Again comes the warning from City Traffic Officer G. J. Prescott for motorists to observe the double parking and time limit parking rules in the business section, especially at this time in view of the Christmas shopping rush, which has been bringing many out of town motorists into Medford. The practice of double parking at too long periods, even though a driver is left in the car, encourages traffic congestion and parking over the hour limit in the restricted areas of the business section makes it impossible for motorists to find a place to park.
