

MEDFORD, OREGON, FRIDAY, FEBRUARY 1, 1929.

No. 312.

SINGING TOWER DEDICATED BY MR. COOLIDGE

Material Prosperity Unavailing if Spirit Starving, Says President at Bok Sanctuary — Sees New Era in America.

MOUNTAIN LAKE, Fla., Feb. 1.—(AP) Declaring that "the material prosperity of our nation will be of little avail unless it is translated into a spiritual prosperity," President Coolidge today dedicated the Mountain Lake Sanctuary and Singing Tower, a gift from Edward W. Bok to the American people.

The sanctuary was established by Mr. Bok as a woodland retreat for visitors from all sections of the country and designed as well to attract birds of many species. On it has been erected the singing tower containing a carillon of 61 bells.

A new era, Mr. Coolidge said, has come to America bringing to the people at large what in former days was set aside for the enjoyment of a fortunate and privileged few. From the raw materials, he said, a nation had been created and now the great body of the people was "sufficiently relieved from the pressing necessities of existence" to "give some thought to the art of living." The useful and practical, Mr. Coolidge added, was being supplemented by the artistic and the beautiful.

Looking into the past, the president saw a constant and inexorable movement in this direction. Popular education, the free public school, the endowed college and the state university he regarded as the essential sources of the new era and to these he added the more recent development of public art galleries, "public concerts for the presentation of the best music and the opening of innumerable public parks."

Rich Aid Art

But as a factor of prime importance in the movement toward the artistic, Mr. Coolidge cited "an increasing number of individuals who have sufficient resources to enable them to minister in a most substantial way to the humanitarian and artistic side of life." Some of the largest fortunes that have been accumulated in America, he added, have been devoted almost entirely to such charities.

"We can not observe this movement without smiling a little at those who but a short time ago expressed so much fear lest our country might come under the control of a few individuals of great wealth," he continued. "They claimed that the rich were growing richer and poor growing poorer. Our experience has demonstrated that the reverse of this would be much nearer the truth. So many of our people have large amounts of property that it has taken on the aspect of being common. The distinction it once carried is gone. It is doubtful if there ever was a time when even great wealth gave its possessors so little power as at present. Their money is of very little value in determining political action. Capital is so easily secured for any promising enterprise that it is no longer necessary to be rich to go into business even on an extensive scale. The possession of money has never been sufficient to gain

SPENT \$1500 TRYING TO GET WELL

Then Kellogg's ALL-BRAN Brought Relief

This startling letter from an ex-serviceman will interest everyone who suffers from constipation:

"I was discharged after the World War with heart trouble and bad stomach. I had saved about \$1500. Since then I've spent that sum and a lot more on doctors and operations and medicines. I always was bothered with constipation.

"I told my wife to get some kind of light breakfast food and I would try it. She came home with a small package of Kellogg's ALL-BRAN. I ate it for breakfast, lunch and dinner, about a common tea-spoonful with milk at each meal. I have been doing this for about a month. I have stopped taking dope (medicines). I work 9 to 12 hours. I have a good appetite. And now I am gaining flesh and have my bowels getting well."

—GEO. C. O'CONNOR, BARRETT, N. Y.

Cleanse your system of constipation's poisons. Thousands have regained their old-time vigor and vim, stopped constipation forever, by eating Kellogg's ALL-BRAN.

Eat two table-spoonfuls daily—in chronic cases, with every meal. Relief is guaranteed. ALL-BRAN is 100% bran, 100% effective—doctors recommend it. Ready-to-serve with milk or cream. Use in cooking. See the recipes on the package. Made by Kellogg in Battle Creek. Sold by all grocers. Served in leading hotels and restaurants—dining cars.

BROWN STEPS UP IN NEW JOB FOR A PORTLAND PAPER

Arthur Brown, veteran newspaper circulation man and former district manager and solicitor for the Oregonian in southern Oregon, has been promoted this week to the higher salaried position of assistant zone manager. Mr. Brown, who has been working in this district, which takes in all the territory from Roseburg to Sacramento, for the past 17 years, has built up not only a steady circulation for his paper, but a wide circle of friends throughout southern Oregon.

His former position of district manager is to be filled by William Bell of Portland, who arrived here the first of the week. Mr. Bell has been connected with the Oregonian circulation department in the league office for the past few years.

FIVE FEET OF SNOW NOW AT UNION CREEK

During the past week snow has fallen so heavily in the high mountain regions that today five feet of snow was reported at Union Creek and 14 inches of snow at Prospect.

Based on comparisons of figures prevailing in past years between Crater national park points and the above mentioned places, it is thought here that there is now at least seven feet of snow at the west end of Crater national park. The national park, which is situated at the foot of Mount Hood, has been closed since the snow depth at the rim will not be known until the monthly report of the caretaker of the lodge is received here or at Klamath Falls.

LAKE CREEK GRANGE OPENING DANCE SET FOR SATURDAY, FEB. 9

LAKE CREEK, Ore., Jan. 28.—The Lake Creek Grange will give a big opening dance on Saturday, February 9th. A six-piece orchestra will furnish good music for this occasion, and supper, such as only Lake Creek ladies can prepare, will be served free. Please keep the date in mind.

A business meeting, at which a good many important matters were discussed, was held at the local grange on Thursday evening. Under the direction of Mrs. Alma Meyer, chairman of the community projects committee, a most interesting report and discussion on winter blue grass was carried on. Mrs. Meyer furnished a sample of the growing plant, raised by Staley's, for examination by the members.

Mike Hanley, Jr., gave an excellent report on his own experience with this crop, adding information regarding its culture on his aunt's ranch where it has been extensively and very successfully grown. Other members added opinions on the subject and accounts of their varied experiences with winter blue grass.

Mrs. Alma Meyer announced that the agricultural committee had reserved a fund sufficient to provide seed for any members wishing to experiment with crops, the only provision being that a generous sample be saved for the fall. Overseer Reed Charley immediately ordered two hundred pounds of alfalfa seed, but after considering the obligations attached to the crop produced under such arrangement, decided to cancel his order.

Chaplain Russ Moore, as chairman of the relief committee, reported that Mrs. Daisy Nickell, who has been quite ill for some time, may be gradually improving. All hope for her speedy recovery.

It was requested that members contribute dish towels for the use of the home economics committee. The ladies ask that the initials, L. C. G., or other distinguishing mark be placed in the corner of each towel. This seems a splendid opportunity for brothers of the order to get some valuable experience in domestic art.

The grange voted to use money from the treasury to send their lecturer to Corvallis to the lecturer's conference to be held there on February 11, 12, 13.

After lengthy discussions on other subjects, the grange was closed and lunch served.

Members of the local grange and also of Jackson County Pomona grange, who attended the Pomona meeting at Talent Saturday and enjoyed the beautiful chicken dinner served by the Talent Grange, are: Mr. and Mrs. Floyd Charley, Claus Charley, Mr. and Mrs. C. R. Moore, Mr. and Mrs. George Brown, and Beth Parlow.

These people feel that the Talent Grangers are surely to be commended for their hospitality. Leonard Bradshaw has purchased a new milking machine. The next meeting at Lake Creek will be held on the regular social night, Feb. 14th. Since this is St. Valentine's Day, each member attending is asked to bring some sort of simple valentine for a val-
