In the opinion of County Judge Alex Sparrow, the county tax levy this year will probably be about the same as last year, and the official has reached this conclusion after many hours of figuring and conferring with members of the budget committee, the county court and the county clerk.

Judge Sparrow says there has been considerable pruning from the budget, and that all the county offices will operate under the same expenses as last year.

There will be no clipping from the county health and county agent's list, according to Judge Sparrow, as both are considered of vital importance to the general prosperity.

### RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says, "Constipation is more misery than any other cause." But immediate relief has been found. A tablet called Rexall Orderlies has been discovered. This tablet attracts water from the system into the lazy, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.
