEM**

Made by the California Oregon Power company and blocked by Raymond Maps of the city building department, a map of Medford, the largest ever made of the city, has been completed and employees of the department are now working where they will find space to place it, as in its present size, it is approximately 70 feet long and 27 feet high.

A space had been arranged in the city council room, but this morning it was found to be too small and the only solution to the problem is to reduce the size of the map, which was drawn in three-foot sections.

As a result of the recent killing frosts, the melon and tomato season is over, according to Otto Bohmert, well-known truck gardener of the Central Point district, who was in Medford today. There are still many melons left on vines, but because of the absence of warm weather, the meat is tasteless and soggy.

However, despite the arrival of cold weather, there are still a number of tomatoes being picked, but the quality, while good, is under the average.
