**Traffic cop gets summons Even he can't get away with it**

"DON'T try to put anything over on Nature," is the way a cop would express it. "Sooner or later she'll get you. Give you a ticket and lay you up in a place where you'd rather not be. Even cops can't get away with it. Like everyone else, if they don't pay attention to the warnings they get a summons that lands them in the doctor's office. "What the doctor advises is Nujol. Says Nujol will regulate you just like we regulate traffic. Keep things from getting in a jam. And the doctor is right. Just ask the healthiest men on the force. If they need Nujol—with all the exercise they get—what about the fellows that roll by in their cars? "Just take a tip from me. You may have the best intentions in the world. But everybody gets tied up at times. Nature can't always take care of things without help. "Our Medical Chief tells me that Nujol isn't a medicine. It contains absolutely nothing in the way of medicine or drugs. It's simply a pure natural substance (perfected by the Nujol Laboratories, 26 Broadway, New York), that keeps things func-

tioning at all times as Nature intends them to. Normally, Regularly. It not only keeps an excess of body poisons from forming (we all have them), but aids in their removal." Start Nujol today. It won't cost you much—not more than the price of some smokes. Worth a try, isn't it? You'll find Nujol at all drugstores. Sold only in sealed packages. Get some on your way home today.

It is not expected to begin the work of altering the building until more suitably weather, along in the spring. The work will be finished, accepting the plans in time for the grand lodge session to be held in this city in May.
