GOLD HILL HIGH PUBLISHES PAPER AND ALSO ANNUAL

GOLD HILL, Ore., Oct. 26.—(Special.) The Gold Hill high school is putting out a school paper under the name of "The Nugget." Last year the student body proposed to start such a publication, but the high school preferred to let the paper go and publish an annual. The annual met with great success, but there were still some who at the beginning of this school term, wanted the high school to make their publication a paper instead of an annual. Both sides have now compromised and are putting out both the paper and the annual.

Several issues of the paper have already been sent out and it seems to meet with public favor. A fair circulation of the paper has been obtained. Nearly all of the preachers of the town appreciate the ability of the students to put over such a publication, and each one of them seem to think that the advertising in it gets results. The staff to edit the paper has already been chosen, consisting of reporters for the different school rooms and activities as well as town and current news reporters.

A high school paper is something that every school, no matter how small, should try to achieve. So far this paper has met with success, and with the support of the business men of the city, together with the people of the community in general, the paper can be made one of the finest achievements of the high school.

The Commercial club held its regular meeting in the council room of the city hall on Monday evening, October 22. A fair number was in attendance at this meeting. The next meeting will be held at the same place on Monday evening, November 6th. All members as well as those interested in the activities of the city are invited to attend this meeting.
