

GOLD DIGGERS OF 1929 WOULD LIKE TO SEE FILM TOO

"Why are these gold miners who have been in the '29' asking a bevy of local flappers this morning? The question was prompted by recent publicity given to the fact that the Mail Tribune will be host to local miners who have been in Alaska either before or since the days of the Klondike gold rush, to see the stupendous moving picture epic, 'The Trail of '29,' which will open at the Radio theater next Monday, February 18. Such local people are asked to come to the Mail Tribune office and get their passes as early as possible this week.

"Why not give the gold diggers of 1929 a chance to see a good show?" demanded brown-eyed Katie O'Rourke, employee of the Maytag company.

"Such a treat would be highly appreciated by the '29 variety—more so I'll wager, than by the boys of '28," added Betty Jones of the Ethelwyn Hoffman shop.

"The Gold Diggers of '29, have it all over that bunch that blazed the trail of '28," said Georgia Edwards, of Russell's Inc. "Especially as far as technique and finesse is concerned. They talk about all the hardships they underwent—well maybe they did, but the gold digger of 1929 doesn't blunder that way. She knows her gold mine before she starts digging," she said.

"Sure," the Mail Tribune ought to give passes to the modern gold diggers in preference to the old-timers," said Louise Fuhner, "just on general principles. In the first place, the miners of '28 have been over the trail once, and instead of retracing their steps in this picture they ought to let the 1929 gold diggers go, and spend their time studying up on modern progress."

"Well, if you insist on treating the miners of 1928 to see that show it's all right, so far as I'm concerned," said Myrna Bush of Mann's, "but in this line of cooperation between the old and new methods of doing things, it seems only fair to issue a few passes to the modern gold diggers."

Chorus: "Of course I'm not talking for myself—get that straight—this is just a plea for the well known modern gold diggers—"

WOODMEN'S LODGE OF GOLD HILL TO PUT ON CARNIVAL

GOLD HILL, Ore., Feb. 14.—(Special)—The Modern Woodmen of America lodge of Gold Hill will give a special evening on Thursday, February 14 at their hall in this city.

An entertainment on the plan of an indoor carnival will be given. It has been arranged for a radio to be put into the hall during the first part of the evening for the entertainment of the guests. A number of booths are being built.

One of the main arguments to be presented on this evening will be the showing of motion picture films. The pictures are of the New Modern Woodmen Sanatorium, which is located at Colorado Springs. They are educational and take a man from the time he gets some disease until he is sent back to his home, after the cure has been effected.

Mr. and Mrs. J. C. Walker left on Wednesday for Oregon City. While there, they will visit with Mrs. Walker's mother, Mrs. Minnie Lowe. They expect to return to this city within a week or so.

Mr. and Mrs. J. C. Walker left on Wednesday for Oregon City. While there, they will visit with Mrs. Walker's mother, Mrs. Minnie Lowe. They expect to return to this city within a week or so.

It is necessitated that John Sutton be on crutches this week because of an injury to his foot suffered while employed on the Phoenix crew. A heavy tile accidentally fell on him, while he was working. He will be able to return to his work in the near future.

Mr. and Mrs. L. Whist of this city were business visitors to Medford the fore part of this week.

The Gold Hill high school basketball team will meet the Phoenix high school team on the Gold Hill gymnasium floor on next Friday evening, February 15. The three papers that were out of the Gold Hill team are now back in the lineup and will be in the game on Friday. A good crowd is expected to attend the game.

Mr. and Mrs. C. W. Rose were visitors to our city the fore part of this week.

Homer Wyatt suffered a broken arm Monday, while working at the cement plant.

The building owned by Frank Childers and formerly occupied by the grocery store of R. O. Morelock is now being repaired. The pipe organ motor, which was left in the building from the time the theatre was last open, has recently been removed and sent to San Francisco. A number of pipe repairs are being made on the pit in which the organ was set, as well as several other minor repairs.

Mr. and Mrs. Norman Duncan returned the first part of this week from Myrtle Creek, where they have been for a few days, visiting with relatives in that city.

Ed Bolt was hurt this week, while working at the Lively Lumber plant on Kanon creek. He accidentally fell from a tree, suffering injuries to several ribs and a number of minor bruises. He is reported to be slowly improving at present.

The Boy Scouts met on Tuesday evening at the Library room in the high school. Not much was done toward organization. The Scout executive from Medford was present to assist in promoting the organization. All present were in favor of joining the troop, if it could be promoted. Formerly there were two troops of Boy Scouts in this city, but they have not been in action for over a year. Much interest seems to be taken in such a move by all the boys who want to join. Another meeting will be held at the same place next Tuesday evening. At that time the real organizing of the troops will begin and a number more boys are expected to be present.

Vernie Whitsett of Portland is visiting with his relatives, Mr. and Mrs. Lawrence Whitsett, of this city. He will reside here for about a month after which time he will return to his home.

Looped The Loop

Maxine Dunlap, Oakland, Cal. stenographer and aviator, who looped the loop and performed other stunts on her first solo flight recently at Mills field, San Francisco.

C. E. RALLY HELD AT GRANTS PASS

(By Rev. J. M. Johnson.)

An unusually fine Christian Endeavor rally was held in the Presbyterian church, in Grants Pass on Sunday afternoon, February 10th. The Endeavor societies of the following churches were represented: Ashland Christian, Ashland Congregational, Ashland Presbyterian, Phoenix Presbyterian, Jacksonville Presbyterian, Medford Christian, Medford Presbyterian, Rogue River Presbyterian, Granddale Presbyterian, Grants Pass Christian, Grants Pass Presbyterian, Central Point Federated.

The purpose of the rally was mainly to begin preparations for the coming state Christian Endeavor convention which will be held in Salem, April 18-21. Nearly all the societies in the Crater Lake union were represented by fine delegations. It was very noticeable by the writer that the societies in the city of Grants Pass were among the lowest in registration. As we do not know the local conditions here, there are no criticisms. Phoenix Presbyterian society had more registrations than both the local societies together, 24 being present from that place. The Ashland Christians were far in the lead in registrations, having 62 present, and they took home the "shield" given to the society having the most credits, based on attendance and miles traveled. There were 229 registrations counted.

Crater Lake union was assigned 25 registrations for the state convention. At the rally on Sunday afternoon about 30 were registered for the convention. This gives our Crater Lake union the third place in the union, which is always a stirring thing.

Endeavorers desiring to go may register with the secretaries of their local societies any time up to April 10th. One dollar is the registration fee, payable in advance.

The next rally of the societies will be held in the Christian church in Medford on Monday evening, March 18th, when another fine time will be enjoyed.

Ross Guiley, the new state field worker, was present on Sunday afternoon and was heartily received by the delegates.

HARD-BOILED YOUTH OF CHICAGO CARRIES GUN AND IS HOLDUP

CHICAGO, Feb. 14.—(AP)—Twelve-year-old Joe Dowling, who carries a gun and has a gang, told police today he had taken part in 150 holdups since the time he was nine years old.

When arrested last night as he was offering a \$150 diamond ring for sale for \$5, Dowling had a loaded pistol in his pocket, a flashlight and a ring of keys. Two boys, one nine the other 12, were arrested at the same time, but Dowling told police they had been on only three "jobs" and were "amateurs."

He was asked about the pistol. "A guy's gotta have a gun," said the boy, who is small for his years. "Suppose the dicks caught me, and I had a chance to shoot it out with them? I've had lots of guns. Some I got in flats. One time me and a kid named Caughlin—he's doing a stretch now—stole a car and drove to Gary, Ind., and bought two shot guns from a guy. On the way back Caughlin took a shot at a farmer in a field and knocked his hat off."

Police said they had verified several of the burglaries to which the boy confessed.

Redwood highway will be opened from Grants Pass, Oregon, to Crescent City, California.

Radio Gives Advice Nosebleed Victims

EMERSON, O.—(AP)—E. W. Harris' claim to fame is that nose of his nosebleed was broadcast from coast to coast.

For days Harris was unable to stop the nosebleed. Finally his plight was broadcast as an item of Iowa news. Harris was deluged with telephone and telegraph messages, each suggesting a "sure cure."

One well-wisher from Los Angeles wired him, collect, with this advice: "Read Ezekiel 16:3 three times, have faith, and you'll be cured."

The nosebleed stopped without recourse to any of the advice.

Grants Pass—Petition filed for installation of four street lights between Sixth and Seventh streets.

Prominent growers say:

"For clean trees use S-W DRY LIME SULFUR"

Control San Jose Scale and Blister Mite

Experienced growers are using this improved, dry, powdered spray more each year to insure profitable "pick-outs". S-W Dry Lime Sulfur controls San Jose Scale, Blister Mite and other pests. Mr. Fred W. Olds of Wenatchee, Washington, says—"In all my years of orcharding in this district I believe it comes nearer filling the bill for a perfect dormant spray than anything I have used. It kills San Jose Scale as good if not better than the liquid used at the rate of two pounds of dry to equal one gallon of the concentrate solution."

This convenient dry form saves time in mixing, in applying. It cuts trucking and labor costs. No "empties" to return. It is more economical to use than the liquid.

The stabilizer added to Sherwin-Williams Dry Lime Sulfur gives it a prolonged "punch" that is not present in the "liquid." It actually lasts longer on the trees. Insure your crop by applying the modern Lime Sulfur spray.

No trouble with S-W Free Mulsion (A high viscosity, highly refined, safe, dormant oil spray)

For heavy infestation of Scale, Red Spider (Brown Mite, European Red Mite) and Aphis, use S-W Free Mulsion, the improved dormant oil spray. Mixes with hard or soft water.

See our dealer for further information and prices on Dry Lime Sulfur and S-W Free Mulsion.

SCOUTING

The first court of honor for the year will be held Thursday, February 14, at 8 o'clock, at the court house. The method of procedure for this court will be slightly different from past courts in that there will be a preview before the actual court begins. The boys who are up for advancement will be expected to be at the court house at 7 o'clock to appear before an examining board that will determine whether the boys are qualified for advancement.

Troop No. 11 from Beagle is certainly to be envied as there are only two boys in the troop and there are 11 awards to be made. Troop No. 23 from Talent has 12 boys who are up for advancement from tenderfoot to second class.

Everything points to a very successful court, as there will be one palm award, one star, 79 second class, four first class and 26 merit badges.

Other items of interest are: Alan Carley will be presented with the Harmon Foundation award, the prize will be awarded for the title of the Scout publication and there will be a Scout program by Troop No. 3.

Grants Pass—Southern Oregon Gas corporation will extend main line in this city.

Klamath Falls—Green Lantern Cafeteria changes hands.

"Before My Baby Came"

"Lydia E. Pinkham's Vegetable Compound puts new life into me and makes my work in the store and in the house easier. I took several bottles before my baby came and am always singing its praises to my friends. I recommend it for girls and women of all ages. It makes me feel like life is worth living, my nerves are better and I have gained pep and feel well and strong."—Mrs. A. R. Smith, 803 S. Lansing Street, St. Johns, Michigan.

FARM INCOME IS HALF BIG ENOUGH

CORVALLIS, Ore., Feb. 14.—(AP)—The average farm income for the average family of five in Oregon was declared here at sessions of the Grange lecturers' school to be scarcely half what was deemed necessary to maintain a wholesome living standard.

The standard farm home was the theme of final discussion of the school.

James C. Farmer, national Grange lecturer, said the public must be educated up to the value of farm products, just as it is to manufactured products. The Grange, he said, must make this a part of its program, to train the consumer to pay what farm produce is worth rather than to seek to give the lowest possible price.

Hazelhurst Dickinson Eagle, G. E. Hazelhurst of the Western Electric company, who is in the city with C. O. Johnson of the same concern engaged in special electrical work at the long distance telephone exchange, declared the honor attributed to him on the local golf links in connection with an eagle two on number one hole, last Sunday. The miracle approach—a 17-foot-er which found the cup, was made by Mr. Johnson, it has been disclosed.

Traction Mile After Mile

No matter what condition the highways may be in—wet and slippery; rough and bumpy or hard and smooth—the new GOODYEAR will deliver the maximum service.

Supertwist Cord Carcass explains the astonishing ability of Goodyear's All-Weather Balloon to absorb punishment.

Supertwist S-T-R-E-T-C-H-E-S! It is just as strong as the old style cords. But it stretches farther before it breaks—stretches and recovers like a rubber band. Blows that would break a carcass composed of less flexible cord do not affect Supertwist.

And no other tire has Supertwist. It is patented—an exclusive Goodyear achievement.

GOODYEARS GRIP the road when you step on the gas or brakes and Goodyear Tubes offer service comparable with GOODYEAR Tires.

Our Repair Service
Our Goodyear repair equipment enable us to offer the very finest repair service. Years of experience are reflected in our tire repairing—and it costs no more.
