It was either because Fujii played exceptionally well or Maru was far off his game that Fujii defeated Maru in last night's game of the city billiard tournament by 250 to 118 in 26 innings, making an average of seven points for each inning. The winner made a high run of 36 and several nearly as large, while Maru made a run of 29 and missed several shots he ordinarily makes. Tonight Maru will play Chris Gottlieb, followed by a game next week between Fujii and Gottlieb. If the latter wins both games he will be tied for first place with Fujii, necessitating the playing of another unexciting game of another game. **327**
