H. ALFORD WINNER AGENTS' CONTEST OF OIL COMPANY

The December issue of "Motormates," a magazine published by the Associated Oil company, contains the following announcement telling of H. L. Alford's success in winning a recent contest among agents: "Now that the battle is over it is assumed that the first five agents are looking forward to the presentation of the prizes they have worked so hard to capture. H. L. Alford, agent at Medford, Oregon, was the first man under the wire and thereby wins the \$150 first prize. B. W. Webster, Bellingham, Wn., takes the second prize of \$100; E. A. Barriere, Salinas, the only California man to finish in the first five, wins \$75; while J. R. Wiegand, Bandon, Oregon, and W. L. Hoadley, Yakima, Wn., take the \$50 and \$25 offered as fourth and fifth prizes respectively. "Alford was an 'in and out' for the first six months of the contest, showing in the 'first ten' group in March. He then disappeared until July, when he bobbed up in second place. The next month he went into the lead that he held until the end."

MICKLE TELLS LIONS INFLUENCE OF BOVINE UPON HUMAN HISTORY

The influence of the 'Cow Upon Human Civilization' was the subject of an intensely interesting talk given before the Lions club this noon by John Mickle, state dairy and food commissioner who is in Medford this week attending the dairymen's convention held at Hotel Medford. He was followed on the program by Professor P. N. Brandt, head of the dairying department at O. S. C., who was introduced by H. G. Fowler, local county agent. Judge Harry Norton, another guest at today's meeting, was elected an honorary member of the organization, and the two new clubs, Clay Parker, and Earl Davie, after being introduced formally, were given a viceroy's coin. A group of three clever novelty soft shoe dances were contributed to the program by Fred McKeen, who was accompanied on the harmonica by Marvin L. Shephard, of Klamath Falls, who represents the Ochs E. White company of that city. William Kirkpatrick, local baritone, sang three delightful numbers, "Last Night I Was in Heaven," "Sonny Boy" and "Girl of My Dreams," accompanied by Dorothy Reynolds.

KIMBALL PACKING SHED TO BE MADE MEDFORD MODEL HAMILTON PATTON BOY SCOUT CHIEF FOR COMING YEAR

Medford holds a unique place among fruit centers throughout the country, and her industrial and geographic demands must be respected by fruit companies in the east, if they wish to succeed here," said Richard Kimball, associated with his father in the ownership of the Kimball Fruit company of New York, who arrived here by motor from Sarro yesterday afternoon. Although dealing regularly with the fruit growers of California, Oregon, Washington and Idaho, Medford is the only locality where the Kimball fruit company found it necessary and desirable to erect a packing house. The New York-er explained the situation, by stating that Medford holds a peculiar position among fruit belts, and for that reason, together with the rapid growth of the community, the only solution of the problem is to deal with local growers through a packing house operating here. The \$25,000 packing shed, which is to be erected opposite the Southern Pacific freight depot, will be one to which Medford residents can point with civic pride, according to Mr. Kimball, who states that no pains will be spared to make the building as attractive as possible, even to the planting of shrubbery and vines about the property.

SERVICE STATION RIGHT IS SOUGHT SIXTH AND FRONT

The city council at its special meeting last night received a petition asking permission for a new service station to be erected on the vacant lot site corner of Sixth and Front streets, about opposite the city hall, which was referred to a committee for investigation. It is understood that the Standard and Shell Oil companies are both after this location. Three other new service stations are in the offing, it is claimed, although most citizens marvel that there are so many now and wonder how they all live and prosper. Service station business in Medford must be good or else there would not be so many stations. The city building department today revealing there are 21 such establishments now in operation within the city limits. The total in the next two months is expected to reach 25, as three
