

SCHOOL CHILDREN HAVE ACTIVITY IN JUNIOR RED CROSS

Conducting clean-up campaigns, protecting birds, beautifying school yards, and maintaining correspondence with children of many other lands are some of the activities of more than 1,000 Oregon school children, members of the American Junior Red Cross, cited in the organization's annual report.

Enrolled under the motto "I Serve," the Juniors are said to be carrying on activities in their schools and communities the influence of which literally reaches around the world. Through a system of international correspondence fostered by the organization, they have exchanged portfolios and letters with the Juniors of other countries, which, aside from its educational value is believed to be promoting international amity and understanding.

At home they have carried on local service activities, one feature of which is providing presents and entertainment for fellow Juniors who are ill, and for disabled veterans in government hospitals.

In Oregon, 151 schools are participating in the Junior Red Cross, in which 11,223 pupils are enrolled. Beginning as a war measure precipitated by the wish of school children to participate in war relief and other activities, the Junior movement has spread throughout the world and is hailed by many educators here and abroad as the most significant movement of the last quarter of a century.

The Juniors of this state are part of a worldwide movement in which more than 12,000,000 school children are enrolled in more than 40 nations.

ITALIAN ORGANIST IS INTERVIEWED BY LOCAL SCRIBE

Fernandez Germant, 24-year-old organist of Rome, Italy, who will be heard in a pipe organ concert at the Presbyterian church tonight, stepped off the train at noon yesterday, smiling, and was greeted by a local committee.

"America—et is fine place, I like verra mooch. My second time over here." The youthful musician's eyes fairly danced as he endeavored to express his enthusiasm via the difficult "United States" language.

Asked whether or not he would like to live here, the blue eyes did a couple of eloquent revolutions. "Ah—Hollywood—yes, I love it there. Wonderful! California I admire verra mooch. San Francisco bay! Eet is something like Eetaly. To liff in California, I would like that, yes!"

As to his acquaintanceship with Mussolini, the organist said that he was no more personal than that of most young Italians. "I know beem when I see beem, yes." Asked what he thought of the great dictator, the boy turned quizzical eyes on his interrogator.

"You like beem here? Ah—you don't know beem? Oh—yes," he burst into a hearty laugh, and continued: "Ovra there—some love him—some hate him. It is so weeth all great men, yes."

Germant, who was brought over here under the auspices of the Wanamaker Auditorium Concert Bureau, is now on a three months' tour of America. His only California concert was in Hollywood last week, but he has been visiting the various cities through the state, where he has been accorded receptions by musical authorities. He will play only two concerts in Oregon, here and in Eugene.

VETERAN SOLDIER TELLS ADVANTAGE OF MILITARY LIFE

An explanation of the United States army and a plea for the citizens to form a better acquaintance with that organization was made today by Sergeant Grover Owen, local United States army recruiting officer. In one of the first interviews which the veteran soldier has had, he told of his experiences and the benefits he has derived from being a soldier for nearly 20 years.

"I enlisted when I was 18 years of age," he said, "and I have remained in the service ever since, principally for the reason that I have always made good money and will be able to discontinue work at 18 years of age with an income of \$134 per month for the remainder of my life. At the present time as recruiting sergeant, I am receiving \$140 per month in cash, with free doctor and dental service. I suffer no loss of time during sickness or vacation, and at all times have my clothing furnished.

"While if I was working in civil life," he continued, "I would have to save \$100 a month for 30 years to be able to retire from hard work and have an income of \$134 monthly. So with my \$140 each month and the equivalent of \$100 safely deposited with the United States treasurer each month, I figure my pay as being \$240 monthly. It is true there are many people drawing better salary, but a large percentage are not averaging much over \$100, and are not saving any amount for rainy days and old age.

"There is an old saying," said the sergeant, "which makes me laugh every time I hear it. It is that the army has no future for a young man. Well, that saying doesn't hold up at all, for every man has an opportunity and is encouraged to take examinations for the best point military academy until he is 22 years of age. If he is successful he obtains a \$50,000 education for nothing and draws \$1000 per year while getting it. Then again, he has from the time he enters the service until he is 30 years of age to pass it.

"When he completes the course he receives a second lieutenant's commission and has every chance in the world to work his way up to a higher position. Even though a soldier may not have the advantages of West Point, he has every opportunity, never-the-less, of working his way up from private to commissioned officer. The army also has 500 different schools in which officers and privates may learn trades. So a man gets out of the service just what he puts into it, and the army is just as promising.

"However, only 75 per cent of the applicants for enlistment are qualified because of physical defects and blotches on their chests," the sergeant continued. "Most people think that if you give a man a rifle and uniform, he will be a soldier, but this is wrong. He must have a year's training, regardless of his standing in civil life, and if there is anything which makes an army man laugh, it is for some person, new to the service, most especially in peace time, trying to tell some one who has been about the service."

Fred Stanley came up Thursday after his horses which he took back with him Friday.

H. L. Heryford delivered a beef to Lewis of Central Point Friday. His daughter, Beulah, went with him to have dental work done in Medford.

A large number of geese have been flying over recently and the men in the camp have had considerable sport shooting at them, with but little success.

Walthall enact the tragic role of that young man's father, the publisher of the "Free Press."

BOX SOCIAL PLAN GOLD HILL SCHOOL PARENT TEACHERS

GOLD HILL, Ore., Nov. 17.—(Special)—The P.-T. A. is giving a box social on the night before Thanksgiving. Everyone is urged to attend because the money is to be used for a play shed for the school children. This is badly needed now as the school house is entirely filled up with desks. We now have one of the outstanding schools of southern Oregon, by virtue of size, equipment and the teaching personnel. As soon as the rains commence, the need of a play-shed is felt very badly. A limit will be placed on the bids for boxes. No lady's box may sell for more than \$1.00 and the children's boxes will not be over 25c. A special Thanksgiving program of interest to all, will precede the selling of the boxes. Seven men were absent at the dredge this week, on account of sickness. 'LAFF THAT OFF' OPPORTUNITY FOR PLAYHOUSE CAST

(By Mary Greiner.) The love of three plays that weathered a progression of storms, the minor skirmishes that evolved from domestic duty in their small New York apartment where they shared their common lot, the crimsoned cheeks they took from the streets and made a member of their name, their cruel disappointment in her when she "trimmed" them and escaped to seek a career, and their final separation by the great war, is the theme of "Laff That Off," the comedy which opened at the Playhouse theater Thursday night. The ability to "laff" off the battles of life, made the last big laugh at the end of the play an enjoyable experience that sent the audience home happy for the boys, happy for themselves and happy that they had seen the play. At least two of the actors in this week's production deserve mention. Mason Wellington, who played the role of Alex, the quiet member of the "gang," maintained commendable restraint, and made his character speak volumes beyond the dialogue of his part. John E. Francis did his best bit so far, in the role of Emorse, the wise-cracking vaudeville kid with the materialistic soul. Although he had a chance, he did not over-play his part, and contributed the best piece of comedy so far seen at this theater.
