ones. L. H. Gregory, the very competent sports writer of hostile act? the Oregonion, yesterday opined that the Medford team was suffering from overconfidence and there was no reason to be-dent-elect Hoover. Those newspapers and individuals who do lieve the local boys would plow through The Dalles team and, not approve of his trip to South America are perfectly entitled

wrong. The Medford team did not suffer from overconfidence, the character of the ship he happens to travel in.

way to play safe in this direction is to leave football prophecy

In the remainder of his article, however, Mr. Gregory gave a very fair and accurate appraisal of the Medford football team, and struck the nail directly on the head in commercing the reasons for the sensational success Medford has enjoyed, in this Sworm daily average circulation for six field of sport, the past six years—an unbroken record of demins mineral food, right and and adequate in all respects, which seeding April 1, 1972, 4532.

> The fundamental reason is the coach, Prink Callison. For, as Gregory explains, this talk about Medford's "heavy" team result of sheer brawn,—a mere running over of lighter and physically weaker opponents. Nor has it been the result of greater experience, the superiority of a team of veterans, who have played together for a period of years.
>
> Every year Callison has had to build up a new team,—develop new men to take places left vacant by graduation. This year, for example, Medford lost Demmer, the heaviest hide.
>
> In whater for such a person, Could build would be warner and not too extends that is not packed to spend the winter?—Some anything to eat that is not packed. Wrapped or backed with appressance or backed with appress is unwarranted. This extraordinary record has not been the

velop new men to take places left vacant by graduation. This year, for example, Medford lost Demmer, the heaviest high school linesman in the state, and the best kicker. There was no one to take his place, particularly in the kicking department, whereupon Callison changed his program entirely. Instead of developing his strategy around a great kicker, he developed it without a kicker at all—depending entirely upon a fast-running game, speed and deception.

In other words, it has not been any superiority in raw material that has made this exceptional record possible. It has been essentially the ability of the coach to make the most out of the material presented, fit his strategy to that material, and get the maximum scoring and defensive power from it.

This is the supreme test of conching success. No one wishes

is in the shaping of American policy in the difficult period presented, fit his strategy to that material, and policy in the difficult period presented for the fit his strategy to that material, and policy in the difficult period presented fit his strategy to that material, and policy in the difficult period presented fit his strategy to that material, and policy in the difficult period presented fit his strategy to that material, and policy in the difficult period presented fit his strategy to that material, and policy in the difficult period presented fit his strategy to that material, and policy in the difficult period presented fit his strategy to that material, and adoctor of philosophy, and Nina Simmonds is a doctor of science. #### THEY ARE POOR LOSERS

SOME of our Smith Republican friends are showing them-selves up as poor sports and poor losers. They even refuse win M. Hood, then dean of the entire Washington corps of correspondents, and Hood was a personal and trusted friend of Eryan, of Labsing and of a score or more of Lansing, and of a score or more of the men who, on sovemoer is closed to be merely the leader of a party, and became the thirty-first the greatest in that critical time in the affairs of the nation.

Out of the erowding memories of those heetle days, one picture comes back very clearly. It cresults the comes back very clearly. It cresults the mention of the erowding memories of those heetle days, one picture comes back very clearly. It cresults the mention of the erowding memory in the mention of the erowding memories of those heetle days, one picture comes back very clearly. It cresults the mention of the erowding memory is considered to be merely the leader of a party, and became the thirty-first to be merely the leader of a party and became the thirty-first to be merely the leader of a party, and became the thirt

day of Bryan's resignation American in a battleship. To enter upon a mission of peace and good will, in a ship with a battery of 8-inch guns, appears to this Smith newspaper the height of poor taste and impropriety.

Mebbe so. But we fail to see it.

And our good-will ambassador of the world, Colonel Lindbergh, didn't he ride home in a minor dreadnaught?

Taking a battleship instead of a government-owned passen ger liner seems to us good sense, and certainly good economy. For the battleships are all the time going somewhere,—the overhead is a constant factor. Why not use the mileage to some purpose, instead of merely using it for "exercise?"

ed vaguety what a "batanced" diet means, 1 am not so sure been now, but after reading Me-Collum and Simmonds I suspect I means that one should have a sahad or a leafy relish, some dairy preduct, either bread or some other carbohydrate, and either upoat or some other protein ten daily. These are the bare essentials, the greater variety of foods consumed the more likely couldn't wear a hat.

ium's middle name is but to my skin husn't imind it is Vitamin, for he is cer- far.—I. T. fainly the foremost American authority on vitamins. Let me quite less laxative. one passage from the book:

Many will ask how about stany win any now about the vitamins which have been advertised within the lass few years. The answer is that these are contained in the food we cat, provided the se-lection which we recommend is followed. There were a great many people in the world with fine physical development, good health, and long life before it became known that there was such a thing as a vitamin. It is frue that there is danger in running short of certain as them if we live in the unsatisfactory manner, which characterizes the babits of many Americans today. (Most of McCollum's writing is really better than this but non-truer). However, there is no safer advice than this. The place to see the safer advice than the safe than the place to get vitamins is in the market, in the grocery store, from the milk man and the garden, and not from the drug store. The only exception to this is in regard to the vitamin D, which is best se-

cured from ead liver oil.

For many ears I have wondered vaguely what a "balanced" diet means. I am not so sure byen now but after reading Me-
