## Worthy of Your Support

In this campaign, the Democratic Party offers to the voters of Jackson County men of integrity and ability, each well qualified in every way for the office for which nominated.

Long continued domination in public affairs by one party is a serious mistake, and likely to prove expensive to taxpayers. It breeds indifference to the welfare of the people, if nothing else.

Confident that they will prove worthy and competent public servants, loyal at all times to the trust imposed, and vigilant in the service they will render, the Democratic County Central Committee of Jackson County urges your support of the following candidates:

HARRY D. NORTON, Circuit Judge

An able jurist and experienced lawyer, with the courage to discharge his duties fairly and fearlessly. Well read in the law, and sound in its interpretation. One who will bring to the bench judicial dignity.

GEORGE A. CODDING, District Attorney

Qualified by training and sincerity of purpose, and certain to perform his duties as the law provides. Can be trusted to do his duty with honesty of purpose. Will impartially prosecute every violation of law.

RALPH G. JENNINGS, Sheriff

Tried and tested during the past two years, and proven by his administration of the office. Courageous in his enforcement of the law, free from favoritism. Courteous in his official acts.

J. FRANK WORTMAN and L. A. WILLIAMSON, Legislature

Well equipped for the duties they will perform. Informed as to the needs of Jackson County and its people. They have the viewpoint of the layman, and are conversant with their rights and legislative welfare.

R. L. CORNWELL, School Superintendent

An ardent champion of the right of every child to an education. As much interested in the rural districts as the centers of population. Trained in the work of the school room and school management.

C. W. ASHPOLE, Commissioner

Familiar with the needs of every section of Jackson County. Successful merchant. His business ability and sound judgment will be valuable assets. His election will mean much to Jackson County.

DR. CHAS. T. SWEENEY, Coroner

Place in this office one qualified to perform autopsy and postmortem, and to testify to the results. Can do much that one not so well qualified cannot do. Will save money to taxpayers, and serve them well.

Jackson County has so long been under the control of one party, the administration of its affairs has become wasteful and extravagant. Elect men known to favor economy and fairness, and who have the interest of their constituents at heart.

Do not be deceived by claims of indebtedness paid. Look at your tax receipts for the past few years, and decide for yourself. Every Democratic candidate is well fitted by ability, sincerity and honesty to fill the office to which he aspires.

Make November 6th the beginning of a new era in the prosperity and development of Jackson County.

## Let Us Clean Up

MR. AND MRS. VOTER:

A condition exists in this county that you ought to do away with. Never in the history of the state was there such a mess. The judiciary does not have the confidence of the people. The public money is wasted and squandered. Those take the public money whose acts cannot be investigated. You cannot afford to have this condition continue, especially in the judiciary that is the fountain-head of your local government. If you would save the public money from waste; if you would have this money used for the purpose for which it is appropriated, and make every public official respect the rights of the taxpayers in this money, the fountain-head of this government must be free from politics; free from influence, and free to act according to the law. If conditions were right, things would not be in the mess in which you find them.

Please help us to get a change in the circuit judgeship.
