These three qualities are closely allied together and are the factors that influence the all important item of eating. In the eating of Fluhrer's Milk Breads note the fullness of flavor, the richness of aroma not found in the ordinary bread. This is where the Fluhrer policy of extra quantities of vitamin bearing milk shows its results.

You owe it to yourself and family. Make this comparison, and once you've discovered the difference you will never again ask your grocer for "just a loaf of bread" but you will always insist on
