### Ye Smudge Pot By Arthur Perry

This is the season of the year, when plain and fancy poverty protride the most painfully, and scores, who should have remained at home, possess empty gas tanks. Furthermore, they are slowly starving to death among stangers, instead of among strangers, instead of among

Several esteopaths and chire practors attended the wrestling match last eve getting ideas on new holds, for the cure of colds. It was agreed that the one, whereby the opponent is gently twisted into the outlines of a pretzel, ought to cure something.

### THE EXCITABLE PHYSICIAN

(Oregonian)
Dr. James T. Rooks, a neighbor, heard the shots and the screams of Mrs. Burshaw, but thought it was nothing

Fletch Stout, the druggist, has the flue. He should holst him-self on his own petards.

Many of the Galshevikis are wearing two pair of socks, where only one showed before,

Last week was Safety Educa-tion week. The Portland chief of police arose from a sick bed, to write a letter to the papers, admonishing auto drivers not to

Complaint has been filed against small boys shooting woodpyckers, with air-guns, No boy hunter, to date, has mistaken his Paw for a deer.

Jade has been found in Baker county. Jade is what Chinese mandarins give European ladies, in their sly Oriental manner, and in their sty Oriental manner, and what the women folks wear on their little fingers, if they are good bridge players. A jade necklace is more to be desired than a red Packard coupe. If the jade desposit had not been located in Baker county, it would have been found 11 miles northeast of Jacksonville, by a miner squatted on a Nash Hotel radiator.

G. Washington Maddox, the em inent Methodist and shinologist, was accused yesterday of dropping a pants button, in the collection box, and taking out .30 cents in change. The accusation caused Mr. Maddox to flounce out of the barber shop in high dudgeon.

A lion picture is on display at the G. Hunt magic lantern show. Cannibals and natives wilder than farmers, because they can get no Congressional relief, are depicted smoking pipes and cigarettes with great gusto. None of the uncivilized wretches are chewing

Prehistoric football photos show a numbers of hustlers for the civic good in murderous, and other moon.

Win Crowson reports that he is still disposing of chocolates in 5-pound lots to young men, disput-ing the eigarete ad, which asserts that women, have lost their sweets molar.

Robins are on the fence posts Robins are on the fence posts in the Applegate, practicing the spring carols they will warble in front of the Pub. Lib. starting April 6th next. It has always been the notion around here that the robins, skinned out for California right after the county fair. They do nothing of the kind.

Jay Gore has planted 700 acres of wheat, which will not be worth threshing next fail.

The legislature convenes next month, and to date, no steps have been taken to avert it.

Below is printed a poem about a dog, taking a snooze in front of the fireplace. A fleck on the gray of the hearth-

rug; A stretching of dainty bronze

paws;
A-yawn and a curling together
in a ball of beautiful floss!
A glint of the five that is burning
With little snaps of flame;
A glint and the picture is painted
in lines all fair with fame!

There is nothing with fame!
There is nothing wrong with
the poem, but in real life, Mamis
raps the dog in a tender spec with
a shovel, and desires to know
what it means, by bringing fleas
into the house.

improved.

#### KING GEORGE AND THE PRINCE OF WALES

W HILE King George may live for some time, there is very little likelihood that he will ever fully recover from his present illness. For several years the King has bon file from a well man, and this attack of pneumonia, similar to the disease which proved fatal to his father, King Edward the VII, even if finally conquered, can scarcely fail to leave the present King a confirmed, and more or less helpless, invalid.

Whatever the immediate outcome, therefore, it is certain that, unless he formally refuses to accept the responsibilities of his position, the care-free days of the Prince of Wales are over.

Either as Kind Edward the VIII, or as the central figure of a temporary regency, the young man who his sider used to call "Eddy the Lady Killer" will soon assume the cares and obligations of the ruler of the British Empire.

And how he dreads it! It is no longer a secret, that for several years the prospect of becoming King of Dag.

been the Prince of Wales'-nightmare. It has even been ruaverage intelligence.

lar-lawyer-made

Had he considered only his personal inclinations, no doubt he would have taken this action ere this. But not only would such step have meant a definite break with his mother, but the repudiation of the chief article of his sacred personal code.

Above all else, the Prince of Wales prides himself upon be ing a good sport and all a liberal interpretation of that term involves. He could not abdicate without laying himself open to the charge of being a "quitter" and shirking the responsibilities which his position placed upon him. So much as he abhorred the idea of ascending the British throne, he refused to take the only action that would prevent it, and went on his way. doing the things he liked to do, and hoping against hope that something might intervent to prevent what now seems certain, and what he considers such a tragedy,

And only those who understand the political and social conditions in England, and the revolutionary changes that have taken place in the present generation, can understand the Prince of Wales' attitude. Added to this, in Prince Edwards' case, has been his family environment.

While King George has developed from an unpopular monarch to one generally esteemed and respected, it is pretty generally known he has never enjoyed being King of England. He has performed the duties of his exalted office with skill and extreme conscientiousness, but his heart has never been in it.

As King, the Prince of Wales would enjoy a personal popularity never attained by his father. It is probable the responsibilities of the position would develop him, as they did his grandfather whom in many ways he resembles, but subconsciously he he regards the occupancy of the throne from his father's stand-

Moreover, this king business is about played out. Only in Great Britain has it any genuine standing, and even there, in spite of the pleasant fiction about unofficial power, the King remains essentially a figurehead.

Once upon the throne the Prince of Wales would never again be able to call an hour his own. He would literally be the servant of the British people, including the dominant politi-

No more lion hunting, no more polo, no more all-night dances, no more fox hunting-at least not the kind the Prince has enjoyed-and, even more important, no more freedom and privileges of bachelorhood

Day after day he would be presented with his programlaying a corner stone here, attending a country fair there, driving in state somewhere else-the deadly drudgery of a futile and ostentations routine!

Knowing the conditions, one can hardly blame the Prince. Who in his position would want the job!

And yet unless the unexpected happens he will soon be forced to take it.

How times have changed! He will take it as a martyr and with the firm conviction that he will go down in history as the last of the British Kings.

An Ohio woman shot her husband, thinking him a burglar. Now if she would shoot a burglar, thinking him her husband, that would be news.

Congress and the ears run by Ethyl: (And we don't get a cent pneumonia. for the advertising).

may mean sex appeal or a new infant.
