HAWAIIAN TOUR IS FORUM SUBJECT TODAY'S MEETING

The good will and trade extension tour to Hawaii, to be sponsored by the Portland and Tacoma chambers of commerce, and which will start from Portland on the islands November 9 was the subject to which the monthly forum meeting of the local chamber and combined service clubs was largely given over at Hotel Medford this noon.

The beauty and romance of the Hawaiian islands, their legends and scenic attractions were depicted in three interesting reels shown and explained by Roy A. Murray, representative of the Matson Navigation company of San Francisco, who was sent here by the Portland Chamber of Commerce to enlist local efforts for the tour of November 9.

More than 250 members of the Portland and Tacoma chambers of commerce, as well as a number of business men and their families, have already signed up to sail on the Mahalo, which makes just the one trip to Honolulu direct from Portland this year.

That a number of business men from Hawaii will be in Portland to act as hosts to those who make the trip, was another statement made by Mr. Murray in his talk.

Local residents who wish further information on the good will tour are asked to get in touch with Jack Carle, of the Southern Pacific here, or Mr. Murray, who will remain here until tomorrow night at Hotel Medford, to confer with local prospects.

Tentative plans were placed before the Ashland city council last night for the construction of a \$300,000 sanitarium and hospital in the Lithia park. The council is to hold another meeting this week on the same matter and perhaps then some official announcement of the construction may be forthcoming.

The identity of the Los Angeles doctor who is said to be behind the project could not be learned today, but he is expected to arrive in Ashland in the latter part of this week to make preliminary arrangements for the project.

The hospital would be located in the city park and probably would take in the property now used by the Ashland auto park and a part of the area reserved for the future deer and elk.

GRANGERS ENJOY MUSIC AND TALKS IN JACKSONVILLE

JACKSONVILLE, Ore., Oct. 22.—(Special.)—About 100 Grangers attended the program given by the Jacksonville Grange last Friday evening. Besides special musical numbers a radio broadcasting club was very cleverly presented by John Niedermeyer, Ted Sims, Christian Wendt and Henry Conger. Senator Dunn of Ashland gave an illuminating talk on the outstanding facts of the bill concerning the reduction of the automobile license fee. These facts were timely and well attended by all farmers and Grangers present.

Following the program pumpkins and cider were served by the ladies of the home economics cap-mitter.

A business meeting will be held Friday evening, October 25, the purpose of which will be to launch a membership drive and to discuss certain other Grange activities.</
