## High School

Biology is getting to be a popular subject at the high school, and about 15 classes are taking it from this department, because the classes were all full. There are about 115 enrolled in five classes. E. M. Husong, who teaches four of these classes, has 34 enrolled in each, and Mrs. Zoe Hubbs teaches one class with about 17 or 18 pupils enrolled. Unfortunately for those who were turned away, they could not arrange their schedules so as to take biology at these periods. According to Mr. Husong, special study of health will be taken up next week, an observance of health week. "We don't study health one week a year, but 38 weeks," he said.

Over \$325 was banked by students at the high school this last week on bank day. Adra Edwards, Kathryn Stearns and Gladys Higgins were appointed cashiers for the new freshman roll room. Medford has one of the highest banking records on the Pacific coast.

The advanced agriculture class of the local high school has been busy building hayracks during the past week. They have already completed one for Mr. Latham of Central Point, and are now working on another for Mr. Chester Wendt of Jacksonville.

The agriculture school that has been held at the high school twice a week for the past several weeks, under the direction of C. D. Thompson, agriculture instructor for the high school, will hold its last meeting Wednesday evening, February 13.

Another debate will be held at the high school next Wednesday evening, between the Ashland negative and the Medford affirmative. Laura Drury and William Dougherty make up the affirmative team to represent Medford High School. A debate will also be held in Grants Pass Wednesday evening, and one in Ashland.

A short assembly was held Wednesday afternoon, in order to urge the students to attend the debate that was held that evening. Mr. Bailey had charge of the assembly. The four debaters were called to the platform and introduced to the student body by Drury and William Dougherty, in Grants Pass. A large number of students were present at the debate Wednesday evening, and showed much interest.

The United States history classes have been busy this last week writing essays on the constitution. A prize is being offered by the high school for the best essay. Any phase of the constitution may be considered in this work.

This week will be "Health Week" at the high school, and all of the different departments will carry on some work pertaining to health. Miss Jean Beasley, representative of the Oregon Tuberculosis association will be at the high school and give talks to the students. A "Health" assembly will be held Wednesday.

The Latin club of the high school held a meeting Thursday afternoon, at which an address was made to put an edition of the Hi-Times March first. Some assignments were given out at this meeting. Plans are also under way for the members of the club to go on a skit party.

The pep assembly, in charge of Stan Wilcox, which was held Friday afternoon, was unusual, as there were a number of the Salem players present, who gave a short talk. Mr. H. C. Terrell, a former English teacher in the high school was present, and gave a short talk before the student body. The singing was in charge of Miss Elvora Hubbard, song queen.
