

THOUSANDS OF PEOPLE VISIT THE GOODRICH PLANT

Thousands of visitors to Akron are guests of the H. F. Goodrich Rubber Company each year. Almost every day Goodrich is host to a group of sightseers who marvel at the many intricate processes by which 20,000 different rubber products are manufactured in this 120-acre plant. Last year more than 6,000 persons visited the Goodrich plant. During the first nine months of this year the company was host to more than 5,000 persons.

D. Darymple, district representative of the company with headquarters in Medford, says: "The few hours, or even a day, that most visitors can give to touring the factory is only a fractional part of the time required to go over the entire plant. High school and college classes comprise a large number of the yearly total. It is seldom that any group can afford the time that a complete exploration of the plant requires."

"Young college graduates, who are in training in the sales school, act as guides to visitors, which is an important part of their intensive period of training. They are thrown in contact with people from every state in the union and foreign countries. It serves the double purpose of giving them a cosmopolitan outlook and a thorough understanding of the methods by which Goodrich tires and other products are made."

One often finds four girls in a family, but to find four beautiful girls who compose one of the best dance teams is different. The Gale Quadruplets are such. They do tap dancing, acrobatic, comedy and soft shoe dancing. This organization will appear Sunday at Hunt's Crater in Panchoa and Marce's "Happy" idea which also features Ted Dwyer, song and dance man, assisted by Bobbie Thompson.

Others in this production are Alene and Evan, acrobats; Jerry Cox, "The Dancing Acrobaticist"; Varsity Four quartet, and Bill Albright, acrobatic dancer. The screen attraction is Phyllis Haver in "Tenth Avenue."

Fruit juices may be cannot or bottled with sugar when left over, and used later as needed by combining with gelatin. Leftover fruit juices may also be used in punches.
