VARIED PROGRAM ENJOYED BY ODD FELLOWS LODGE

A good crowd responded to the invitation of Medford Lodge of Odd Fellows to attend the entertainment at its hall last evening and all were well satisfied with the amusement provided. The evening was mostly devoted to wrestling bouts, but other features added variety.

Don Platt at the piano and A. Christensen with a xylophone, provided appreciated music throughout the evening. H. W. Conger presided.

The first event was a wrestling bout between Tommy Ryan and Curley Woods. Though the latter was considerably handicapped by the heavier weight of his opponent, by his skill and activity he engaged Ryan for 11 minutes very clearly before he was pinned to the mat.

Next was an exhibition of the effect of physical training enacted by the Mortensens, the juveniles, brother and sister, aged 12 and 11 years. Their exhibitions displayed much agility and activity and they finished with a wrestling tussle that got a good hand.

Earl Davis appeared in black-face and regaled the crowd with a lot of skits and rallery at the expense of members of the lodge.

Sailor Jack Wood of Medford and Mr. Mortensen of Grants Pass engaged in a ten-minute wrestling bout which developed two pretty evenly matched artists of the mat. The bout ended in a draw.

Eddie Demmer acted as referee. Tom Roseberry responded to a call and added to the enjoyment of the evening with jig stepping.

Those present then repaired to the dining hall where light refreshments were served.

The balance of the evening was spent in card playing and social intercourse.

EXTRA COUNTERS ON ELECTION DAY NOT TO BE NAMED

No extra counting boards will be named for the coming election, according to a decision reached yesterday. This was urged owing to the heavy registration in this city, but county officials, after conferring with attorneys, found that unless the counting boards were appointed in January they would be illegal.

There are double counting boards in four Medford precincts—West Medford, Newtown, East Medford and the Roosevelt school—and they will function on election day.

The county clerk has sent away 24 absentee ballots—the largest number in the history of Jackson county. Friday was the final day for filing applications for absentee ballots, and six such received this morning were not allowed. Most of the absentee voters are students at Oregon and Pacific coast colleges. All absentee ballots must be returned before Monday, November 5, the day before election. They are placed in the ballot box and counted in the usual manner.

Cascara is Your Doctor's Choice

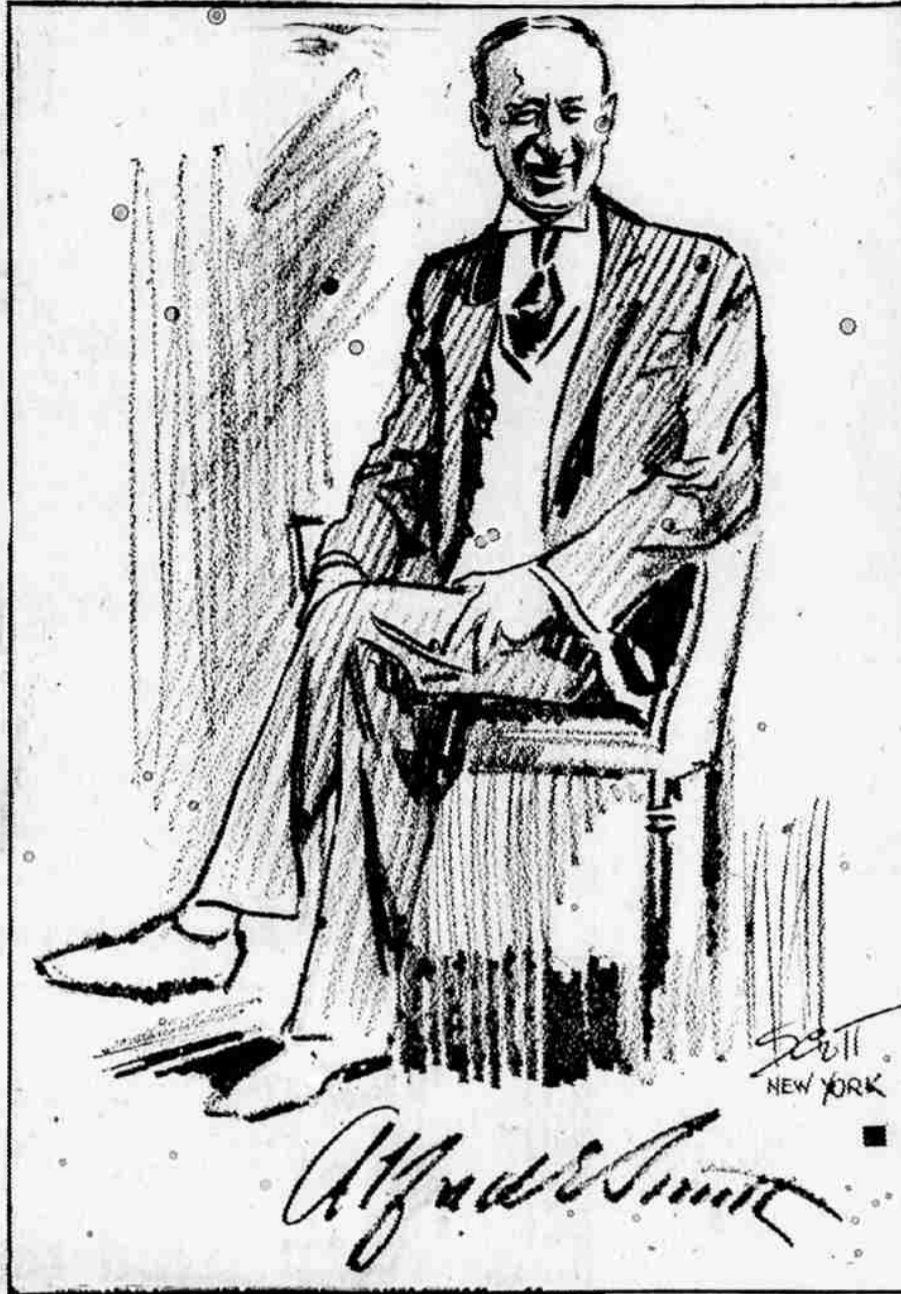

When physicians pronounce cascara the PERFECT laxative—why experiment with things that lack the system into action? Cascara, you know, is the bark of a tree. A natural and normal stimulus to the bowels.

The Indians, who used to chew this bark, had no word in their language that meant "constipation".

Perfect regularity is possible today, and to all of us. We have cascara in ideal form: the very delightful-tasting easy Cascaret gives us pure cascara. It has helped at least a million people to habitual regularity. Millions of others, unfortunately, have stuck to stronger

Life looks rosy for him

Health worth more than fortune

THE baby to be envied is the one who is born with an inheritance of perfect health, to begin with. And who's lucky enough to have a mother who knows how to build up that fortune.

"Perhaps I'm old-fashioned," she'll say to the doctor who pronounces her child physically 100% at a baby show, "but this health certificate means more to me than all the stock certificates in the world. If my baby grows up strong and well, I'm willing to leave it to him to make a career and fortune for himself."

"Already I'm teaching him the value of regular habits. Regular sleep, regular meals, regular functions. He's never once been off schedule, not even when he was cutting teeth or traveling to the country. I make sure of that by giving him Nujol regularly."

Nujol works so easily and naturally that it won't upset a baby under any conditions. It keeps everything functioning properly. It not only prevents any excess of body poisons (we all have them) from forming but aids in their removal. It is safe and sure. Nujol is perfected by the Nujol Laboratories, 26 Broadway, New York.

Just try Nujol for your baby. Give it to him regularly for the next three months. See if it doesn't make things much easier for both of you. Certainly it could do no harm—for Nujol contains no drugs or medicine. Your druggist carries it. Be sure you get the genuine. Sold only in sealed packages.

"First. Such fruit so sold shall be used solely for the production of manufactured fruit products, beverages, or other manufactured products or by-products.

"Second. The nature of the infestation or infection shall not be such as to make the article of food or beverage manufactured from such fruit unwholesome or unfit for use as a food or beverage. (L. O. L., 5498, L. 1917, c. 96-2.)

The county fruit inspectors are charged with the enforcement of this law and will visit all places selling fresh fruit, from time to time. If apples and pears offered for sale are found infested with scale or worms, they will be condemned and destroyed.
