

School Notes From the City and Valley

High School

Mr. Halg Arkin, well known artist, will appear at the local high school Monday afternoon at one o'clock, displaying a number of oil paintings that he produced from the originals in art galleries and museums in the old world.

Mr. Arkin has made a large case 10 feet high, electrically lighted, from which he displays his paintings. All of the pictures are six feet wide and most of them are seven feet high.

Some of the reproductions that Mr. Arkin will show are: "Da Vinci's 'Mona Lisa,'" and "The Last Supper"; Raphael's "Maddonna of the Chair," and "Sistine Madonna"; Michael Angelo's "Adam and Eve"; Rubens' "Descent From the Cross"; and Turner's "Fighting Temeraire."

Ten cents admission will be charged of all who attend. All townspeople interested in these works of art are cordially invited to attend.

Mrs. E. C. Van Dyke has been substituting for J. J. Knox and Mrs. J. F. Lawrence has been taking the place of Mr. R. H. Bailey, teachers in the high school.

Jackson School

Banking 87 percent, 100 percent rooms, Mrs. Taylor's, Mrs. Deuel's, Health 80.4 percent, Highest rooms, Jeanne MacSivens and Miss Alice Hansen's, both 90 percent.

Spelling 97.5 percent, Highest grade 21 class 100 percent and 5B class 99 percent.

A large number of children are absent on account of the influenza. Over 250 days absence have been recorded during the last five days.

There is a ruling that children out three days or more must present a doctor's certificate to safeguard the other children. We hope that all remember this so that none will have to be sent home in the cold.

The children of the first A have been studying about the Puritans. Plymouth Town is now represented on the sand table.

The Fourth A and B reading classes have enjoyed using some new and unusual material for their reading lessons. We are now subscribers to a weekly newspaper known as "My Weekly Reader." They are quite like the dailies for older folks and the children seem to enjoy reading of current topics in material which presents it in an interesting, understandable manner.

Our library books arrived. We are keeping a record of the books each one reads.

The Fourth A hygiene class is making a health alphabet book of foods. They are working on the last three letters now and we expect to assemble and bind it tomorrow.

The fifth and sixth grades had a contest to see which class could complete its book reviews first, the winners to get a little time off. Competition has been keen for weeks in all the classes. However, the 6B's have succeeded in winning the laurels and are quite happy over and proud of their achievement. They deserve much praise as they had the largest class, thus the most reports, to prepare. Three cheers for the 6B's!

The children of the department are quite sold on the new system of writing. There has been quite an improvement over the last report. The 5th grade class raised their average from C to B. Marvin Burke, Nevin Cope, Erva Harper, Betty Purdin are the children who show the greatest individual improvement. They each raised their grade in the test 20 points.

Washington School

Three teachers in the department were ill last week. They were Mrs. Bolton, Miss Cronan, and Miss Harding. The substitutes who took their places were Mrs. Central for Miss Cronan, Mrs. Minton for Miss Harding, and Mrs. Newbury for Mrs. Bolton.

Washington school got the highest banking percent last week, which was 102.5 percent. It was especially good this week and the school was very proud of it. It is the highest percent any school has reached this year.

New pupils who came to the Washington school last week were Cecil Rodgers, 1A; Mildred Sutherland, 2B; Garth Baker, 4B; Kenneth Rodger, 4A.

Our spelling average last week was 94.8 percent, with the 3A having highest percent which was 98.3 percent. The 4A had lowest percent which was 89.3 percent.

The health average for the building last week was 85.1 percent. We expect to get a high average next week.

There was one pupil leaving the Washington school last week, John Thomas of the 5B grade, who moved to San Francisco.

IT'S A LONG RED TAPE TRAIL FOR FEDERAL HOUSES

WASHINGTON—(AP) When citizens of a municipality learn that congress has authorized the construction of a government building in their city it may be that they expect to see the structure shooting skyward in a day or so.

But those who understand how painstaking government officials must be in selecting sites through acquisition of land in the construction of buildings, the reasons for the delay between the authorization and starting of construction are clear.

After the appropriation is made, the treasury advertises for bids which are opened publicly. The lowest price asked for a piece of property does not necessarily cause it to be selected. The bids are turned over to a treasury department site agent and a post-office department inspector for joint inspection of the various sites offered.

From three days to a week are required for this inspection. The agents are experts and they study the sites, analyze the bids, give consideration to location from business and transportation standpoints, study topographical and soil conditions, and determine whether the sites are large enough to accommodate the building and approaches.

Their reports are forwarded to the treasury department. Here they are studied first by architects to determine whether a suitable building can be designed for any one of the preferred sites, second by estimators who decide whether the appropriation is sufficient to purchase the site and construct the building; third, to the law division which examines all data and submits recommendations to the

Roosevelt School

These pupils from the 6B class are the reporters for this week: Luetta West, Barbara Holt, Junior Kiene, Dolph Guyer, Mollie Brown, Peyton Snowcomb, Marjory Stewart, Stanley Kuzman, Catherine Brandt, Mary Thompson.

Best Posture

The best posture award in penmanship was won by the 6B class last week because in other written work the posture was good.

Banking

The banking for the building was 81.1 percent, which was not so good as last week, but we hope to improve next week. The highest percent was Miss Aspinwall's, with an average of 111.1 percent. Mrs. Maxwell's 1B-1A room had 100 percent. Every pupil in the 6B class has a bank book, and every body banked. We all will have a thrift button to wear when they arrive from New York.

Fire Drill

We had a fire drill this Tuesday. It took us 72 seconds to get out of the building. It took us 25 seconds longer this time than last time. We hope to have a better record next time.

Health Inspection

The building average in health inspection was 80.6 percent. The banner rooms were the 4A and 5B, both 100 percent.

Pupils Leaving and Coming

The new pupils are getting quite

numerous although many of our pupils are leaving. These are the new ones: Viola Collier, 1B; Viola Collier 2B; Alice Curry 1B; Wayne Curry 4B; Neal Curry 5B; Phillips Curry 2B; Winifred Baker 2A. These are the ones that are leaving this week: Marjorie Herman 1B (Lincoln); Roy Brown 3B (California); James Annung 2A (Lincoln); Delmer Annung 4A (Lincoln); Robert Annung 4A (Lincoln); Deloris Soper 5B (Lincoln); Ruby Heyman 5A (Lincoln).

Spelling

The spelling average for the building was 84.87. We think this is a very good average, but of course we shall try to improve. The 5B had the highest average of 96.1. They are very happy over their good fortune.

Book Posters

We had some very good reading posters for the short time in which we had to make them. There are eleven of them in the public library. We are all very well satisfied with the showing we made. Fourth, fifth, and sixth grades made posters.

Football

The Roosevelt school won the football championship last Saturday by beating the Washington school 23 to 9. Oris Gobie was the outstanding player. He made four touchdowns for our school. Roy Williams did some fine playing also. Eight boys of our team made the all-star team to play the J. H. Midgates Saturday. They are:
