Tell-Tale Arteries

"I had been feeling miserable for a long time, having dull headaches, sleepless nights and periods of depression. The least exertion started my pulse beating and shortened my breath. I didn't realize that, due to a toxic condition, my blood pressure was mounting and my arteries hardening. Learning that the liver had a great deal to do with one's condition of health, I began taking ox gall in the form of Dioxol Tablets and soon noticed a remarkable change in my health and appearance."

If you're not feeling just right, look to your liver. When the liver becomes sluggish it fails to cleanse the blood of the poisons formed in food waste. The whole system then becomes toxic, known as auto-intoxication. Kidneys, stomach, blood pressure and arteries become affected. Natural ox gall extracted from the liver of the ox is the finest tonic for the human liver. It is a natural liver stimulant and literally rejuvenates that organ, which is to rejuvenate the entire system. The pure genuine ox gall is to be had in dainty, tasteless form in Dioxol Tablets. Each tablet contains 10 drops of pure ox gall and costs less than two cents. Just a few will make a noticeable difference. To be sure of getting genuine Dioxol look for picture of ox's head on package. On sale at all good druggists. Special Agent, Jarmin & Woods Drug Store.

COMMUNIST HEAD IN FIGHT AGAINST BRIDE BARTERING

SAMARKAND, Turkestan.—(AP)—A merciless struggle against polygamy and the paying of "kalim," or ransom for Moslem brides, has been started by higher Communist authorities throughout the Kazak, Uzbek and Tadjik republics in Central Asia. A special society to fight these Mohammedan practices has been organized.

Ten years of intensive Bolshevik propaganda have affected the practices of Moslem rites by the native population but little even among certain classes of government officials and Communists, who in the depth of their souls still clung to the law of the prophet.

The Sar-Dariinsk Communist party submitted a report stating that kalim and polygamy, although concealed in form, were prevalent not only among non-party members, but even among Communists, old and young.

Another practice adverse to Communist doctrines is the trading of marriageable girls by their parents to the highest bidder, and the subsequent resale of the girls if the bid is later raised by some other person. An example was the case of a certain dosunov, once a wealthy Kirghiz peasant of the Barabinsk steppes. He submitted before the Moscow court this letter:

"In 190 I was married in accordance with our Moslem customs and ancient traditions to Mucki Tenerbekova, and paid for her seven cows, five oxen and ten roubles. Two months later my wife deserted me and joined her father, who sold her soon afterwards to a second husband for 225 roubles cash. I was ruined and all my appeals to local authorities to get my wife or property back, were in vain. Today I have become a poor farm hand, while my runaway wife, I have learned, has been recently resold by her father to a third husband."

HISTORICAL SOCIETY NAMES ESSAY SUBJECT

PORTLAND, Ore., Oct. 25.—(AP)—The Oregon Historical Society has selected "The Territorial Government of Oregon" as the subject for the 1929 C. C. Beckman history prizes and medals. The prizes are four in number, viz., first, sixty dollars; second, fifty dollars; third, forty dollars; and fourth, thirty dollars, and will be awarded for the best four original essays on the above named subject written and submitted by girls or boys over fifteen years of age and under eighteen years of age, attending any public or private school, academy, seminary, college, university or other educational institution within the state of Oregon. Each of the four prize winners will also receive a handsome bronze medal.

EXCISE TAX FOR BANKS FAVORED BY STATE BODY

SALEM, Ore., Oct. 5.—(AP)—The California excise tax on banks and other financial institutions, as a temporary measure on Oregon to off-set the federal court decree holding that national bank stock cannot be taxed, was favored at the conference here yesterday called to study methods of taxation. After a long discussion this appeared feasible to members of the State Bankers' association, the state banking board and members of the state tax investigating committee.

Under this plan it was believed that about $600,000 annually would be netted the state, of which the banks would pay an estimated $450,000 and other institutions the remainder. No definite conclusions were reached as to the rate of taxation, but this will be worked out during the drafting of a measure to be introduced in the legislature.

One question to be worked out is whether the excise tax on corporations would supplant the present corporation fees that net the state about $450,000 annually.

Certain classes of intangibles would be covered by the excise tax, it was said.

Earl Fisher, state tax commissioner, estimated that the federal court decree took away from the state coffers about $650,000 this year.

Representatives of financial institutions that compete with the bank are in conference here today.

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

No Other Car Like This

A New and Larger Victory Six
by DODGE BROTHERS

Until you have seen, experienced and passed upon Victory smartness and performance, you can't possibly realize what a great car the new Victory Six is—and why the world is so emphatically sold on its amazing value.

NEW AND EXCLUSIVE Victory Six construction sets the highest standard yet known for riding ease and roadability.

BODY AND CHASSIS are mutually designed for each other. The body is bolted directly to the chassis frame, replacing the usual body sills and eliminating body overhang.

RECENT AND VITAL improvements have been announced including still greater roominess and luxury, wider doors and windows, greater vision areas, more generous leg room and still richer interior appointments.

BRILLIANT Victory Six performance is unparalleled for quick pick-up, instant acceleration, speed and flexibility.

Three Great Driving Advantages of Exclusive Victory Construction

Lowering the center of gravity brings the weight of body and passengers nearer the ground. You feel that you are riding IN the car and not ON it. The Victory grips the road more firmly, and is safer and easier to handle on sharp curves.

Victory riding ease on all kinds of roads is nothing less than marvelous. The strength and rigidity of Victory coachwork contributes to the enjoyment of passengers by eliminating squeaks and rattles.

The perfection of Victor balance benefits all phases of performance. Steering is amazingly easy, acceleration is faster and smoother, and hydraulic four-wheel braking is extraordinarily efficient.
