Members of the architectural and manual training class of Medford high school were initiated into the secrets of blue printing yesterday morning when they visited the blue print department of the California Oregon Power company in this city. Bernard Roberts who is in charge of the department, explained the different methods of printing and various kinds of drawings and told how the best results may be obtained. He also demonstrated the operation of the continuous electric printing, washing and drying equipment. In blue printing as in many other lines of business, electricity has not only made former methods more efficient but it has also greatly simplified the work in this connection. The high school students were accompanied by their class in tractor, Leland Mentzer.

When In Quest Wof. A Gift

It frequently happens that an anniversary stares you in the face—perhaps a birthday or wedding of relative or close friend. Alas, with all the good will in the world, you can't think of the exactly appropriate gift.

In many such instances we have been able to supply the inspiration. In our cases and on our counters you will find innumerable suggestions—clocks, watches, jewelry, plated silver by Gorham in flat and hollow ware, a great variety of attractive novelties, etc., etc.

Don't let the fact that you "have not made up your mind" prevent you from visiting us.

We should be glad to be helpful, either by offering suggestions or by leaving you to ruminate your sweet will until the thing you seek catches your eye.
