

OWEN J. ROBERTS, OIL PROSECUTOR, RESIGNED TODAY

WASHINGTON, Nov. 8.—(AP)—President Coolidge accepted today the resignation of Owen J. Roberts, special counsel for the United States in the oil cases, effective immediately.

In his letter of accepting the resignation, President Coolidge expressed gratitude on behalf of the government "for the fidelity and energy with which you have prosecuted these cases, which have returned to the United States all the property in question and many millions of dollars in money."

Roberts tendered his resignation because of the Senate's joint resolution calling for his appointment he was prevented from taking up any cases of his own which had any connection with the government. Atlee Pomerene, with whom Owen Roberts was associated in the prosecution of the cases will continue in his present position and conclude the remaining work.

HUTTON MILLION TO CHILD HAVEN

SPOKANE, Wash., Nov. 8.—(AP)—Details were being worked out today to turn over virtually the entire estate of Levi W. Hutton, valued at \$1,250,000 to the Hutton settlement, a haven for homeless children, which was founded by him in 1917. The orphanage was given the estate by terms of Hutton's will.

Mr. Hutton, who made his fortune in the Hercules mine in the Coeur d'Alene region of Idaho, died Saturday. He left his brother, Stephen A. Hutton, Vancouver, Wn., \$10,000 and members of the board of directors of the settlement each were left \$100. The balance of the estate was to be placed in trust, the income to be used for the maintenance of the settlement.

CHICAGO POLITICS ECHOED BY BOMBS

CHICAGO, Nov. 8.—(AP)—Politics re-echoed in the 13th ward today when a bomb wrecked the front of the Thompson-Crowe Republican headquarters on Wentworth avenue. It was the 89th bomb of the year in Chicago.

Ernest Gebsler, who has a real estate office in the same building, suggested that police talk to Hugh Norris, ward committeeman and ward leader for the Thompson-Crowe faction of the Republican party.

Norris said he did not know who threw the bomb. He recalled, however, that the courts are still attempting to determine whether he or John (Dingbat) Oberhauser was elected committeeman last April.

ZEPPELIN STOWAWAY SAILS HOME TODAY

PARIS, Nov. 8.—(AP)—Clarence Terhune, who stowed away on the Graf Zeppelin, changed his mind and after cancelling his passage aboard the majestic yesterday, sailed aboard the Ile de France. It was explained today that he wanted to return to the United States with some of the passengers who had come over on the airship.

Oregon Weather
Rain tonight and Friday; warmer in the east portion tonight. Southerly gales on the coast.

Suffered for years from Stomach Indigestion and Gas

It was impossible for this woman to eat anything without distress. She took Agmel. She writes: "I gradually found I could eat everything." A sufferer from high blood pressure, accompanied by nervousness, writes that after taking Agmel he "felt like a new man." Letters like this are received daily. One woman says: "Everyone tells me how well I look, but only I know how well I feel."

What is Agmel? A great natural health food. The seed of the Mexican Maquey plant concentrated by removing excess water. Nothing added. Extraordinarily rich in important minerals and other vital elements necessary for the proper adjustment and functioning of the body. A vital stimulant. Not a medicine. Thousands of people have taken Agmel.

High Blood Pressure
If you have any of the following symptoms, investigate Agmel today: headache, backache, dizziness, and frequent necessity to get up at night, etc.

Get Agmel at your drug store, or write direct to The Agmel Corporation, 222 Park Avenue, New York, N. Y.

FOODS BETTERED THROUGH USE OF DRY SKIM MILK

Americans are depriving themselves of innumerable possibilities for health, from the common practice of skimming milk for cream and throwing away the non-fat milk solids in the form of skim milk or by feeding it to farm animals, according to Dr. H. E. Van Norman of Chicago, internationally known dairy expert.

"Skim milk solids are one of nature's most valuable foods, both for human and animal uses," says Dr. Van Norman. "Milk, in simple terms, is butterfat, skim solids and water. When all the water, which comprises something like 85 per cent of the original milk, has been removed, there remains the butterfat, which is less than a third of the solids content, and the skim milk solids, which are more than two-thirds of the solids content of the milk. The butterfat, in the form of butter, cream, ice cream and other products, has the higher commercial value, yet from the nutritional viewpoint, it is the skim milk solids which supply the elements of nutrition so often lacking in our modern diet."

Analyses reveal that the composition of dry skim milk is 8 per cent calcium and other minerals needed in bone and tooth building; 37 per cent milk protein, a valuable source of muscle and tissue building material, and 51 per cent lactose or milk sugar, an energy supplying food particularly valuable for maintaining the intestinal tract in a healthy normal condition.

According to Dr. Van Norman, dry skim milk is constantly being used by the better bakers to improve the nutritional value of their products, as well as their physical characteristics. It is also largely used in the making of biscuits and crackers and in the preparation of macaroni, prepared flours and for sausage filling. Large quantities of the powder also go into the making of ice cream, chocolate and confections of various kinds. Superior grades of cottage cheese are made with it, and in communities where the demand exceeds the supply from actual churning, cultured buttermilk is prepared by reconstituting dry skim milk and inoculation with pure cultures of lactic acid bacteria.

High Human Food Value In New Type Bread
INCREASED "PROTECTIVE MINERAL" CONTENT THROUGH ADDITION OF DRY SKIM MILK RESTORES QUALITIES OF WHEAT LOST IN MILLING

Plain Bread	New Type Bread
Low in Calcium	118% increase in Calcium
Low in Phosphorus	52% increase in Phosphorus
Low in Iron	37% increase in Iron

BEER RACKETEERS TORTURE A NEGRO IN CHICAGO FEUD

CHICAGO, Nov. 8.—(AP)—Torture by fire—heat-redended forks pressed into the flesh of the cheeks, lighted matches held to scorch the face—again has been resorted to as a gang method to make an enemy "speak."

Edward Jackson, negro garage worker, told police of the torture yesterday, saying it was employed by two men to force him to tell the whereabouts of a man they sought. The man, Jackson said, was John (Dingbat) Oberhauser, defeated candidate for state senator. The racketeers also sought to learn from Jackson the whereabouts of Danny McFall, known to police as a one-time ally of "black Joe" Sallis, a figure in the "beer racket."

"They heated a table fork red hot and pressed it against my cheeks," Jackson said. "Then they lit matches and held the flame close to my face."

Two men were arrested, and Jackson identified Walter Zwolinski as one of his torturers.

Mississippi valley, believed to be the greatest for producing area in the world, accounts for most of the \$70,000,000 annual catch of the United States.

PHILADELPHIA GUNS RIDDLE GANG LEADER ON STREET CORNER

PHILADELPHIA, Nov. 8.—(AP)—Another victim of gangster's guns was near death in a hospital today, his body riddled with 11 bullets. His recovery, physicians said, was doubtful.

He is William Denni, alleged leader of an underworld band. His brother was shot down in a gang feud less than three weeks ago. Denni was shot as he stood on a street corner last night when an automobile sped past him dumping out a fusillade of shots. He refused to reveal the identity of his assailants.

Denni and his brother were witnesses in a murder case several weeks ago. If he dies he will be the 25th victim of gang shootings, which are now being investigated by a special grand jury.

COLDS MAY DEVELOP INTO PNEUMONIA

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (ads)

MORE PROHIBITION ASKED BY VOTERS DRY HEAD CLAIMS

CHICAGO, Nov. 8.—(AP)—The women's national committee for law enforcement, comprising ten national women's organizations, gave out the following statement today through its president, Mrs. Henry W. Peabody of Massachusetts:

"The election of Herbert Hoover is the answer to the cry for a referendum on the 18th amendment. The voters have declared they want more, not less, prohibition—more, not less, enforcement of the 18th amendment."

The statement described Hoover's victory as the result of women's outpouring to the polls to prevent a breakdown in law enforcement and said his election should banish forever from American politics "the liquor controlled politician."

The women's national committee includes the general federation of women's clubs, parent-teachers' organizations, and similar associations.

Flood Will Probate.
REDWOOD CITY, Cal., Nov. 8.—The will of Cora Jane Flood, sister of the late James L. Flood, "Bonanza King," was filed for probate here, disposing of an estate valued at between "one and two million dollars." Three hundred and thirty-five shares were left a total of \$12,000 and the balance of the estate went to a niece and a nephew.

Broker Suicides.
SAN FRANCISCO, Nov. 8.—(AP)—Bertram C. Ireland, 59, pioneer broker here, committed suicide by leaping from the window of his doctor's office in the eleventh story of the Flood building. He had been under treatment for nervous disorders.

WHY Goodyear

All-Weather Tread Is Safe for Winter Driving

The famous Goodyear All-Weather Tread scientifically designed for Balloon Tire use has the big advantages of traction and resistance to skidding. The sharp-edged diamond-shaped blocks are placed in a semi-flat design so that they not only grip the road but they retain their usefulness longer than any other non-skid.

The second big advantage is long, slow even tread wear as opposed to the "cupping" and uneven wear so noticeable in many other Balloon Tires.

And with these virtues of traction, non-skid and long-wear, this new tread is perfectly quiet and does not produce the vibration of many non-skid designs.
