

Watch Tongue For Signs of Illness

Your tongue is nothing more than the upper end of your stomach and intestines. It is the first thing your doctor looks at. It tells at a glance the condition of your digestive system—and physicians say that 90 per cent of all sicknesses start with stomach and bowel trouble.

A white or yellowish coating on your tongue is a danger signal of those digestive disorders. It tells you why the least exertion tires you out; why you have pains in the bowels, gas, sour stomach, dizzy spells.

And it's a sign you need Tanlac. This good old reliable medicine has helped thousands who were physical wrecks. See how the first bottle helps you.

Tanlac contains no mineral drugs; it is made of herbs, roots and nature's own medicines for the sick. Get a bottle from your druggist today. Your money back if it doesn't help you.

EAST SIDERS ASK RUIN REMOVAL IN COUNCIL PETITION

The old Page theater ruins so-called menace situation on East Main street again came to the front before the city council last night when a petition signed by about 200 east side residents was presented to that body asking that the ruins be ordered torn down or rebuilt.

While the council took no definite action on the petition other than to instruct City Attorney Carlson to look into the legal phase of the matter as to just how far the city administration could go in the matter, in view of the fact that some months ago the Hunt Theater company, which owns the structure, took out \$100,000 liability insurance, in the way of protecting itself, the city and public, it did order Chief of Police McCredie to at once see that the theater remaining boarded up all doors, windows and other openings of the ruins.

What future action is taken in view of the petition all depends on what is developed by Mr. Carlson's investigation into the legal phase of the matter.

The preamble of the petition reads as follows: "We, the undersigned citizens of Medford petition your honorable body to take immediate steps to have the building known as the Page theater on East Main street, torn down or rebuilt, as in its present condition, we feel that it is a menace to life and health of anyone passing the ruins."

Yesterday afternoon Mr. Fisher commenced to work on his life issued orders that he could not get into the new Ford with his old hat.

HUNTER IS LOST PERSIST VICINITY SEARCHERS BUSY

A report at press time from the sheriff's office gave unofficial information that Clark B. French of Ashland, reported lost in the woods near Persim, had been found, and was in good physical condition. No details were available.

Last night, yesterday morning when he set out on a lone deer hunt, searching parties, headed by Deputy Sheriff Louis Jennings, are in the densely timbered country surrounding Persim, above Elk creek, attempting to locate Clark B. French, 74, of Ashland, French, despite his advanced age, was said to be an active man and fairly familiar with the section in which he set out to hunt. Fears are held that possibly he has been injured and is unable to walk.

French had been visiting at the home of W. W. Willis near Persim and set out from that place on the hunt. He has a daughter, Mrs. Alice Willis, a school teacher in Ashland, and she left at noon today to join in the search. She was the wife of the volunteer fireman who was killed in 1923 when the Page theater was destroyed by fire and is well known here.

COUNCIL HEEDS LIGHTING PLEA FOR SIXTH STREET

The city council definitely decided last night to heed the wishes of the Sixth street property owners, who recently formed themselves into a lighting district and petitioned the council for a modern lighting system, they to stand all the expense of installation, by passing the first reading of an ordinance providing for the same.

This action followed a long discussion by the mayor, councilmen, and Earl Fox, chairman of the Sixth street property owners, a delegation of whom were present, during which it developed that it is almost inevitable that Main street, Central avenue, Bartlett street and possibly others in the business section would follow the example of Sixth street in installing a modern system of lighting.

There was much discussion as to whether the single or double standard system should be installed, and final action will be taken when the general wishes of the other parts of the business district are known. The Sixth street lighting system ordinance will be changed to conform before final action on the ordinance.

What Doctors Think of the Laxative Habit

In all history, no Indian was ever known to have constipation. Nor need you. He chewed the bark of a tree called cascara. Today, we have the candy Cascaret.

Cascaring the bowels never forms a laxative habit. If already formed, an occasional Cascaret will usually break the habit. For cascara strengthens the muscular walls of the bowels, and their need of any aid at all grows constantly less. What other cathartic has this characteristic? The writer knows of none.

An evacuation brought gently about by cascara will, nine times in ten, be followed by full functioning of the bowels on the morrow—and for days after. For there is no REACTION as with sickening salts, or any of the man-made purgatives that go through one's system like a bullet.

Physicians tell us cascara is the ideal laxative—and the tongue tells.

The only habit from cascara is that of regularity. Cascarets tone and train the bowels. But at the first sign of returning sluggishness another Cascaret is as effective as the first.

There isn't a druggist who hasn't Cascarets, so WHY experiment with laxatives?
