

Local and Personal

With operations begun last Tuesday, a block and one-half of the base layer has been laid on Portland avenue. The base is four inches thick and will be covered with a topping of two inches thick, making the asphalt paving of this street complete. Paving of Portland avenue was to have begun last week, but due to the fact that the asphalt mixing plant on the Pacific highway south of Medford was not completed, the paving was necessarily delayed. Over three weeks are expected to be consumed before the paving of the street will be completed.

The Marshall Printing Co., local process engravers, has a large variety of beautiful Greeting Cards in their sample room. Call early and select from their complete line.
