PERSONALS

Plus at the Oregon National Guard rifle range east of Medford, on the slopes of Rocky Anne, are being lined this week with lumber and the range is expected to be ready for service by the first of November. In addition to serving the target practice needs of the local unit of the Oregon National Guard, the range will also be used by the local reorganized branch of the National Rifle Association, which now has approximately 40 members and equally as many prospects.

Brisbane's Today

(Continued from Page One.)

Miss Dix went to the desert too late. She found sheiks riding on Ford cars instead of prancing Arab horses and wearing clothes cut out 10,000 suits at a time in Chicago, Rochester or some other American city.

A British citizen, over a powerful radio owned by the government, sent a message addressed to a lady living on Mars, never nearer this earth than 40,000,000 miles.

The usual fee was charged, and to and behold, after the prepaid message started on its 18,700 meter wave, a strange message came back through the loud speaker, giving "dots and dashes quite clearly without interruption." Martians know that we can't understand their language. In all probability they had nothing to do with those "dots and dashes," but it is interesting.

In connection with dots and dashes, it is well to remember that several members of Congress were once beaten for re-election because "they were fools enough to vote public money for an impossible contraption called the telegraph that would send message over a wire." The "contraption" now works, even without wires.

The National City Bank, richest private institution in the world, will interest itself to the extent of \$5,000,000 to \$10,000,000 in airplane development.

And Mr. Mitchell, head of the National City, shows wisdom in encouraging a flying organization of Seattle. That energetic city of the northwest, close to Asia, has good reason for developing aviation, and is doing it.

When will the big General Motors company begin airplane manufacture? Mr. Sloan knows that his giant company will be making airplanes sooner or later. Why not NOW?

Card of Thanks.

To our dear friends and relatives who tendered to us their most sympathetic and help during the illness and death of our loved one, also for the beautiful floral tributes, we are truly grateful.

Emma Bennett and Family. 217

Notice.

My wife, Gladys, having left my bed and board, I will not be responsible for any debts contracted by her after this date, October 26th, 1928. M. H. Simons. 113
