"Not so cloudy this morning"

"The coffee again I suppose?"

"Yes, but today it's wonderful."

"Really? That's a relief. Now we'll stick to M-J-B."

Many people find that with M-J-B, the strong blend, they use slightly less coffee. But whether you make it strong or weak, M-J-B has a flavor that only the strong blend can give.

Now it comes to you in an improved friction top key-can available only to M-J-B users, packed by our own vacuum process.

country and has lived in south Jacksonville for a number of years. Funeral services were held at the Catholic church here Thursday morning. Father Meagher officiated. The remains were laid to rest in the Jacksonville cemetery.

Silk Enters Cotton Home
MOSTON, Mass.—(AP)—Silk manufacturing is invading New England, traditional home of the cotton manufacturing industry. With-

In a short period plans for four new silk plants were announced.

Utopia for Kids
IOWA CITY, Iowa.—(AP)—A children's hospital of the University of Iowa not only permits its young patients to use sling shots but encourages target practice. First class mail is the only major class of United States mail that is self supporting.

Do these two things to avoid "flu"

Keep your system in good condition; also protect your nose and throat

There's no need to get panicky, because the papers are full of news of an influenza epidemic. There's no use in isolating yourself because a lot of other people are sick with it. If you take certain simple precautions every day—and then don't worry—the chances are you will throw off any "flu" germs you are exposed to, and keep well.

We're not recommending that you dose yourself with a lot of medicines, either. Just observe two common-sense health rules which can be easily followed.

First of all, make sure your system is in first class order. Don't let it get slowed up or sluggish. Set to it that it functions perfectly. The easiest way to get run down and in a condition to pick up disease is to neglect this all-important matter.

Physicians agree that, particularly in times of epidemic, purging by laxatives and cathartics is not advisable. Many doctors are therefore prescribing Nujol, as in no case does it cause exhaustion or weakening of the system in any way.

Nujol can't possibly upset you or disagree with you. For it contains absolutely no medicine or drugs.

Get a bottle today at your nearest drug store and start taking Nujol tonight as one simple way to keep fit and to protect yourself against influenza.

That's the first precaution. Now for the second. Keep your nose and throat well protected with Mistol.

Dr. David says:

"You can't help breathing air that's laden with 'flu' germs and other bacteria these days. But you can protect your nose and throat against them. Keep them from lodging there and breeding and causing trouble."

"I'm advising all my patients these days to keep Mistol on hand and use it regularly. The first thing in the morning before you go out. And again at night when you come home. Don't be afraid to use it freely. It will do no harm. And then stop worrying. You've done all you can to safeguard yourself."

"Put Mistol up your nose. There's a special dropper that comes in every package that makes it very easy to use. Just tilt your head back and drop it in your nose until you feel it

in your throat. You'll notice the pleasant, cleansing effect at once. Mistol clears your head and makes breathing easy. It has a healing, soothing effect on the membranes and relieves any irritation or inflammation. It helps dry up a running nose. Use it, too, as a gargle. Mistol is good for a sore throat or hacking cough. And above all, protects the nose and throat against germs.

"Don't wait till you begin to sneeze or your throat aches. Take my advice and get a bottle of Mistol today. Every druggist knows it."

The combination treatment of Nujol and Mistol is a double safeguard against influenza. Start this wise two-fold precaution now. Don't delay.

Nujol and Mistol are both made by the same famous laboratories, of the finest quality materials and with the greatest skill possible. Both preparations are harmless. At all druggists. Aren't they worth trying?

Don't take needless risks with flu

germs may be spread by hands

Wash often with the toilet soap that removes germs as well as dirt

AGAIN flu threatens!

Once more health authorities are fighting it, calling for your cooperation, urging every precaution.

Seven protective measures against flu—listed below—have been compiled by the Life Extension Institute. Study these rules carefully. Follow them all—especially rule No. 2 about keeping hands germ free. The simplest rule of all—yet one of the most important.

For your hands are continually coming in contact with germ-laden objects—car straps, banisters, door knobs, public telephones, money—and many more things that you and your children must touch.

And, since it is not yet certain exactly how influenza is spread, it is doubly important to do all you can to avoid it. Hands may carry it. Note statement of U. S. Public Health Service on how germs are spread by hands.

So, take this simple precaution and urge every member of your family to

What U. S. Public Health Service says:

"If a germ could talk, it would tell you that nothing pleases him more than to get a free ride from someone's soiled hands to some other person's mouth."

—U. S. Public Health Service Broadcast No. 96

Don't fear Flu—fight it

These seven ways

1. Keep out of crowds all day.
2. Re-avoid germs from hands as often as possible.
3. Get plenty of rest, sleep, exercise, fresh air and nutritious food.
4. Avoid exposure to chill and wet, especially when tired.
5. Fasten yourself up in a well-ventilated room.
6. If you have the flu, don't take a doctor's advice until a doctor is careful. It is a danger.
- 7.

do the same. Wash hands oftener—always before eating and always with the toilet soap that removes germs as well as dirt.

The favorite toilet soap of millions purifies

Millions demand Lifebuoy for every toilet and bath purpose, just because they find it so refreshing, so cleansing, so safe for delicate skins, so effective in keeping away perspiration odor.

But Lifebuoy is far more than just a fine toilet soap. Its penetrating antiseptic lather removes germs as well as dirt.

Note its re-assuring hygienic scent

Lifebuoy's pleasantly hygienic, re-assuring scent, which vanishes as you rinse, tells you it gives greater protection. Yet Lifebuoy costs 10% more—probably less—than the soap you now use.

You can get Lifebuoy wherever soap is sold. Start using Lifebuoy today as a common sense health measure.
