Carrying on a health campaign through the year, the American Red Cross has given instruction to 680 Oregon women and girls in home hygiene and care of the sick during the organization's last fiscal year, according to a statement made by local Red Cross officials.

While the course includes instruction in the care of the sick in the home, its principal object is to give students a deeper understanding of their own health needs, the needs of their family, and those of the community as a step toward the promotion of health and the prevention of disease.

Forming an important part of the course is training in the care of babies and young children, including theoretical and practical training in bathing, dressing, handling and feeding them in a way to safeguard their health during the

GOLD HILL STORE SAVED FROM FIRE THREAT THIS A. M.

A fire started early this morning in the storeroom of Radtke's store in Gold Hill. The blaze was first noticed by Claude Shaver, and he immediately sounded the fire alarm. Several people were at the fire when the truck arrived.

At first it was not known where the real blaze was, but as soon as Clarence Shaver arrived at the scene he opened the door to the store room, and it was found that several cartons of matches, boxes and cartons covering canned fruit and soap were on fire. The smoke was very thick and it was hard to get into the store, but as soon as the chemicals were put upon the cases they were able to bring them out and they were extinguished.

The Odd Fellows' hall above the store and the Dix pool room next to it were not damaged by the blaze. The smoke was pouring out the windows of the I. O. O. F. hall when the fire was found, but it was only coming up through the floor from the store. Outside of several cartons of canned goods, soap and matches, no loss was sustained.

The ceiling above the fire did not catch although it had not been discovered when it was the blaze would probably have been worked its way through the ceiling into the hall above. H. A. Radtke, owner of the store, did not arrive until the fire was extinguished. Several men were on hand to help remove the goods from the back portion of the store.

The fire occurred about 1 o'clock this morning. Its origin is unknown, although some thought it was caused by spontaneous combustion. This theory seems to be substantiated as so one was near the store or in it at that hour of the morning, and the only fire found was in the stack of boxes and cartons which were set in the center of the room.

growing period. Personal hygiene and health individuals are stressed in the habits essential to the health of classes, and students are at the same time taught "how to plan a healthful home, perfect in cleanliness, sanitation, ventilation and lighting, as well as in furnishing and care."

The work in Oregon during the year is part of a nation-wide effort by the Red Cross to train as many women and girls as possible in this subject which is considered essential to health progress. In every state in the union and in the insular and foreign possessions of the United States, Red Cross expects have been conducting the classes during the year. In all, nearly 40,000 persons were under instruction, of which nearly 49,000 completed standard courses and received certificates of proficiency.

Increase Prosperity by Supporting HOME INDUSTRIES!

LOYAL SUPPORT of home industries IS reflected in the prosperity of a community. Medford is fortunate in having business enterprises producing varied products and the success of these concerns is dependent upon the patronage accorded their products by Medford and southern Oregon people.

Likewise, the extent of the prosperity of this city and valley is measured by the success and prosperity of these home industries. Loyal support of them will attract new factories and plants, will bring new people here and build new payrolls. Medford-made products rate high from a standpoint of QUALITY and compete with all others in their various price classes. It is no effort to specify home made products and it will assure future growth and prosperity for all southern Oregon. Remember! With Medford Trade Is Medford Made!

THIS IS HOME PRODUCTS and BUY AT HOME WEEK

The Medford Chamber of Commerce is co-operating with home industries in a great drive to popularize their products locally and familiarize people of Medford and Southern Oregon with them. The success of the Chamber's efforts will depend upon the co-operation of every man, woman and child in this city and the Rogue River Valley.

Here Are Home Products That Merit YOUR Patronage

This Is a Great Country and the Home of a Number of Great Products

One of them is 'Fluhrer's Milk Bread,' the largest selling brand of bread in this section of the coast and sold by all grocers throughout Southern Oregon or Northern California.

We are proud of our bakery and its equipment and invite you to inspect it at any time and see for yourself the modern and sanitary conditions under which these famous breads are baked.

The Farm Bureau Co-Operative Exchange and Poultry Producers Co-Operative Association Are Entirely Local Institutions

They benefit the farmer by getting him more for his produce, by stabilizing the local market and making it possible to ship the surplus to outside markets. They benefit the merchant by increasing the farmer's prosperity and buying power.

Back these institutions and you help increase your own and Medford's Prosperity.
